CONFIDENTIAL

Feature at a Glance

Introducing: Stock Transport Order Collaboration

Ease of implementation  High-touch
Geographic relevance  Global

Customer challenge

Stock transport order collaboration is not fully supported in AN.

Currently it is not possible for the buyer and supplier to collaborate on the transfer of buyer owned stock between two plants within an organization or across organizations.

Meet that challenge with SAP Ariba

The stock transport order collaboration functionality will enable the buyer and supplier to collaborate on the movement of the stock between different plant locations and also gives visibility to stock in different states in the whole collaboration process.

Experience key benefits

- Enables capability for buyer and supplier to communicate with each other about the movement of buyer owned stock and helps save time.
- Provides supplier capability to respond to the requests for stock movement from the buyer.
- Gives visibility of the status of stock at different steps of stock movement.

Solution area

SAP Ariba Supply Chain Collaboration

Implementation information

This feature is **automatically on** for all customers with the applicable solutions and is ready for immediate use.

Prerequisites and Restrictions

SAP Ariba Supply Chain Collaboration

Feature at a Glance

Introducing: **Stock Transport Order Collaboration**

Detailed feature information

The STO Collaboration feature enables the buyers and suppliers the capability to collaborate on moving buyer owned stock located at buyer and supplier plants. Buyer sends a STO to the supplier with information of the two locations between which the stock needs to be moved. The supplier can respond to STO with confirmation, ASN, receipts etc...similar to PO collaboration process.

Feature at a Glance

Introducing: **Stock Transport Order Collaboration**

Scenario 1: Moving buyers stock from Contract Manufacturer (CM) to Distribution Center (DC)

- A list of STOs sent by the buyer from ERP system are displayed to the supplier as a list in relevant UIs in AN.
- Supplier can create confirmations, ASNs in AN in relevant UIs based on the requirements of the buyer and these documents are sent to ERP.
- Once buyer receives goods, buyer creates a receipt in ERP which is sent to AN and the status of the STO is updated.

Scenario 2: Moving buyers stock from Original Equipment Manufacturer (OEM) to Contract Manufacturer (CM)

- If buyer enables custom logic in ERP then STOs will be sent from buyer ERP system and are displayed to the supplier as a list in relevant UIs in AN.
- The component ship notice corresponding to the stock being moved from own OEM plant to CM plant sent from buyer ERP is displayed to supplier as a list in component ship notice UI in AN.
- Once the supplier receives the goods, supplier creates a receipt in component shipment UI in AN which is sent to the buyer ERP.

Scenario 3: Moving buyers stock from CM1 plant to CM2 plant

- A list of STOs sent by the buyer from ERP system are displayed to contract manufacturer 1 (CM1) and contract manufacturer 2 (CM 2) in relevant UIs in AN.
- CM1 can create confirmations, ASNs in AN in relevant UIs based on the requirements of the buyer and these documents are sent to ERP and a copy sent to CM2.
- Once CM2 receives goods, from multi-tier shipment UI CM2 creates a receipt in AN which is sent to ERP.
- Buyer creates a goods receipt in ERP corresponding to the goods receipt sent by CM2 and the goods receipt is sent to AN which can be viewed by CM1.

The rest of the slides show details of the enhancements done for STO collaboration feature in different UIs for buyers and suppliers.

Introducing: Stock Transport Order Collaboration – Buyer UI Changes

The screenshot shows the SAP Ariba Network interface for 'Orders and Releases'. The search filters section includes:

- Supplier: All Customers
- Order Number: Partial number (selected), Exact number
- Date Range: Last 24 hours (16 Dec 2020 - 17 Dec 2020)
- Order Status: All
- Search options:
 - Search only blanket purchase orders
 - Search only scheduling agreement releases or scheduling agreements
 - Search only stock transport orders (highlighted with a red circle '1')

The table below shows the results of the search, with the 'Type' column containing 'Stock Transport Order' (highlighted with a red circle '2').

Type	Order Number	Multi-Tier	Copies	Supplier	Ship To Address	Date	Routing Status	Order Status

Orders and Releases UI

STOs sent from the buyer's ERP system providing details about moving the stock to the supplier show up in the Orders and Releases UI of the buyer.

Below are the details of the changes for STO highlighted in the Orders and Releases screen to the left.

1. Order type selection option has new filter value "Stock transport orders only" allowing the supplier to select stock transport orders only.
2. The value "Stock Transport Order" in Type column identifies the order as of type stock transport order.

Introducing: Stock Transport Order Collaboration – Buyer UI Changes

The screenshot shows the SAP Stock Transport Order (STO) Buyer UI. Key elements and callouts are as follows:

- Callout 1:** The order title "Stock Transport Order: 4500099366" is highlighted in a green box.
- Callout 2:** A dropdown menu is open, showing "Stock Transport Order" selected, with the order number "4500099366", amount "500.00 EUR", and version "1".
- Callout 3:** The "Ship From" address section is highlighted in a green box, showing "HighTech LLC" at "3412 Hillview Ave, Palo Alto, 94304, United States".
- Callout 4:** The "Type" column in the Line Items table is highlighted in a green box, showing "Material".
- Callout 5:** The "Category" column in the Line Items table is highlighted in a green box, showing "Stock Transfer".

