Support for exporting business data in SAP Ariba Cloud Integration Gateway

Target GA: February, 2022

CONFIDENTIAL

Feature at a Glance

Support for exporting business data in SAP Ariba Cloud Integration Gateway

Ease of implementation

● High touch

Geographic relevance

● Global

Customer challenge

SAP Ariba Cloud Integration Gateway did not offer way to export integration project data such as mappings, connections etc.

Solution area

SAP Ariba Cloud Integration Gateway, for:
Ariba Network
SAP Ariba Sourcing
SAP Ariba Supplier Lifecycle and Performance
SAP Ariba Strategic Sourcing Suite
SAP Ariba Contracts
SAP Ariba Buying
SAP Ariba Buying and Invoicing
SAP Ariba Invoice Management

Meet that challenge with SAP Ariba

With the 2202 release, CIG allows project business data export to a local file.

Customers can choose the business data to be exported in the **Data Export** tab of the SAP Ariba Cloud Integration Gateway portal in an appropriate password protected and encrypted compressed file format. The business data is downloaded to the customer's local system or network as a ZIP file. The ZIP file contains the actual data files in CSV format.

Implementation information

This feature is **automatically on** for all customers with the applicable solutions and is ready for immediate use.

Experience key benefits

This feature is helpful to customers when switching from one SAP Ariba Cloud Integration Gateway data center to another, change service providers, or stop a specific service for a certain period.

Prerequisites and Restrictions

Prerequisite:

Ensure that user is either an Admin, an Admin Light, a Support User or a CIG customer to initiate a business data export.

Following restrictions apply:

- Transaction data, private keys, and passwords are not exported.
- Customers with multiple ANIDs need to export their business data from each ANID separately.
- Customers are limited to one export per hour.

Please check documentation.
