SAP Ariba

Support for catalog files in Microsoft Excel format

Dan Schunk, SAP Ariba
Target GA April 2018

SAP Run Simple

Feature at a Glance
Introducing: **Support for catalog files in Microsoft Excel format**

Customer challenge

Today, only cXML, CIF and BMECat formats are supported for electronic catalogs. Building and maintaining these catalogs requires some technical knowledge around file formats.

Meet that challenge with **SAP** Ariba

With this feature, SAP Ariba solutions support catalog files in Microsoft Excel format, both when imported locally, as well as downloaded from Ariba Network.

Experience key benefits

By supporting a catalog format using in Microsoft Excel, users can more easily build and maintain their online catalogs.

Solution area

Operational Procurement

Enablement information

On by default for customers already enabled to use Ariba Catalogs and should be CMS enabled
No action required.

Value measure		low
Ease of implementation		simple
Regional limitations		global
