Feature at a Glance

Introducing: Labeling of RFQ postings that suppliers are not interested in bidding for

Customer challenge

The supplier can indicate that they are not interested in responding to an event, However, this is not reflected on the listing page which requires them to go into the event to understand their preference.

Meet that challenge with **SAP Ariba**

This feature improves the listing page to now show a visual indicator that the supplier has marked the event as "Not Interested".

Experience key benefits

Suppliers will open events they have not previously viewed to ensure they review events in a timely fashion.

Solution area

Operational Procurement / Network Procurement / Quote Automation

Enablement information

On by default for customers already enabled to use Quote Automation.

The screenshot displays the SAP RFQ management interface. At the top, there are four tabs: 'Invitations' (4), 'Matches' (0), 'Watchlist' (0), and 'Responses' (0). Below the tabs, a message states: 'Match confidence indicates in percentage how closely your company profile matches the buyer's requirements.' The main section is titled 'My Leads' and includes a 'Sort by: Date - Most Recent' dropdown. The leads are listed in a table with columns for 'Posting', 'Ending', and 'Opportunity Amount'. The first lead, RFQ 600000450, is highlighted with a red box around the 'Not Interested' label. The other leads are RFQ 600000452, RFQ 600000451, and RFQ 600000100.
