

SAP Ariba 

Feature at a glance

Showing bid details in the supplier's currency

Dan Pouliot, SAP Ariba
Target GA April 2018

Feature at a Glance

Introducing: Showing bid details in the supplier's currency

Customer challenge

Buyers cannot see what the exact value was entered by the supplier. This creates an issue if there is a different value sent out on the PO due to exchange rate issues. This results in calls to the buyers which reduces their productivity.

Meet that challenge with **SAP Ariba**

This feature adds an option for the buyer to see the exact value in the currency as entered by the supplier.

Experience key benefits

Buyers view the bid value today in their own currency (event currency). However, this is not the value that goes out in the PO (which is the supplier's actual bid in the supplier currency). The buyer would like to see it online to ensure before any PO approval that there is no confusion and also answer questions improving their productivity. This is only for high asset purchases that require an approval flow.

Solution area

Operational Procurement / Network Procurement / Quote Automation

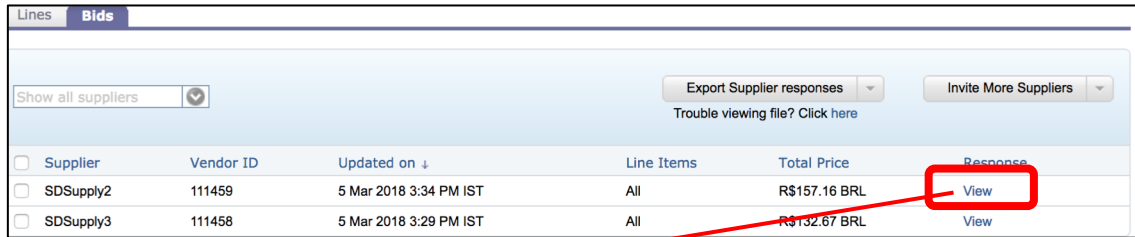

Enablement information

On by default for customers already enabled to use Quote Automation.
No action required.

Value measure		high
Ease of implementation		simple
Regional limitations		global

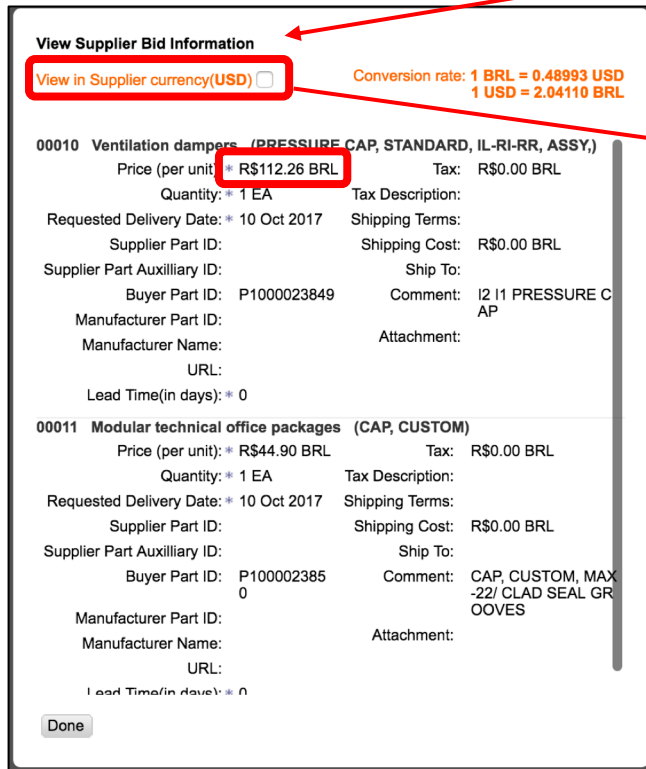

Feature at a Glance

Introducing: Showing bid details in the supplier's currency

Supplier	Vendor ID	Updated on ↓	Line Items	Total Price	Response	
<input type="checkbox"/>	SDSupply2	111459	5 Mar 2018 3:34 PM IST	All	R\$157.16 BRL	View
<input type="checkbox"/>	SDSupply3	111458	5 Mar 2018 3:29 PM IST	All	R\$132.67 BRL	View

Clicking on 'View Response' brings up the response in the event currency.
