Remove Schedule Lines for Received Items in OC Massload and Re-Confirmation Tile

Planned Release - August, 2026

PUBLIC

Introducing: Remove Schedule Lines for Received Items in OC Massload and Re-Confirmation Tile [CSC-85099]

Innovation For: Suppliers

Enablement Model: Automatically On

Feature Description: This feature removes fully shipped and received schedule lines from both the OC Mass Upload Excel template and the Items to Confirm re-confirmation tile, eliminating the need for suppliers to repeatedly re-confirm lines they have already fulfilled. A new opt-in checkbox filters the Excel download, while the tile blocks those lines with a clear tooltip explaining why — covering PO, SA, and SAR document types.

- Fully reversible — lines re-enable automatically if a receipt is cancelled
- Zero impact on existing workflows — opt-in checkbox, default behavior unchanged
- Covers all document types — PO, Scheduling Agreements, and SA Releases

User Story

As a supplier using SAP Business Network for Supply Chain managing large, multi-line Purchase Orders,
I want fully shipped and fully received schedule lines to be automatically excluded from the OC Mass Upload Excel template and blocked in the Items to Confirm re-confirmation tile,
So that I only see and act on lines that genuinely require my attention, saving time, reducing errors, and eliminating the frustration of repeatedly confirming deliveries I have already fulfilled.
