

Static Catalog: CMS (.XLSX)

- Excel catalogs are created as Microsoft Excel workbooks and must be saved with a .xlsx extension.
- The CMS Static Template includes 4 tabs: Instructions, **Header**, **Items** and Sample Format.
 - Only the **Header** and **Items** tabs will be processed. All other tabs will be ignored by the system and can be removed from the template.
- Within the CMS template fields located in the Items tab can be simple or compound.
 - Simple fields have a single data element at the Header level
 - Compound fields have data elements at the Header and Detail level
- The CMS (.XLSX) catalog supports the following features:
 - Tiered pricing
 - Multiple images and thumbnails
 - Attachments such as product information sheets or user manuals
 - Related items, including similar items, mandatory items, accessories, and spare parts.
 - Minimum order quantities and quantity intervals
