Introducing: **Items to Ship** in New Supplier Workbench

Customer challenge

Efficiency and responsiveness are needed by suppliers since a high number of shipments are generated on a daily basis in the network, and it can be a time consuming task.

Meet that challenge with

SAP Ariba

The New Supplier Portal introduces a new "Items to Ship" tile within the overall tile framework capability. The new tile functionality places an expanded set of actions directly into the hands of the supplier, providing for a more intuitive and efficient user experience.

Experience key benefits

Significantly increased capability for filtering and searching of items to ship

Expanded flexibility in table column display and grouping configuration capabilities

Actions previously sitting behind menus now directly actionable in the shipping table itself

Suppliers will be able to create Ship Notices online faster and in a more efficient way.

Solution area

SAP Ariba Commerce Automation
SAP Ariba Supply Chain Collaboration

Implementation information

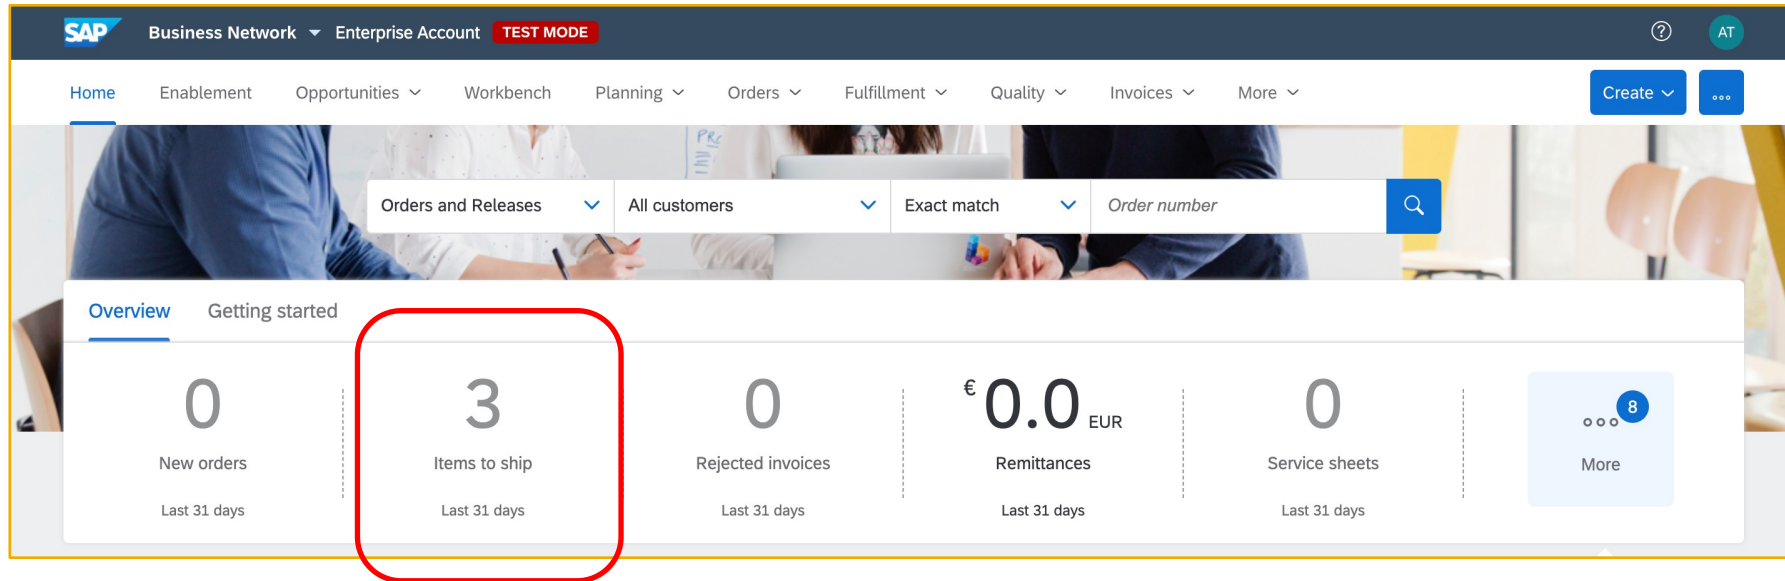

This feature is **automatically on** for all customers with the applicable solutions and is ready for immediate use.

Prerequisites and Restrictions

None

Feature at a Glance

Introducing: Items to Ship in New Supplier Workbench

[The New Supplier Portal and Workbench \(SA-9251\)](#) provides a configurable tile overview bar as one its main navigational concepts.

Items to Ship is a new tile with added functionality that suppliers may configure (not present by default). See <https://my.ariba.com/2019-new-supplier-experience.html> for more information on the New Supplier Portal.
