Feature at a Glance

Ease of implementation  Low Touch
Geographic relevance  China

Introducing: SAP Ariba Procurement mobile app compliant with CCL

Customer challenge

Customers in China can not use the new SAP Ariba Procurement mobile app because the app is currently not compliant with certain regulations covered under China Cyber Security Law (CCL).

Meet that challenge with SAP Ariba

This feature makes the app compliant with CCL by introducing the required Privacy Statement and Opt In measures.

Experience key benefits

The CCSL compliant app will be updated on Apple Stores and will be newly published on Android store (Tencent and others). Customers using iOS or Android will be able to download the app from the respective app stores with this release and use all current app functionality.

Solution area

SAP Ariba Procurement Mobile App
SAP Ariba Buying
SAP Ariba Buying and Invoicing
SAP Ariba Strategic Sourcing Suite
SAP Ariba Sourcing
SAP Ariba Contracts

Implementation information

This feature is **automatically on** for all China Data Center customers with the applicable solutions and is ready for immediate use.

Prerequisites and Restrictions

Mobile device running a supported version of iOS or Android operating system.

Requires SAP Ariba Procurement Mobile App version 2.1.0 or higher.

Feature at a Glance

Introducing: **SAP Ariba Procurement mobile app compliant with CCL**

Detailed feature information

Per Chinese regulation, customers using the app hosted in the China Data Center need to comply with China Cyber Security Law (CCL). This requires following:

- New privacy statement specific to mobile app users complying with CCL regulations.
- Users explicit consent to accept the privacy document (opt in).

Users that provide consent can log into the app and use all the app capabilities.
