

Planning Collaboration - Increase Customer-defined attributes to 60

CSC-45124

Target GA: February, 2025

Feature Overview

Introducing: Increase Customer-defined attributes to 60

CSC- 45124

Feature Description

The user defined attributes feature in the SAP Business Network planning collaboration had the following limitations:

- On the planning setting UI, only 30 attributes could be set across all planning processes.
- On the manufacturing visibility CSV template, only 30 attributes could be populated and shared by suppliers.

The feature increases the number of customer defined attributes to 60 for buyers and suppliers to consume on the Planning UI, Excel and the Manufacturing Visibility CSV templates

Key Benefits

The SAP Business Network planning collaboration currently has a cap of 30 custom attributes. Considering the diverse nature of SBN customers and their expansive supplier base, the custom attributes in some systems were fully utilized across all planning collaboration processes - Forecast, Manufacturing Visibility, Replenishment, and SMI. The feature will increase the cap to 60 attributes offering more flexibility and helping buyers and suppliers tailor the Planning Collaboration tools to their own business process.

Audience:

Supplier and Buyer

Enablement Model:

Automatically On

Applicable Solutions:

Planning collaboration and Inventory collaboration add-on for Supply chain collaboration

Prerequisites, Restrictions, Cautions

Prerequisites

Buyers:

- You must have the **Planning collaboration** entitlement enabled, or you must have both the **Supply chain collaboration** and the **Inventory collaboration** entitlements enabled.
- You are a buyer administrator, or you have the **Planning Collaboration Visibility** permission.

Suppliers:

- You have the **Planning Collaboration Visibility** permission.

Restrictions

- None

Cautions

- The Excel upload/download feature will now support 30 additional columns for custom attributes, which may require the latest versions to be downloaded for compatibility.
