Australia Region - R2PO Project Notification

Vendor Name and ID:

Newmont is implementing an **SAP Ariba**® full Source-to-Pay solution to further fulfill our vision of moving towards 100% electronic transactions to improve purchase order and payment processing, transaction cycle time, reduce errors, and eliminate paper used in transactions. We are deploying the Ariba Network to replace our existing eBusiness SRM Portal and provide additional options and functionalities for our suppliers, such as remittance notices, online catalogs, and B2B integration. We believe this shift will strengthen our business relationship and allow for more robust collaboration and purchasing capabilities.

- **What does this mean for you?**
  - If you are currently transacting with Newmont, via email or via the SRM Portal, Newmont is asking that you transition to an Ariba Network Standard Account – a free online account – to manage all your transactions electronically with Newmont (receiving PO, submitting invoices…) and start maintaining your account information and managing quotes and bids online

- **What are the next steps expected of me as a supplier?**
  - If not familiar with Ariba Network, attend a supplier summit to understand options offered (complete registration info below)
  - If you are already using Ariba Network, please provide the Ariba account information – ANID, account type (enterprise or standard), and email associated with the ANID – you intend to use to transact with Newmont to the Newmont Supplier Enablement team by replying to this email so we can send you an invitation to transact via the Ariba Network.

- **Is there a cost associated with this initiative?**
  - Standard account is free (unlimited time, unlimited transactions) and offers the basic functionalities required to transact with Newmont
  - Ariba offers also Enterprise account option for a fee with additional functionalities (e.g. enhanced portal navigation, catalog, B2B integration…). To learn about the fee structure please visit SAP Ariba Subscriptions and Pricing

- **When will this take effect?**
  - Transition to the Ariba Network for Australia is planned for end of Q3 or beginning Q4 2021
  - Any Open PO will be migrated to your Ariba Network account for you to access (same PO#)

- **Need more information?**
  - To learn more about SAP Ariba and the specific details about this initiative, we highly encourage you to register to attend the online supplier summit that includes a live Q&A with experts from SAP Ariba and Newmont. A recorded version will be available afterwards.

Date	Time	Ariba Summit	Registration
June 30, 2021	**10 am Perth Time**	**Standard Account**	Register Here
July 1, 2021	**10 am Perth Time**	**Standard Account**	Register Here

- **Serving multiple Newmont regions from your account?** (North/South America, Africa)
  - Please reply to this email to discuss impact of the roll-out by regions

- **I am not the right person to handle this transition**
  - Please kindly reply to this email with the person's contact information we need to reach to discuss this transition. Thank You!

Thank you for your attention to this initiative. Looking forward to enhancing our ongoing business relationship.

Kind Regards,

Gavin Praxl
Supply Chain Regional Director, Australia
