Benefits for Corteva and our suppliers

1

A common platform to easily interact with our suppliers

2

A single source of truth to standardize processes

3

Reduced end-to-end information exchange time

What does this mean for you, our suppliers?

What will change?

How we interact with you. The SAP Business Network will be used to:

- ✓ Exchange and enable transactions, such as:
 - ✓ Purchase Orders
 - ✓ Advance Ship Notices (ASN) and Order Confirmations (OC)
 - ✓ Change Orders
 - ✓ Host Catalogs (when determined by a Corteva buyer)

- ✓ Exchange strategic documents, such as:
 - ✓ Supplier Registration
 - ✓ Qualification
 - ✓ Questionnaires
 - ✓ Quotes

What won't change?

- ✓ Your business relationship with Corteva
- ✓ Invoicing; billing should continue to be as it has been, per local requirements

Based upon the volume and nature of your transactions with Corteva, we feel you may be best suited for an Enterprise Account in SAP Business Network

What does Ariba SLP mean to you?

- Better management of your company's data in Corteva's system.
