 **Run Simple**

## Feature at a Glance

# Introducing: PDF attachment option for order routing methods

Ease of implementation

Low-touch/simple

Geographic relevance

Global

### Customer challenge

Ariba Network can include an attachment for Purchase Orders routed to suppliers via email or cXML. This attachment is in HTML format.

This represents a limitation for suppliers who prefer to receive this attachment in a PDF format, either to have a printable version of the Purchase Order or to be able to use a document scrapping technology to extract the PO information

### Meet that challenge with **SAP Ariba**

Suppliers can now receive a PDF version of the Purchase Order with the addition of a new configuration option when their Order Routing method is set as email, cXML or Integration Gateway.

Ariba Network will send the standard version of the PO as a PDF attachment in the email or cXML respectively.

### Experience key benefits

Suppliers have an additional attachment format option when they receive Purchase Orders, granting more flexibility to meet their printing and technical processing requirements.

### Solution area

Operational Procurement / Network Transactions

### Implementation information

Customer configurable – New option added to email, cXML and Cloud Integration routing methods

### Prerequisites and Limitations

None

# Feature at a Glance

## Introducing: PDF attachment option for order routing methods

### New Order Routing method options

#### Email

Document Type	Routing Method	Options
Catalog Orders without Attachments	Email	Email address: <input type="text" value="aribasupplierdws@gmail.com,boilermakersupplier@gmail.com"/> <input type="checkbox"/> Attach cXML document in the email message <input checked="" type="checkbox"/> Include document in the email message <input type="checkbox"/> Leave attachments online and do not include them with email message. This applies to all orders with attachments that have the routing method "Same as new catalog orders without attachments". <input checked="" type="checkbox"/> Attach PDF document in the email message

#### cXML

Document Type	Routing Method	Options
Catalog Orders without Attachments	cXML	URL to send cXML documents: <input type="text" value="https://supplier.acme.com/default"/> <input type="checkbox"/> Leave attachments online and do not include them in the cXML order. This applies to all orders with attachments that have the routing method "Same as new catalog orders without attachments". <input checked="" type="checkbox"/> Include PDF document.

#### Cloud Integration

Document Type	Routing Method	Options
Catalog Orders without Attachments	Cloud Integration Gateway	<input type="checkbox"/> Leave attachments online and do not include them in the order. This applies to all orders with attachments that are routed as new catalog orders. <input checked="" type="checkbox"/> Include PDF document in the cXML order. <a href="#">Click here for Configuration</a>
