SAP Ariba

Feature at a glance
Previewing the list of invited suppliers

Dan Pouliot, SAP Ariba
Target GA April 2018

SAP Run Simple

Feature at a Glance
## Introducing: **Previewing the list of invited suppliers**

Customer challenge

When you pick the 'Invite Supplier' option, there is no way to add the suppliers to an invitation list or preview the list before invite.

Meet that challenge with **SAP** Ariba

This feature merges the Invite by Vendor and Invite by Supplier pages together to provide robust invite functionality including:

1. Invite by vendor ID or name
2. Reduce the number of attributes of the supplier shown on the listing
3. Invite filtered by best matches
4. Invite by supplier quote groups

Experience key benefits

This feature allows a Buyer improved productivity, where they now have an easy and quick way to find and invite a supplier or group of suppliers

Solution area

Operational Procurement / Network Procurement / Quote Automation

Enablement information

On by default for customers already enabled to use Quote Automation.
No action required.

Value measure		high
Ease of implementation		simple
Regional limitations		global

Feature at a Glance

Introducing: **Previewing the list of invited suppliers**

Enter a search term and search it as a vendor ID

Ability to filter suppliers as a quote group

New section that allows the user to add to Invitation list, Clear the list and also preview the selections before you invite. You can remove the suppliers from the invitation list from the preview option
