

SAP Business Network

Supplier System Administration Process Guide

Version 1.2 - 2024

- The System Administration process guide is generic and provides information about the SAP Business Network for System Administrators
- The System Administrator ensures that the information about the business is current and correct
- The System Administrator is the contact point for SAP Business Network update emails
- The System Administrator is the ONLY user who can create, update permissions and grant access to the SAP Business Network to users
- All screenshots and examples contained within Ariba process guides are taken from SAP Business Network Test Accounts. All documents and the content within the documents are fabrications and in no way reflect any past, current or future documents and any similarities are pure coincidence.
- As your Business System Administrator you can create users, assign permissions and assist users with login information
- Permissions allow access to specific sections of the SAP Business Network, if there is a section that you require contact you system Administrator, refer to [Contact System Administrator](#)
- For Users to access the Test account they must have a different login created from within the test account a user cannot jump from a production to a test account without logging out of one and logging into another
- The Supplier Information Portal can be accessed via the Help Centre
- Not all tabs may be visible as Buyers may not have some tabs and processes in scope

Getting Ready to Transact with your Buyer – Initial Process

- ❖ This is a high level representation to the process to create an SAP Business Network account in the SAP Business Network, there may be variations, however the setup processes in the SAP Business Network are the minimum requirements for all Suppliers
- ❖ Links take you directly to the required process

Accepting an Invitation to Join SAP Business Network

Invitations from a Buyer Flow

- ❖ Creating a transacting relationship from a buyer-branded trading Relationship Request (TRR) letter via email
- ❖ To create a Standard Account for transacting from an Interactive email
- ❖ Ensure you review and accept the Terms of Use (this provides information about any Subscription or Transaction fees)
- ❖ Ensure you understand and accept the Privacy Policy
- ❖ A Supplier can choose to create a new SAP Business Network Account or use an existing account
- ❖ Using an existing account reduces the number of logins
- ❖ The SAP Business Network Identification number (ANID) is the unique identifier for each SAP Business Network (SAP Business Network Account)
- ❖ Ensure that the correct person actions any invitations to transact via the SAP Business Network noting that the person who accepts the invitation becomes the System Administrator
- ❖ Click on the question mark in the top right-hand corner to activate the Help Options Pane to get access to different levels of help
- ❖ Passwords must contain a minimum of 8 characters including upper and lower case, numeric digits and special characters
- ❖ Always access new invitations or interactive documents from within the email sent to you from the Buyer

The Trading Relationship Request (TRR) Invite

Your Buyer has decided to transact with their suppliers using the SAP Business Network and has sent you a Trading Relationship Request (TRR)

1. **Get Started** button provides access to a form
2. A link to the **Supplier Information Portal** (SIP) for the Buyer is shown on the invitation which provides access to process and training materials
3. **SAP Business Network** provides information about SAP Business Network

Note: All items in blue can be selected to take users to different screens, websites or information that the Buyer wishes to share

Avante Labs GmbH would like to connect with you on SAP Business Network

To Ben Bootman at Tulip Lighting Equipment,

We would like to invite you to connect with us on SAP Business Network. As part of our digital transformation, we expect our suppliers to process orders and submit invoices via this network.

You can learn more about the why, what, and when of this transformation by watching our recent supplier summit recording, accessible via the supplier information portal below.

You can login and connect with an existing Ariba Network account or create a new account on SAP Business Network and establish the connection. We're looking forward to continuing doing business with you on SAP Business Network.

Click Get started to connect.

SAP Australia Pty Ltd	Yes	Australia	New South Wales		Contact administrator

4 5

Your Buyer has decided to transact with their suppliers using the SAP Business Network.

- ❖ This can be done using **either** from the **Invitation** or **Review accounts** screen

From the invitation screen

1. Click on **Use Existing Account**
2. Enter the **Username** and the **Password** for the account you wish to use
3. Click on **Connect**

- ❖ Complete the details on the screen

From the Review accounts screen

4. Click on **Use this account**
5. Enter the Username and Password for the account you have selected
6. Click on **Connect**

- ❖ Complete the details on the screen

Use this Account - Using an Existing Account

Use Contact Administrator to investigate whether an account has already been created for this Buyer, this may be an account created by a Head Office in a different country, state or region to clarify whether you should be using the this specific account.

