Feature at a Glance

Introducing: Enhancements to Custom Forms

Customer challenge

Current functionality in Custom Forms does not give you the ability to choose deactivated users and you also cannot add panel header or buttons. The approval section has no option to add user's supervisor.

Solution area

This feature is available in:
SAP Ariba Buying and Invoicing
SAP Ariba Buying
SAP Ariba Invoice Management
SAP Ariba Contract Invoicing
SAP Ariba Catalog

Meet that challenge with SAP Ariba

The forms builder enhancements include:

- Data source chooser widget includes a new property that allows users to view and choose inactive users from the master data list.
- Data table widget includes a new property that determines whether users can read or edit the data table.
- Panel enhancements include new header and button options.
- Approval workflow section has capability to add the selected users and their supervisors for the User data source type in the Data source chooser widget.

Implementation information

This feature is enabled for all customers with the applicable solutions and is ready for immediate use.

Ease of implementation

Low touch / simple

Geographic relevance

Global

Experience key benefits

With these enhancements, custom forms becomes more user-friendly and robust.

Prerequisites and Limitations

Prerequisites:

- Be a member of the Custom Form Designer group. This group can design and publish forms.
- Be a member of the Custom Form Administrator group. This group can activate and deactivate forms.
