

Configuring your Supplier account for Punchout – PunchOut Configuration

- Uncheck if your URL is not **Server Name Indication (SNI)** enabled.
- Click OK

Create PunchOut Configuration

OK
Cancel

Fill out the following information to configure your PunchOut URL.

Name:*

PunchOut URL:*

PunchOut allows customers to perform shopping and product selection directly on your Website. Enter your website's URL for receiving PunchOutSetupRequest documents. It is recommended to leave this field blank if you support ProfileRequest documents.

Visibility: Public - The URL is applicable for all your customers
 Private - Choose the customer who will be directed to the URL below

Authentication: Default Authentication
 Customized Authentication

Select an authentication method:

Shared Secret:* ⓘ

Confirm Shared Secret:*

Pricing Updates:

If you support pricing list updates for catalogs, specify the URL where customers can obtain the updated pricing lists. The URL can either be a custom URL or the same as the PunchOut Request URL.

Server name indication: ⓘ