1. Click on **Contact Administrator**

- ❖ The Contact Administrator popup box appears
- ❖ Confirm the details that have been auto-populated are correct and if required provide further information, ensuring that all fields with an asterisk have been completed

2. Click on **I'm not a robot**

3. Click on **Send**

- ❖ An email will be sent to the Administrator

The screenshot shows a search results table with columns: Company name, Email domain matched, Country, State, DUNS number, and Action. A row for 'Unicorn PTY LTD' is highlighted. A blue '1' points to the 'Contact administrator' link in the Action column. A modal window titled 'Contact administrator' is open, containing a form with fields for name, company name, email, phone number, and a message. A blue '2' points to the form fields. At the bottom of the form, there is an 'I'm not a robot' checkbox and a reCAPTCHA widget. A blue '3' points to the checkbox. At the bottom right of the form, there is a 'Send' button and a 'Cancel' button. A blue '4' points to the 'Send' button.

A Supplier has determined that a new account is required, display the invitation to connect from your Buyer:

1. Click on **Create new account**
2. Confirm or update the **Company information**, information is prepopulated based on the information from the Buyer
 - ❖ Ensure that all fields with an asterisk have been completed
 - ❖ Scroll down to **Administrator account information**
 - ❖ **Note:** The fields will be auto-populated, however, if you are **not** the assigned System Administrator

1. Confirm or update the **Administrator account information**
2. Create a password, enter the **Password** and **Repeat password**
3. Open and review the **Terms of Use**, then click on I have read and agree with the Terms of Use
4. Click on **I'm not a robot**
5. Click on **Create Account**

The screenshot shows the account creation interface for Avante Labs GmbH. It is divided into several sections:

- Invitation Header:** Shows the company name 'Avante Labs GmbH' and the invitation from 'Avante Europe Group Procurement'.
- Review Accounts:** A button labeled 'Review accounts' is visible.
- Company Information (Callout 2):** A form section containing fields for:
 - Company (legal) name * (Tulip Lighting Equipment)
 - Country/Region * (United States [USA])
 - Address line 1 * (4578 Grand Lake Avenue)
 - Address line 2
 - Address line 3
 - City * (Auburn)
 - State * (Alabama [US-AL])
 - Zip * (36801)
- Administrator account information (Callout 3):** A form section containing:
 - First name * (Ben) and Last name * (Bootman)
 - Email * (ben.boothman@tupliighting.com)
 - Use my email as my username
 - Password * and Repeat password * (both with eye icons for visibility)
 - Business role * (Choose your primary business role)
- Terms of Use (Callout 4):** A checkbox labeled 'I have read and agree with the Terms of Use'.
- reCAPTCHA (Callout 5):** A checkbox labeled 'I'm not a robot' next to the reCAPTCHA logo.
- Create Account (Callout 6):** A large blue button at the bottom right labeled 'Create account'.

After you click on Create Account, an email from the Ariba Commerce Cloud will be sent to the email entered during the registrations process, it will indicate that the User name above is the System Administrator

A Welcome to the Ariba Commerce Cloud email will confirm:

- ❖ Registration
- ❖ Ariba Network Identification Number (ANID)
- ❖ Your Username
- ❖ Good TO Know
- ❖ Next Steps
- ❖ As the System Administrator you have already created your username and password during the registration process, use these credentials to Sign in to the SAP Business Network

Welcome to the Ariba Commerce Cloud

Your registration process on the Ariba Commerce Cloud for : Pty Ltd is now complete.

Your organization's account ID: **Ariba Network Identification Number**

Your username: jane.doe@abccompany.com

As the account administrator for this account, make sure to keep your username and password in a secure place. Do not share this information.

If you registered after receiving an invitation from an Ariba On Demand Sourcing buyer, you can now access and participate in the buyer's sourcing events. The Seller Collaboration Console provides a centralized location for you to manage all your Ariba On Demand Sourcing events and buyer relationships.

Ariba On Demand Sourcing buyers might request that you complete additional profile information as part of their Supplier Profile Questionnaire. When you access customer requested fields for a specific buyer, you will see a pop-up page with that buyer's name; that page contains the buyer's customer requested fields.

You can immediately perform administrative and configuration tasks completing your company profile. If account administration is not par you can transfer the administrator role at any time to another person responsibilities are more in line with account administration.

Good to Know:

Your Ariba Commerce Cloud account provides a central access point capabilities of the following Ariba solutions:

- SAP Business Network Discovery™ (Leads)
- Ariba Sourcing™ (Proposals)
- Ariba Contract Management™ (Contracts)
- Ariba® Network (Orders & Invoices)

Email Confirmation of an SAP Business Network - Transacting Account

You can start using SAP Business Network Discovery immediately and begin receiving notifications when business opportunities matching your commodities are published.

