SAP Supplier Financing TOU acceptance is now recorded at a Supplier organization level and a user accepting new/updated TOU will accept it on behalf of the Supplier organization. TOU acceptance and consent to Privacy statement will not expire.

Key Benefits

User Story

Once the feature is made available:

- The Terms of use (TOU) acceptance and consent to Privacy statement will be represented in the consent dialog user interface as two checkboxes.
- The first User within a supplier organization will be required to accept the TOU and provide consent to Privacy statement.
- Subsequent users from the same supplier organization who navigate to SSF from Trading Partner portal will view a single checkbox to give consent to Privacy statement. No TOU checkbox is available in UI.
- If TOU or privacy statement or both are updated in a new release, the UI will display independent checkboxes for TOU and Privacy statement depending on which document has been updated
- TOU acceptance and consent to Privacy statement will not auto-expire.
- If the Supplier organization is on an older TOU, a warning message is displayed in Settings dialog informing the user to consider accepting the latest TOU.
