

# Company Profile – Organization Structure

## Log or Sign in and display the Company Profile

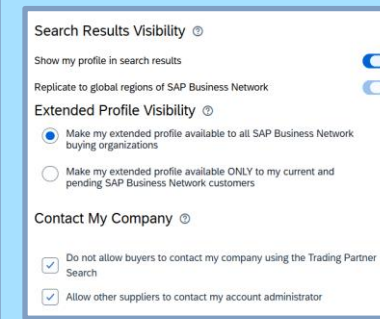

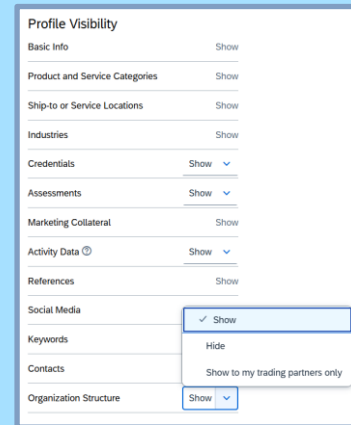

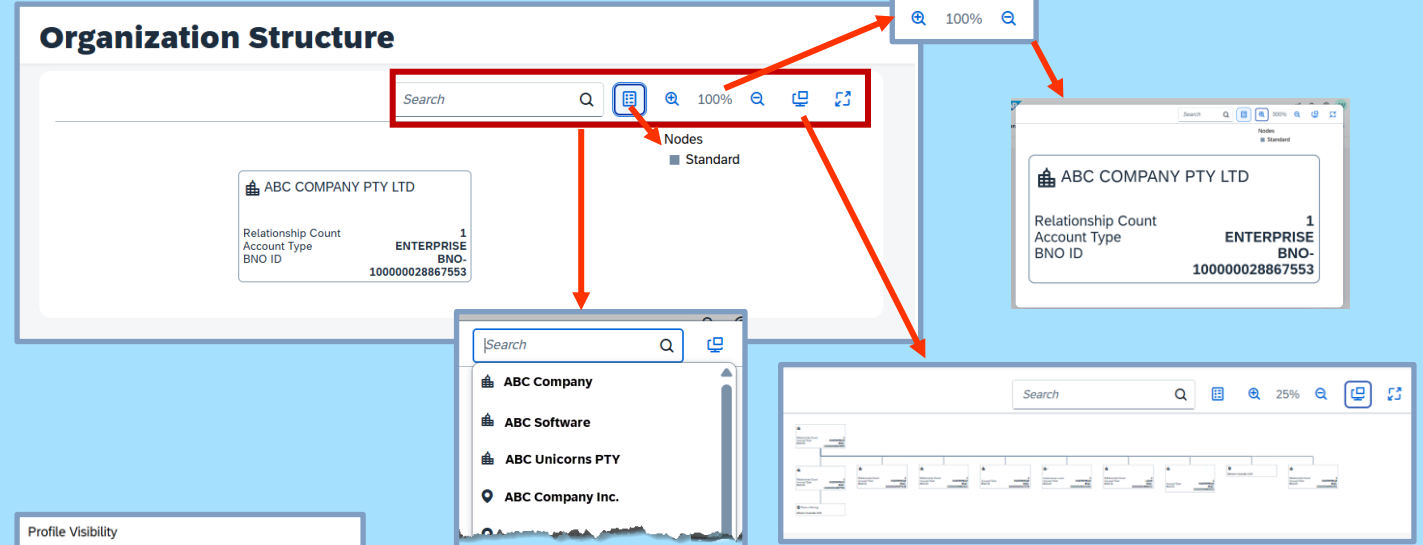

**Step 1:** From the left side panel, click on **Organization Structure**

**Step 2:** The organizational structure is shown

## Navigating around the Organization Structure

## Profile Visibility

Suppliers can provide input on the visibility they have on the network, such as the organisation structure.

To access the profile visibility, click on [Options](#)

Select **Profile Settings**

Review **Settings**

Update where required

**Note** that Suppliers can not change the organization structure as it is drawn from the SAP Business Network

- indicates an Office

- indicates a physical location

The organizational structure shows the hierarchy of suppliers on the SAP Business Network.

It enhances visibility and understanding of supplier relationships and can improve collaboration and decision-making with Buyers.

Suppliers can view their organization structure to three levels:

- Parent Organisation**
- Linked Child organisations**
- Additional Addresses**

To attract potential buyers and assist your existing buyers in effective planning, it is crucial to maintain a comprehensive and accurate profile.