Access to the Ariba Sourcing and Ariba Contract Management solutions requires an invitation from a buyer organization using one of these solutions.

Next Steps:

- Complete your company profile. Potential customers can search for and review seller profiles on the Ariba Commerce Cloud. The more detail you provide about your company, its capabilities, products, and services, the more effectively you can attract high-quality customers.
- Create user accounts for employees who require access to the Ariba Commerce Cloud capabilities.
- Update your user preferences and review your notification settings.
- Explore SAP Business Network Discovery to find and participate in business opportunities. Search for new business opportunities and respond to any that match your commodity classification and sales territories.
- Download the app for easy access to key documents on your mobile device.
- Explore the product documentation to find out more about user and administration tasks. To access the help resources, log into your account and click Help > Product Documentation on any page.

Thank you again for joining the Ariba business community through the Ariba Commerce Cloud.

Email Confirmation of an SAP Ariba – Proposals & Questionnaires – Sourcing Account

The SAP Business Network is primarily used as a Transacting Account, where Purchase Orders and proceeding documents are exchanged with your Buyer.

The SAP Ariba Proposals and Questionnaires (Ariba Sourcing) is for suppliers to provide information through a questionnaire (if required by the Buyer) or used to perform Events such as:

- ❖ Surveys
- ❖ Reverse Auctions
- ❖ RFI's – Request for Information
- ❖ RFPs – Request for Proposal
- ❖ RFQs – Request for Quote

Always use the “Click Here” when accessing the Invitation for the first time.

Only the person who receives the Invitation for Sourcing can access it. If it is sent to a user that is not longer with the business, contact the Buyer.

RFXs are usually created first, and ONLY when the Quote or information is completed a Purchase Order is completed

Examples only

Dear, Jane Doe

NAME OF BUYER has invited you to participate in the following event Doc2599:
Test RFX Team Access. The procurement event is set to begin on **Dates required by the Buyer**
and ends on **Dates required by the Buyer**

Please [Click Here](#) to log in or register on the Ariba Commerce Cloud to access this procurement event. You must register on the Ariba Commerce Cloud or log in using your existing Ariba Commerce Cloud account username and password before you can access this event.

NOTE: This link is only valid for 30 days.

If you have questions regarding access to this procurement event or how to participate, please email questions regarding the RFX content, please submit your query through the relevant Ariba event message board.

Yours sincerely,

About Ariba Network

The Ariba Network is your entryway to all your Ariba seller solutions. You now have a single location to manage all of your customer relationships and supplier activities regardless of which Ariba solution your customers are using. Once you have completed the registration, you will be able to:

- Respond more efficiently to your customer requests
- Work more quickly with your customers in all stages of workflow approval
- Strengthen your relationships with customers using an Ariba Network solution
- Review pending sourcing events for multiple buyers with one login
- Apply your Company Profile across Ariba Network, Ariba Discovery and Ariba Sourcing activities

Moving to the Ariba Network allows you to log into a single location to manage:

- All your Ariba customer relationships
- All your event actions, tasks and transactions
- Your profile information
- All your registration activities
- Your contact and user administrative tasks

Temporary Account Information

In some instances a Buyer may use a Quick Enablement Process. Click on the link from within the invitation.

The invitation or interactive document will provide a Temporary ID and Secure code for Supplier to enter to access and complete the task requested by the Buyer.

Suppliers can also elect to:

Create a New Account

OR

Use and Existing Account

The screenshot shows the 'New Account Registration' page for SAP Business Network Enterprise Account. The page includes a header with the SAP logo, 'Business Network', and 'Enterprise Account'. The main heading is 'New Account Registration'. Below this, there is a paragraph explaining the registration process: 'Register your company on SAP Business Network. Registering takes only a few minutes and enables SAP Business Network to continue to send you documents through Quick Enablement. In addition, you can take advantage of all the services that SAP Business Network has to offer.' There are two input fields: 'Temporary ID:' and 'Secure Code:'. Below these fields, there is a section titled 'Yes, I want to create a new account' with a blue button labeled 'Create New Account'. Underneath, there is a link 'I already have an account (with SAP Business Network)' and a button labeled 'Use Existing Account'. At the bottom, there is a link: 'Did you receive this invitation by mistake? Click here to be removed from the SAP Business Network.' On the right side of the page, there is a section titled 'Want to know more about the SAP Business Network?' which includes a video thumbnail and several links: 'View a short demo on SAP Business Network and how to register' (with a 'View Demo' button), 'View Instructional Demo', 'View demo about SAP Business Network', 'Who is Ariba?', 'Learn about Ariba, Inc.', 'Why did I get this Purchase Order?', 'Learn more about the SAP Business Network', 'Purchase Order', 'SAP Business Network FAQ?', 'Read FAQ about SAP Business Network', and 'What is SAP Business Network?' (with a 'Learn about SAP Business Network' link).

