Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates, and they should not be relied upon in making purchasing decisions.

Agenda

Logistics

General Release Information

Key Feature Discussions

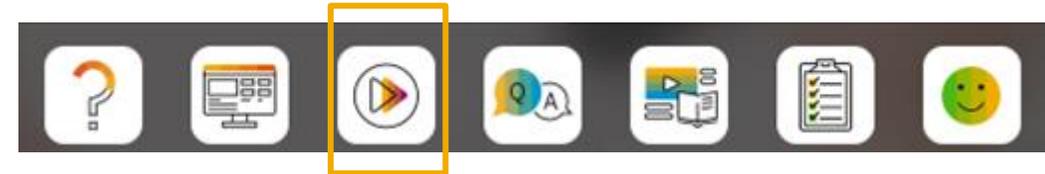

- Procure to pay features (mobile, core procurement, guided buying, catalog/spot buy)

Reminders

Logistics

During the session, demonstration / video access

- If not already visible when the speaker starts video playback, click the Media Player button on the bottom of the screen to see the video.
- The Media Player window may be “hidden” behind other windows if you have multiple open

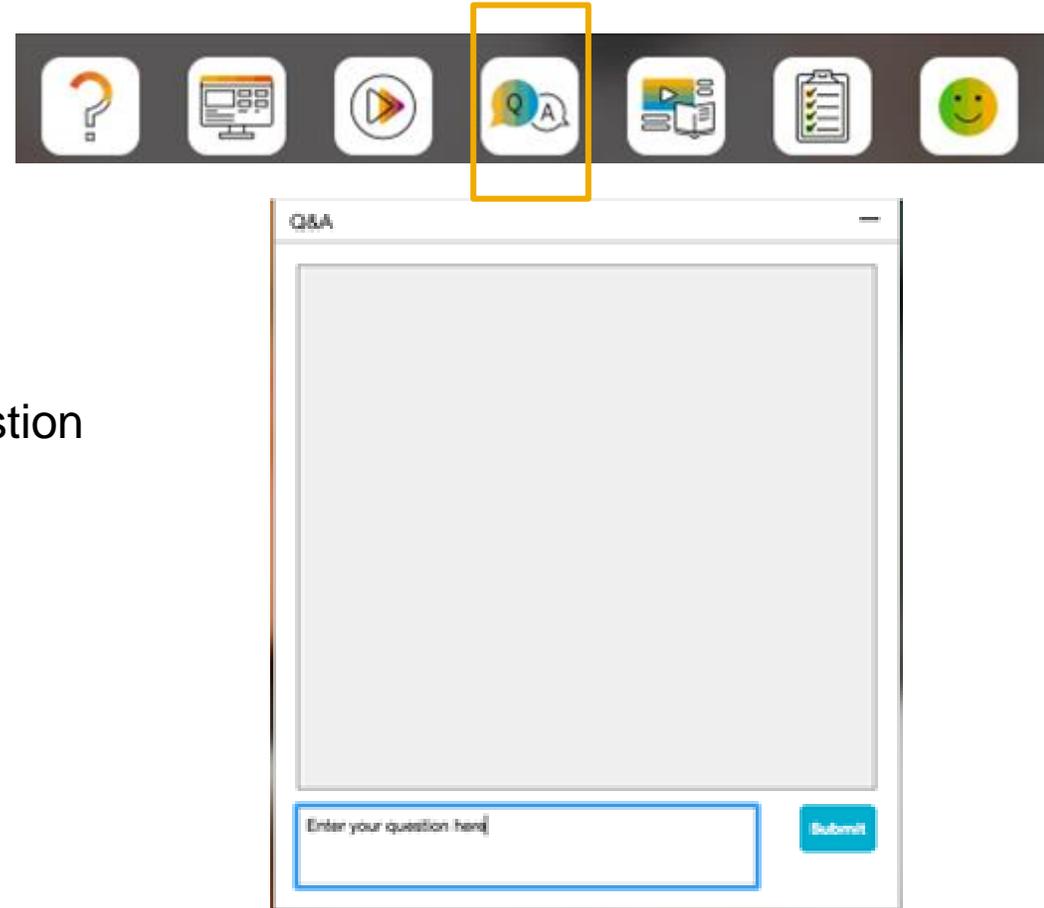

Logistics

To Ask a Question, please use the ON24 Q & A Panel

- If not already visible, click the Q&A button at the bottom of the screen.
- Type your question in the “Enter your question here” area.
- Click Submit.

The Presenter and/or Panelists will attempt to answer your question online or via the audio feed as close to the time the question is asked as possible.

