Feature at a Glance
Set access control for editing sourcing event content

Michael Waugh, Srikanth Raghavendra, SAP Ariba
Target GA: May, 2020

THE BEST RUN **SAP**

Feature at a Glance
Introducing: Set access control for editing sourcing event content

Customer challenge

Previously, you could define project groups such that project group users could view only some content contained in a sourcing event. However, for groups that had visibility into sourcing event content, there was no way to control edit access to that sourcing event content.

Meet that challenge with
SAP Ariba

This feature introduces two new roles that allow users to define project groups and access control lists to control edit access to sourcing event content.

Experience key benefits

- The Sourcing Supplier List Editor role has the Edit Sourcing Supplier List permission, which enables addition or removal of suppliers from the sourcing event.

- The Sourcing Content Editor role has the Edit Sourcing Supplier List and Edit Sourcing Content permissions, which enable addition or removal of suppliers from the sourcing event and editing sourcing event content.

Solution area

SAP Ariba Sourcing
SAP Ariba Strategic Sourcing Suite

Implementation information

This feature is automatically on for all customers with the applicable solutions and is ready for immediate use.

Prerequisites and Restrictions

How to configure access control lists to control edit access to sourcing event content

In the Team Members section of the Team page, add groups having one or both of the following roles:

- Sourcing Content Editor
- Sourcing Supplier List Editor

Project Group Details   OK   Cancel

Define this **Group** by entering a group **Title**. By changing which **Roles** are included in this group, you can change the permissions of the members assigned to each group.

Title: * Business User

Members: Arnold Davis, Tim Davis

Roles: Sourcing Content Editor, Sourcing Supplier List Editor [select]

Project: Set access control for editing sourcing event content ⓘ

All Roles: Sourcing Content Editor, Sourcing Supplier List Editor

OK   Cancel
