Catalog Orders with Attachments	Same as new catalog orders without attachments	Current Routing method for new orders: Managed Gateway for Spend&Network
Non-Catalog Orders without Attachments	Same as new catalog orders without attachments	Current Routing method for new orders: Managed Gateway for Spend&Network
Non-Catalog Orders with Attachments	Same as new catalog orders without attachments	Current Routing method for new orders: Managed Gateway for Spend&Network

User interface change

Configuration page

The screenshot shows the SAP Business Network configuration page for the Managed Gateway for Spend&Network. The page title is "Configure SAP Integration Suite, managed gateway for spend management and SAP Business Network". The page contains the following content:

- Header: SAP Business Network, Back to classic view, Save, Close
- Text: SAP Integration Suite, managed gateway for spend management and SAP Business Network (Managed Gateway for Spend&Network) provides an easy way to integrate non-cXML external systems with SAP Business Network. Before you can start accessing it, we will need to set up your account to do so. Check Enable Managed Gateway for Spend&Network and then click Save.
- Section: With Managed Gateway for Spend&Network, you can:
 - Log in to Managed Gateway for Spend&Network with your Ariba Network username and password.
 - Configure the Managed Gateway for Spend&Network for supported document types on the Configure Document Routing page.
 - Add additional users with specific permissions to access Managed Gateway for Spend&Network.
- Section: Settings
 - Enable Managed Gateway for Spend&Network (checkbox)
- Footer: Data center: Europe, Save, Close

Note: For a supplier account it will have additionally “Enterprise Account” in the top shell bar

Configure SAP Integration Suite, managed gateway for spend management and SAP Business Network

 The switch from the US Managed Gateway for Spend&Network data center to the EU Data Center failed. Please try again or contact SAP Product Support if the issue persists.

User interface change

Data center switch confirmation, switch instruction and its progress information

You have chosen to switch your Managed Gateway for Spend&Network data center to US.

Changing the data center causes all your future interactions and transaction documents to be directed to the new data center.

You will need to reconfigure all prior configurations and perform connection setup and testing again.

Please read the [prerequisites](#) and understand the implications before proceeding with this change.

Are you sure you want to continue?

Configure SAP Integration Suite, managed gateway for spend management and SAP Business Network

i The switch from the US Managed Gateway for Spend&Network data center to the EU Data Center is in progress. Please check back on the status later.

Data center:

How can I switch the data center to the Europe on my production account?

If you prefer to route your documents through the Europe Data Center instead of the US Data Center, please use the following steps:

1. In your test account, enable/switch your data center to the Europe on the Configure SAP Integration Suite, managed gateway for spend management and SAP Business Network.
2. Change and test your integration on your test account.
3. Come back to this page to make the change on the production account.