Sign in for the first time

After the account has been registered, irrespective of whether it is an SAP Business Network Transacting Account or an SAP Ariba Sourcing account, the first time you log in is the same.

Locate the 2 Emails in your Inbox from “Ariba Commerce Cloud”, one will contain your Login and the second will contain a temporary password.

When new Users are created they will also need to follow these steps:

1. Open the Username email and click on **Log In**

2. Enter the **Username** shown in the email,

3. Click on **Next**

4. Open the temporary password email and copy the **Temporary password**

5. Enter or paste the temporary password

6. Click on **Sign in**

The Reset your password screen is displayed

6. Re-Enter the Temporary Password

7. Create a New Password (refer to [Create a Password](#))

8. Re-enter the New Password

Click on the  to view what is entered, the information in the box turns to  when all criteria are met for a password

9. Click on **Submit**

10. Select the **Business Role**

11. Click on **Submit**

Which Account are you using?

Identify which account you are in by noting the name that appears on the top left of the screen.

Each account allows a user to access it via the drop down on each different account type.

The account types available are:

- ❖ SAP Ariba Discovery
- ❖ SAP Proposals And Questionnaires
- ❖ Ariba Contracts
- ❖ SAP Business Network

Use the drop-down arrow to change to a different account drop-down

There are two types of Accounts:

- ❖ Enterprise Accounts – Attracts Subscription and Transaction Fees but delivers a higher degree of options
- ❖ Standard Accounts – Does NOT attract fees
- ❖ Proposals and Questionnaires – Both Enterprise and Standard accounts do not attract any fees as this is used for responding to surveys, questionnaires or events (RFXs)

Test Accounts are identified by the inclusion of a TEST MODE heading

Standard accounts contain an option to Upgrade to an Enterprise Account

Be aware that if a Buyer is using a Supplier Fee Exempt or Buyer Funded Model it means that ONLY that Buyer does not attract fees.

Standard Accounts

- ❖ A Standard account is Fee Free
- ❖ Suppliers can upgrade to an Enterprise Account however, should be aware that it may attract Subscription and Transaction fees
- ❖ Ensure that you understand the Terms of Use prior to accepting
- ❖ Ensure you understand and accept the Privacy Policy before accepting
- ❖ A Standard Account cannot be used for integration
- ❖ Suppliers using a Standard Account only have access to Technical Support
- ❖ Supply Chain Collaboration Customers cannot use a Standard Account
- ❖ When upgrading a Standard Account please ensure you understand that it may attract Subscription and/or Transaction Fees
- ❖ Suppliers who have an Enterprise Account can downgrade to a Standard Account by using the Downgrade to Standard Account Option
- ❖ Standard Accounts do not provide a reporting module
- ❖ Standard Accounts with a Buyer Relationship can access the Catalogs module but it will be a Self-Service
- ❖ Suppliers who need assistance for process information need to access their Supplier Information Portal, complete a Support form from their Buyer (where available) or access Self-Help
- ❖ A walk-up registration will create a standard account, note Buyers need to generate a relationship with a Supplier, Suppliers **cannot** create a relationship with Buyers
- ❖ Suppliers can convert an Enterprise Account to a Standard Account by using the Self-Service Account Downgrade process
- ❖ To Access “What is the difference between Enterprise and Standard accounts?” – [Click Here](#)

A Standard Account is a free account and can be created from the email invitation from your Buyer or created via a walk-up registration

- ❖ When creating a standard account you will receive an interactive document request
- ❖ Log in using an existing standard account that you have for the Buyer or if this is the first order from the Buyer and you are electing to use the Standard Account process:

With the Purchase Order Open

1. Click on **Process Order**

- ❖ A prompt you to either use an existing account or create a new one, follow the prompts

The Registration page will be displayed

- ❖ An Upgrade option is available, however, Suppliers should ensure they are aware that upgrading from a Standard to an Enterprise Account may attract fees.

