## Road 2 All Spend Supplier Information Factsheet

### What is Road 2 All Spend?

The Road 2 All Spend (R2AS) program is a key transformation initiative within the Enabling Solutions Group, automating manual procure-to-pay processes to consolidate all spend into one digital solution through SAP Ariba and Fieldglass.

Running from **July 2025 over a two-year duration**, the initiative will support the management of approximately **\$10 billion in spend** through the platform.

### Program Objectives

**Easy**, user friendly interfaces and guided buying processes

**Simple** approvals, invoicing and payments through automated paperless workflows

**Great** supplier payment timeframes

### What will future state look like?

The implementation of streamlined online purchasing processes and tools will deliver a significant benefit. This includes a more user-friendly platform, extensive Guided Buying opportunities, reducing off-system spend, enhanced Supplier support with faster supplier onboarding and enablement workflows. The need for manual intervention will decrease, allowing you to focus on higher-value activities and driving overall efficiency.

Suppliers paid via Purchase Order

100% automated invoices

Above 80% touchless invoices

Best in Government payment performance

Greater than 75% customer satisfaction