Logistics

To view resources, please use the button noted

- If not already visible, click the Resources button
- A variety of links directly to content associated with features from the release will appear

Resources

SAP Ariba  **Release Readiness** **Resources**

- [SAP Ariba Release Readiness Portal](#) - Replays, presentations, feature list for the upcoming release.
- ["What's new" guide on SAP Help Portal](#) - Documentations, including features from the past releases.
- [Webcast FAQ](#) - Q&A related to webcast session requirements and troubleshooting.
- [SAP Roadmaps](#) - Find out some of the key features in the upcoming releases.

Logistics

At the end of the session, provide Survey feedback

- If not already visible, click the Survey button at the bottom of the screen.
- Answer the questions posed.
- Click Submit.

Your feedback is used to continually improve our customer engagement activities for our quarterly product releases.

Thank you for taking the time to share your thoughts with our team!

Survey

Event Survey

Your feedback is greatly appreciated. We review every response in order to make continuous improvements to these presentations.

1. How strongly would you recommend this webcast to your peers?
2. Provide any comments you have regarding these sessions or the release materials:

General Information **Session Materials**

- SAP Ariba Connect user interface
- Multiple routes for launching the Release Readiness page
- Access to product announcements also available

General Information **Session Materials**

Overview

Title: SAP Ariba 2211 Early Release Series - Procurement

Date: Thursday, October 27, 2022

Time: 7:00 AM Pacific Daylight Time

Duration: 1 hour

Summary

About this session:

During this webcast session, we will provide an overview of the key features planned for the **SAP Ariba 2211** release.

Solution Areas:

Guided Buying, Core Procurement, Catalog Management, Invoice Management

Procure to pay

Planned Key Features

Planned Features

Procure to pay

Mobile Applications

1. **SAP Ariba Shopping mobile app [SAS-1]**
2. Enable users to add partial catalog items in the SAP Ariba Procurement mobile app [BMA-3044]
3. Enable SAP Ariba Procurement mobile app users to share attachments in purchase orders with suppliers [BMA-2984]
4. Enable users to edit price and currency in the SAP Procurement mobile app [BMA-3084]
5. SAP Business Network Supplier mobile app available on Tencent [SA-31424]

SAP Ariba offers a **persona-driven mobile solution**

SAP Ariba Procurement

- Provides a user friendly mobile interface for procurement professionals to manage their work on the go

SAP Ariba Shopping

- Focused on casual buyers with an optimized UX that delivers a personalized shopping experience

SAP Ariba Shopping

CAPABILITIES AND BENEFITS

- Voice search
- Text, visual and voice search capabilities
- Browse and purchase from catalogs
- Support for catalog kits

SAP Ariba Procurement

CAPABILITIES AND BENEFITS

- Track and act on sourcing and contract tasks
- Shop and order from your company's catalog or create non-catalog purchase requests for yourself or someone else
- Initiate change orders to send item or quantity updates to suppliers
- Manage and approve requisitions
- Perform quantity-based receiving functions, such as fully or partially accepting or rejecting items

Demonstration

If you do not see the demonstration playing, please click the Media Player icon in your ON24 control panel

Prerequisites, Restrictions, Cautions

Prerequisites

- Create subaccounts in your global account using SAP Business Technology Platform.
- Once a subaccount is created, you must create an org in order to use it.
- Configure a trusted service provider or client.
- See [SAP Help Portal](#) for full configuration requirements.

•Restrictions

- BTP hosting is available in Europe or all European hosted Ariba customers and US for all remaining customers.
- Augmented reality models must be available via a URL with no login requirements such as a publicly available URL
- SAP Ariba Shopping is available on iOS 14.0 and above.
- SAP Ariba Shopping is available on Android 8.0 and above.

Feature details

- Casual users get a user friendly, focused and personalized experience to purchase catalog subscription items.
- Administrators can successfully guide users to preferred products via catalog kits.

Feature details

- Users get advanced search functionality including text, visual, and voice search.
- Casual users can preview products in augmented reality.
- Casual users get insights into sustainability measures and can factor these into their purchasing decisions.

Feature details

- SAP Ariba Shopping is available for both iOS and Android (see android user experience below).

