

Support for Bulk Actions on Staged Network Catalog Products (BNCAT-2498)

Target GA: May, 2024

Feature Overview

Introducing: Support for Bulk Actions on Staged Network Catalog Products (BNCAT-2498)

Feature Description

Suppliers can perform bulk actions on the staged network catalog products, such as publishing products, sending products for approval and approving products. The specific actions available depend on the supplier's role and the status of the products.

Key Benefits

Suppliers will benefit from improved user experience and ease of catalog management.

This will help suppliers get their catalog published quicker.

Audience:

Suppliers

Enablement Model:

Automatically On

Applicable Solutions:

SAP Business Network Catalog

Prerequisites, Restrictions, Cautions

Prerequisites

- Supplier should have enterprise account to have access to Network Catalog
- Supplier user should be supplier admin or should have supplier product manager or supplier product approver user permissions

Restrictions

- None

Cautions

- Please use the bulk action feature with caution. As the options available under bulk actions such as Publish All Products, Send All Products for Approval and Approve All Products affects many products at once. Please exercise this feature with care.

Feature Details

- Following bulk actions can be used by the supplier users depending on the assigned user permissions to the supplier user.
 1. Publish all Products: Suppliers with both the product approver and product manager roles or an administrator role can publish the products with the complete status and matching the page filter criteria to the online version.
 2. Send all Products for Approval: Suppliers with the product manager or an administrator role can send products only with the complete or rejected status and matching the page filter criteria for approval.
 3. Approve all Products: Suppliers with the product approver or an administrator role can approve the products with the pending approval status and matching the page filter criteria.

Feature Details

The screenshot displays a product management interface. At the top, there are three summary cards: '27 Staged Products', '4 Pending Approvals', and '39 Online Products'. Below this is a section titled 'Staged Products (27)' which contains a filter bar with fields for Product ID, Product Name, Category, and Update Date, along with a 'Go' button, a refresh icon, and a 'Filters (5)' button. Below the filter bar is a 'Status' dropdown menu. The main part of the interface is a table with columns: Image, Product ID, Product Name, Update Date, Category, and Status. The table contains six rows of product data. A context menu is open over the table, showing options: 'Send for Approval', 'Publish', 'Delete', and three dots. A sub-menu is also visible, containing 'Send all Products for Approval' and 'Publish all Products'. A 'Feedback' button is located on the right side of the table.