Line Items Table:

Line #	Part #	Customer Part #	Type	Category	Stock Transfer Type	Return	Revision Level	Qty (Unit)	Need By	Unit Price	Subtotal	Details
10		STANDARD	Material	Stock Transfer	Intra			10.0 (PCE)	22 Dec 2020 PST 22 Dec 2020 Buyer time	50.00 EUR	500.00 EUR	Details
Description: Standard Material												
20		STANDARD	Material	Stock Transfer	Intra			100.0 (PCE)	22 Dec 2020 PST 22 Dec 2020 Buyer time	66.00 EUR	6,600.00 EUR	Details
Description: Standard Material												

Order submitted on: Wednesday 16 Dec 2020 8:11 AM GMT-08:00
 Received by Ariba Network on: Wednesday 16 Dec 2020 8:55 PM GMT-08:00
 This Purchase Order was sent by stobuyer1.A102002137892 and delivered by Ariba Network.

Sub-total: 500.00 EUR

Order Details UI

Below are the details of the changes for STO highlighted in the Order Detail UI screen shot to the left which helps the buyer to identify it as an STO and specific type of STO.

1. The title of order details UI identifies the order as of type Stock Transport Order.
2. The order type for the order number identifies the order as Stock Transport Order.
3. The address section has information of the “Ship From” location, i.e. the plant from which the stock needs to be moved.
4. Category column has value “Stock Transfer” for STO.
5. Stock Transfer Type column value identifies if the stock is moving between plants with in the company value “Intra” or out side the company value “Inter”.

Introducing: Stock Transport Order Collaboration – Supplier UI Changes

The screenshot displays the SAP Ariba Supply Chain Collaboration interface for 'Orders and Releases'. The top navigation bar includes 'Home', 'Workbench', 'Orders', 'Fulfillment', 'Invoices', 'Payments', 'Catalogs', and 'Reports'. A 'Create' button is visible in the top right. Below the navigation, there are tabs for 'Orders and Releases', 'Items to Confirm', 'Items to Ship', and 'Return Items'. A yellow warning banner states: 'This page will be replaced with our new Workbench concept soon. Try the new Workbench' and 'SAP Ariba has partnered with Uber Freight to provide suppliers with real-time pricing and reliable capacity, especially crucial during times of disruption. Learn more'. The 'Search Filters' section includes: Customer (All Customers), Order Number (Partial number selected), Show orders by (Creation Date selected), Date Range (Last 24 hours), Order Status (All), View (All except hidden orders), and checkboxes for 'Search only blanket purchase orders', 'Search only scheduling agreement releases or scheduling agreements', 'Search only stock transport orders' (highlighted with a red box and a red circle with '1'), and 'View all active'. At the bottom right of the filters, 'Number of Results' is set to 100, with 'Search' and 'Reset' buttons. Below the filters, the 'Orders and Releases (15)' table is shown with columns: Type, Order Number, Customer, Ship To Address, Date, Order Status, Revision, and Actions. The first row shows a 'Stock Transport Order' (highlighted with a red box and a red circle with '2') with Order Number 4500099363, Customer stobuyer1, Ship To Address SAP Deutschland SE And Co. KG, Walldorf, Baden-Württemberg, Germany, Date 16 Dec 2020, Order Status Received, and Revision Original. The table lists five such orders with varying statuses (Received, Partially Confirmed, New).

Orders and Releases UI

STOs sent from the buyer to the supplier providing details about moving the stock show up in the Orders and Releases UI for supplier.

Below are the details of the changes for STO highlighted in the Orders and Releases screen to the left.

1. Order type selection option has new filter value “Stock transport orders only” allowing the supplier to select stock transport orders only.
2. The value “Stock Transport Order” in Type column identifies the order as of type stock transport order.

Introducing: Stock Transport Order Collaboration – Supplier UI Changes

The screenshot shows the SAP Stock Transport Order (STO) collaboration interface. Key elements and annotations are as follows:

- Annotation 1:** A notification banner at the top left stating "SAP SE partnered with Uber Freight to provide suppliers with real-time pricing and reliable capacity, especially crucial during times of disruption. Learn more".
- Annotation 2:** A callout box on the right side of the header area containing the order details: "Stock Transport Order", "4500099366", "Amount: 500.00 EUR", and "Version: 1".
- Annotation 3:** A callout box on the right side of the main content area, titled "Ship From", containing the supplier's address: "HighTech LLC", "3412 Hillview Ave", "Palo Alto, 94304", "United States", "Phone: + (650) 849-4000", "Fax: + () 23344557788 123456".
- Annotation 4:** A callout box highlighting the "Category" column in the "Line Items" table, which contains the value "Stock Transfer".
- Annotation 5:** A callout box highlighting the "Stock Transfer Type" column in the "Line Items" table, which contains the value "Inter".

Line Items Table:

Line #	Part #	Customer Part #	Type	Category	Stock Transfer Type	Return	Revision Level	Qty (Unit)	Need By	Unit Price	Subtotal	Details

Items to Confirm UI

The supplier can look at the requirements of an STO sent by the buyer and can agree to the buyers request by creating confirmation for STO.

Below are the details of the changes for STO highlighted in the Items to Confirm UI to the left which helps the supplier to select the STOs for confirming them.

1. By choosing the option “Search only stock transport orders” for filtering it should be possible to view STOs only.
2. Category column has value “Stock Transfer” for STO.

Introducing: Stock Transport Order Collaboration – Supplier UI Changes

The screenshot shows the SAP Ariba Supplier UI for 'Orders and Releases'. The 'Items to Ship' section is active, displaying a table of 26 items. The search filters on the left include a 'Search only stock transport orders' checkbox, which is highlighted with a red box and a '1'. The table below has a 'Category' column where the first item, 'Stock Transfer', is highlighted with a red circle and a '2'.
