## 1H 2024 Results

# Review of Improvement Requests Accepted to Roadmap

How SAP Ariba's Customer Influence Works....

- Improvement requests are accepted based on community **desirability**, **viability** of use case, road map compliance, and **feasibility** (size, complexity)
- Votes are utilized to help prioritize review from Product Managers, but not the only reason for acceptance
- We strive to read and acknowledge every improvement request as we know it's important to you, our valued Customers. Ideas that "meet vote threshold" simply serve as a guide to prioritize review, but not the only reason for review
- In some cases, submitted improvement requests that were previously accepted to SAP Ariba Roadmap are "Accepted" in the session or "Already Offered" if previously delivered
- Improvement requests provide general direction to Product Managers and Engineers, the final feature implemented may be designed differently than the exact description of the idea
- Blog updates in the session are a summary only, for more information about the ideas, please reference the ID# of the idea in Customer Influence

# Where you can go to look at Accepted and Delivered Ideas per session

The screenshot displays the SAP Ariba Continuous Influence Session interface. On the left, a navigation sidebar includes 'Overview' with metrics for Improvement Requests submitted (745), Delivered Improvements (16), and Blogs (12). Below this is a 'Contact us' section with user profiles and a 'Tags' section with various categories like 'SAP Continuous Influence' and 'Supply Chain'. The main content area features a blue header for the 'Continuous Influence Session' and a central text block with a date stamp 'Today: May 29, 2018'. The text block contains a welcome message and details about the session's purpose and rules. On the right, a list of improvement requests is shown, with a filter set to 'Accepted'. A list of specific ideas is displayed, each with a title, request ID, category, phase, status, author, and coach. A callout box points to the 'Accepted' status filter, and another callout box points to the 'Accepted' status of a specific idea.

**Step 1:**  
Click on Improvement requests submitted in the campaign

**Step 2:**  
Select "Accepted" or "Delivered" status option to view all the Ideas

Dear SAP Ariba Customers,  
Welcome to the Continuous Influencing Session for **SAP Ariba Procurement!**  
In this session, you can submit improvement requests relating the following categories:

- SAP Ariba Buying (Procurement for P2P and P2O)
- Contract Compliance and
- SAP Ariba Invoice Management (including Services & Contract Invoicing)

This session does not include requests for On Premise.  
Improvement requests are prioritized by the community through voting, so please cast your votes for requests important to you.  
Review of an Idea by the Product Managers will happen only when the Idea has reached the minimum threshold of 5 or more votes, with the results being communicated in the corresponding closing webinar.  
Ideas that have little to no votes from the community and have elapsed 3 quarters time-frame will be automatically closed to help reduce the backlog and ease of navigation for the community.  
We will provide regular updates through blog posts, please make sure to "Follow" this session and any improvement request you are interested in so that you get notified each time we add a new publication.

# Where you can go to look at access these results

The screenshot displays the SAP Ariba Continuous Influence Session interface. On the left, a navigation sidebar includes an 'Overview' section with a table of metrics: Improvement Requests submitted (745), Delivered Improvements (16), and Blogs (12). Below this are buttons for 'Submit Improvement' and 'You are Following'. The main content area is titled 'Continuous Influence Session' and 'SAP Ariba Procurement', showing a 'Blogs' filter dropdown and an 'Overall Timeline' for 'Today: May 29, 2018'. A callout box labeled 'Step 1: Click on Blogs' points to the 'Blogs' link in the sidebar. The main content area contains a welcome message and a list of recent published results. A second callout box labeled 'Step 2: You can view the most recent published results' points to the 'SAP Ariba Customer Influence: Q4 Voting Results' entry. On the right, a detailed view of a blog post is shown, including the title 'Welcome to SAP Ariba's Next Generation ER Program and Q2 Voting', the author 'Vinay Kumar Bangalore Krishna', the date 'Apr 3, 2018, 9:40:45 AM', and the influence opportunity 'SAP Ariba Procurement'. Below this, another blog post titled 'SAP Ariba Customer Influence: Q4 Voting Results' is visible, along with a 'Last Chance to Register for Q4 Voting Results Webinar' announcement.

**Step 1:**  
Click on Blogs

**Step 2:**  
You can view the most recent published results

# What's Ahead and Reminders: SAP Ariba Procurement and SAP Business Network Continuous Influence Program

- **Thank you and welcome to New & Improved Quarterly Reviews:** In order to provide more timely updates, we have kicked off a Quarterly Continuous Influence review cycle in partnership with SAP Product Success Team Experts and Product Manager Coaches to review requests that have met specific criteria and provide more prompt responses. **We hear you!**
- **Archival of influence requests:** As part of the quarterly review cycle, we will conduct a review with Product Experts and Coaches for IRs that have not met voting threshold within the last several voting cycles and are not part of the roadmap. Any status changes or updates to IRs will be notified to the author of the IR and those following the IR request. In addition, the request will show the updated status in the system viewable to the community.
- **SAP Continuous Influence Solution and 2024 Updates:** We continue to collaborate across SAP globally to review and improve our ideation and voting experience for our SAP community in 2024 and beyond.

# Thank you.

**Dawn Fisher**
