Subject: SAP Business Network: Project Notification Letter

E-Commerce Project Notification Letter

Dear Valued GlobalFoundries Supplier,

We are pleased to announce a new partnership with **SAP** to streamline and digitally enable our procurement and accounts payable processes and move away from manually transmitted documents. SAP is a leader in this space, and we are excited to bring you the benefits of this partnership.

GlobalFoundries and SAP are providing this service to you without any network fees associated with GlobalFoundries transactions. Please note, if you opt into additional services or transact with the same network ID with other buying organizations on SAP Business Network, you may be subject to fees. Click [here](#) to learn more about the network fees.

ADDITIONAL INFORMATION

- **What does this mean for you?**
All RFQs, Purchase Orders, Order Confirmations, Advanced Shipping Notices, Invoices, and Credit Memos will be created and exchanged through SAP Business Network. This will enable real-time PO delivery, use of online catalogs, invoice automation, and potential new business opportunities on SAP Business Network. It also means **SAP Business Network is required in order to conduct business with GlobalFoundries.**
- **When will this take effect?**
In the coming weeks, you will receive important communications and instructions for joining SAP Business Network directly from SAP. This includes establishing a trading relationship via a Trading Relationship Request (TRR) with GlobalFoundries on the network and properly configuring your SAP Business Network account. We appreciate your prompt action on all communications and requests regarding this initiative (not to exceed five business days). We will begin to transition from Oracle/Jagger to SAP in July 2024. During the transition, some orders will still be created through Oracle/Jagger.
- **I already use SAP Business Network. How will this affect my account and/or other buyers?**
As mentioned above, you will receive a Trading Relationship Request (TRR) to establish a trading relationship with GlobalFoundries.

Once received, if you already have an **Enterprise account**, accept the TRR with your existing account. You will not incur fees for transactions with GlobalFoundries.

If you have a **Standard account** you need to accept the TRR with an Enterprise account. You may do this by:

- upgrading your entire account, which will upgrade all your buyers (potential fees incurred) **OR**
- creating a new ANID to use with GlobalFoundries only (this will require you to log into a different SAP account to transact with GlobalFoundries)

RESOURCES

- Visit the [GlobalFoundries Supplier Website](#)
- Register for and watch an [On-Demand Buyer Funded Summit](#) (English)
- View the [Buyer Funded Summit materials](#) (German)
- Join a live web-based SimuLive Summit – beginning in late April supplier summits will be offered to learn more about SAP and specific details about this initiative. Attendance is not required, but highly encouraged as you will have the opportunity to participate in a **live Q&A** with experts from both SAP and GlobalFoundries. To register for a summit, please use the links below. Summits will be held in English, for support in other languages, please email the link below.

Tuesday, April 30, 2024
9:00 am to 10:00 am **SGT**
