Improved Certifications on Trading Partner Profile SA-44511

Content Owner: Deepti Patil
Target GA: Nov 2023

Introducing: **Improved Certifications on Trading Partner Profile**

Feature Description

This feature provides suppliers a new way of managing certifications within their SAP Business Network profiles while enhancing buyers' trading partner search experience.

Key Benefits

Suppliers :

- A user-friendly interface dedicated to certification management.
- Presenting certifications on their profiles with enriched details, such as certification number, certified location, effective date, expiration date, certification file, and additional information.
- Expanding the list of predefined certification types.
- Supporting the management of certification versions.

Buyers :

- Customize their trading partner search results based on specific certification requirements.

Audience:

Suppliers and Buyers

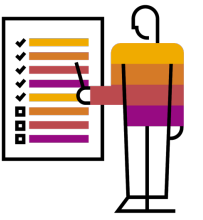

Enablement Model:

Automatically On

Applicable Solutions:

SAP Business Network

Prerequisites, Restrictions, Cautions

Prerequisites

To use this feature, supplier users must have the **Company Information** permission to edit their profiles.

Restrictions

- None.

User Story

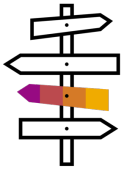

User Story: As a Supplier, I want to maintain my profile on the SAP Business Network – Trading Partner Portal, including information about the various certifications I hold in different categories such as environmental, social enterprise, diversity, Quality, Energy, and more. This way, I can showcase my expertise and commitment to potential buyers.

Once I have updated my certifications, they should be displayed on my supplier profile for potential buyers.

As a Buyer, I want to be able to search for suppliers based on the certifications they hold. This will help me identify suppliers that meet specific quality, environmental, social responsibility, or diversity criteria for my procurement needs.

I should be able to click on a supplier's profile to view more information about their certifications.

By implementing this user story, suppliers and buyers will have a streamlined way to manage and search for suppliers based on certifications in various categories, enhancing transparency and facilitating business transactions.
