

Migrate Buyer and Supplier Language Settings to NextGen

Planned Release – November, 2025

Introducing: Migrate Buyer and Supplier Language settings to NextGen [NP-61450]

Innovation For: Buyers & Suppliers

Enablement Model: Automatically On

Feature Description:

- Unified settings experience for both buyers and suppliers
- Accessible via: **Settings** → **Language and Region**
- Admin-controlled: Only Admin users can update these settings
- **Preferred Language** : Drives dates and time displayed in the account for all users
- Enhances consistency, usability, and centralized control

Migrate Buyer and Supplier Language Settings to NextGen [NP-61450]

Solution For: Commerce Automation

Persona: Buyers and Suppliers

Key Benefits:

Streamlined Configuration:

- Replaces fragmented GEN1 settings with a centralized, modern interface.

Consistent User Experience:

- Unified settings for both buyers and suppliers reduce confusion across roles

Controlled Access:

- Only Admin users are allowed to edit language settings, ensuring org control and preventing unauthorized changes

User Story

The **Language settings** feature allows buyers and suppliers on SAP Business Network to configure key locale preferences among time zone and currency settings

- **Preferred Language** is the language used when SAP Ariba sends you configurable notifications. This is different from your web browser's language setting, which controls the user interface and actions you initiate there. If you are the account administrator, then the preferred language setting also controls the section headings and field labels on purchase orders routed through email or fax.

In the GEN1 experience, these settings were maintained separately by role. As part of the NEXTGEN redesign, SAP Business Network has introduced a unified and standardized interface for managing these settings. Both buyers and suppliers can now view and access the Language Settings from a single location: **Settings** → **Language Settings**. Importantly, only Admin users can modify these settings, ensuring centralized control and consistency. All other sub users can view the selected values but are restricted from making any changes

Prerequisites, Restrictions, Cautions

Prerequisites

- Only **Admin users** can view and update Org Language Settings
- All sub users can only view the Org Language Settings. Edit option will not be available for them.
- Access is restricted to ensure consistency and centralized control across the organization

Restrictions

- None