Planned Features

Procure to pay

Mobile Applications

1. SAP Ariba Shopping mobile app [SAS-1]
2. **Enable users to add partial catalog items in the SAP Ariba Procurement mobile app [BMA-3044]**
3. **Enable SAP Ariba Procurement mobile app users to share attachments in purchase orders with suppliers [BMA-2984]**
4. **Enable users to edit price and currency in the SAP Procurement mobile app [BMA-3084]**
5. **SAP Business Network Supplier mobile app available on Tencent [SA-31424]**

Planned Features

Procure to pay

Buying & invoicing

1. **Support for punching in to guided buying from work orders in an SAP S/4HANA system** [ACSS-544]
2. Enhancements to currency precision and rounding of monetary fields [CP-12912]
3. Automatic deletion of inactive budget data [CP-22265]
4. Enhancements to forms builder conditions to enable clearing of widget values [PFD-13940]

Support for punching in to guided buying from work orders in the 4R2 integration scenario

Customer challenge

- Maintenance planners need a simple and user-friendly means to add materials and services to their work orders.
- They also need the ability to source an accurate quote for services or materials when a request is complex or details are unknown but quotes should be based on the pricing in the contract. Examples include hourly rates of an expert service technician or the need to detail the project scope before a precise quote can be offered.

Description

Work orders are used to procure maintenance and repair services for plants and machinery. This feature enables maintenance planners to punch in to guided buying from a work order in the Plant Maintenance module in SAP S/4HANA to add items required for their order.

Customer benefit

This feature provides maintenance planners with an enhanced user experience by:

- Utilizing the guided buying catalog search for selecting items to add to the shopping cart
- Enabling them to create a request for estimate and return the resulting quote to their work order

User

- Buyer

Enablement model

- Customer configured

Applicable solutions:

- SAP S/4HANA
- SAP Ariba Buying
- Automation of Source-to-Pay with Ariba Network (42K)
- Service Procurement with Ariba Network and SAP Fieldglass (4R2)

Demonstration

If you do not see the demonstration playing, please click the Media Player icon in your ON24 control panel

Feature details

- Navigate from your work order to guided buying via Open Catalog Interface (OCI) connection.
- The search results page shows all catalog, contract, and request for estimate (RFE) tile content.
- The item hierarchy and request for estimate content are grouped in their own sections for easy navigation.

Planned Features

Procure to pay

Buying & invoicing

1. Support for punching in to guided buying from work orders in an SAP S/4HANA system [[ACSS-544](#)]
2. **Enhancements to currency precision and rounding of monetary fields** [[CP-12912](#)]
3. Automatic deletion of inactive budget data [[CP-22265](#)]
4. Enhancements to forms builder conditions to enable clearing of widget values [[PFD-13940](#)]

Demonstration

If you do not see the demonstration playing, please click the Media Player icon in your ON24 control panel

Planned Features

Procure to pay

Buying & invoicing

1. Support for punching in to guided buying from work orders in an SAP S/4HANA system [[ACSS-544](#)]
2. Enhancements to currency precision and rounding of monetary fields [[CP-12912](#)]

4. **Enhancements to forms builder conditions to enable clearing of widget values** [[PFD-13940](#)]

Planned Features

Procure to pay

Guided buying

1. **Improved search in guided buying** [\[GB-13968\]](#)
2. UI enhancements to inventory reservations [\[GB-17747\]](#)
3. Support for receiving goods in guided buying in the SAP Ariba Buying and Central Procurement with SAP Ariba Buying scenarios for SAP S/4HANA [\[GB-21653\]](#)
4. Improved accessibility for on-behalf-of buying screens [\[GB-18180\]](#)
5. Prevention of very long policies [\[GB-19746\]](#)
6. Full publish with enhanced error checking now available to all customers [\[GB-21269\]](#)

Improved search in guided buying

Customer challenge

When casual users search for an item in guided buying, comparing items and filtering for green, inventory or hazardous items should be simple and easy to achieve.

Description

The search results page was recently redesigned by adding tabs for buying channels and other features to help improve searching. Now additional changes have been made to further improve the search experience:

- You can now filter inventory items, hazardous materials, and preferred items in the search results.
- Inventory items are now tagged accordingly and displayed for easy identification.
- The comparison display has been enhanced by icons indicating green, hazardous, and preferred items.

Customer benefit

- This feature further evolves the search experience in guided buying for the casual user and improves the visibility of green, hazardous and preferred items.
- The updated display of inventory items further extends the inventory reservation capability for customers who use guided buying for this process.

User

- Buyer

Enablement model

- Mandatory with opt-in period

Applicable solutions:

- SAP Ariba Buying
- SAP Ariba Buying and Invoicing

Prerequisites:

- Guided buying capability must be enabled
- Parameter PARAM_ENABLE_IMPROVED_SEARCH_EXPERIENCE must be enabled (GB-5215, released in 2208)
- Parameter ENABLE_IMPROVED_SEARCH_EXPERIENCE_2 should be enabled

Demonstration

If you do not see the demonstration playing, please click the Media Player icon in your ON24 control panel

Feature details

- When comparing items, differences can be highlighted.
- Icons show green, hazardous, and preferred items.
- You can filter for inventory items (**Is Stocked** section), preferred items, and hazardous materials.
- Items details include the plant and storage location.