The image shows two overlapping screenshots. The top screenshot is an email invitation from the SAP Business Network Team. It contains the following text: '<Buyer Name> has invited you to use the SAP Business Network™ to establish a trading relationship for managing transactions electronically. You have already transacted with <Buyer Name>, and at least one document is available in a temporary account. To set up a trading relationship on the SAP Business Network, follow the instructions in this invitation for activating your account. You can either create a new account or use an existing account. The documents in the temporary account will be available in the account you decide to use. Setting up the trading relationship with <Buyer Name> takes only a few minutes. There is no charge to register.' Below this is a blue box with the heading 'TO ACTIVATE YOUR ACCOUNT:' and the text 'Register for a FREE SAP Business Network standard account, or link to an existing account. [Click to continue](#)'. Further down, it says 'You can view additional information about <Buyer Name> in the [Supplier Information Portal](#). After you establish the trading relationship, you can continue to access the supplier information portal for <Buyer Name> from your SAP Business Network account. For any additional questions or further assistance, please contact [Ariba Customer Support](#).' The email is signed 'Sincerely, The SAP Business Network Team' with the URL <https://seller.ariba.com>. The bottom screenshot is a purchase order notification in an email client. It shows the sender 'I - TEST' and the subject 'sent a new order'. The main text reads: 'Your customer sends their orders through Ariba Network. You'll get a FREE Ariba Network, light account to process this order. If you have an account, you can use it and [log in now](#).' A prominent blue button labeled 'Process order' is highlighted with a red box, and a large blue number '1' is placed to its right. At the bottom, it says 'This purchase order was delivered by Ariba Network. For more information about Ariba and Ariba Network, visit <http://www.ariba.com>.'

You have determined that a Standard Account is the account that best suits your transaction processes with you Buyer.

- ❖ A Standard Account is free and all transacting Ariba Documents are sent via Email, there is limited access to the SAP Business Network.

- ❖ The System Administrator is still required to complete the Account configuration processes and can create users to perform processes associated with the documents used by you Buyer

- ❖ Complete the form ensuring that all fields with an asterisks are completed, any missed fields with an asterisks will produce an error and will not allow you to proceed

SAP Ariba Sourcing – Proposals & Questionnaires

- ❖ SAP Ariba Proposals and Questionnaires is where Suppliers access Events (RFXs, Surveys or Questionnaires)
- ❖ Only the resource within your business who receives the invitation email can access the information, these emails cannot be forwarded to a different person as they will not be able to access the link
- ❖ SAP Ariba Sourcing is the Supplier Lifecycle and Performance (SLP) allows Buyers to get a 360-degree snapshot of their suppliers
- ❖ Suppliers should use an existing SAP Business Network Account where possible and access using existing credentials
- ❖ An invitation with a link to events or questionnaire/s will be sent from your Buyer
- ❖ An Event includes, a Survey, a Request for Information (RFI), a Request for Proposal (RFP) a Request for Quote (RFQ) or a questionnaire (in some cases two questionnaires may be required by a Buyer)
- ❖ Buyers determine whether they will use a Supplier Registrations questionnaire and/or a Supplier Purchasing Questionnaire
- ❖ Suppliers need to complete the questionnaire they have been sent by their Buyer and once completed the Buyer will review and once Approved creates a relationship between the Buyer and the Supplier
- ❖ To access Proposals & Questionnaires from the menu rather than the email sent from your Buyer, click on SAP Business Network and select Ariba Proposals & Questionnaires

- ❖ When completing a questionnaire, complete ALL sections with asterisks
- ❖ Only the Administrator of the Account can add additional Users, however, be aware that in some instances once users have been added the Buyer will still need to provide approval
- ❖ Some Buyers will create an account in their Network, this does not mean it exists on the Supplier side
- ❖ Suppliers must decide whether to use existing credentials or create a new account,
- ❖ Refer to [Which Account am I in](#) information
- ❖ Only Register a new account if you perform and respond to Sourcing events
- ❖ Use an existing Username and Password if you are already on the SAP Business Network
- ❖ Supplier SAP Ariba Proposal and Questionnaires System Administrators can add users and assign permissions, however please note that some Buyers need to approve users to provide quotes on behalf of your business
- ❖ Confirm that there is not an existing Sourcing account prior to creating a new account
- ❖ There is no charge associated with an SAP Ariba Proposals and Questionnaires account

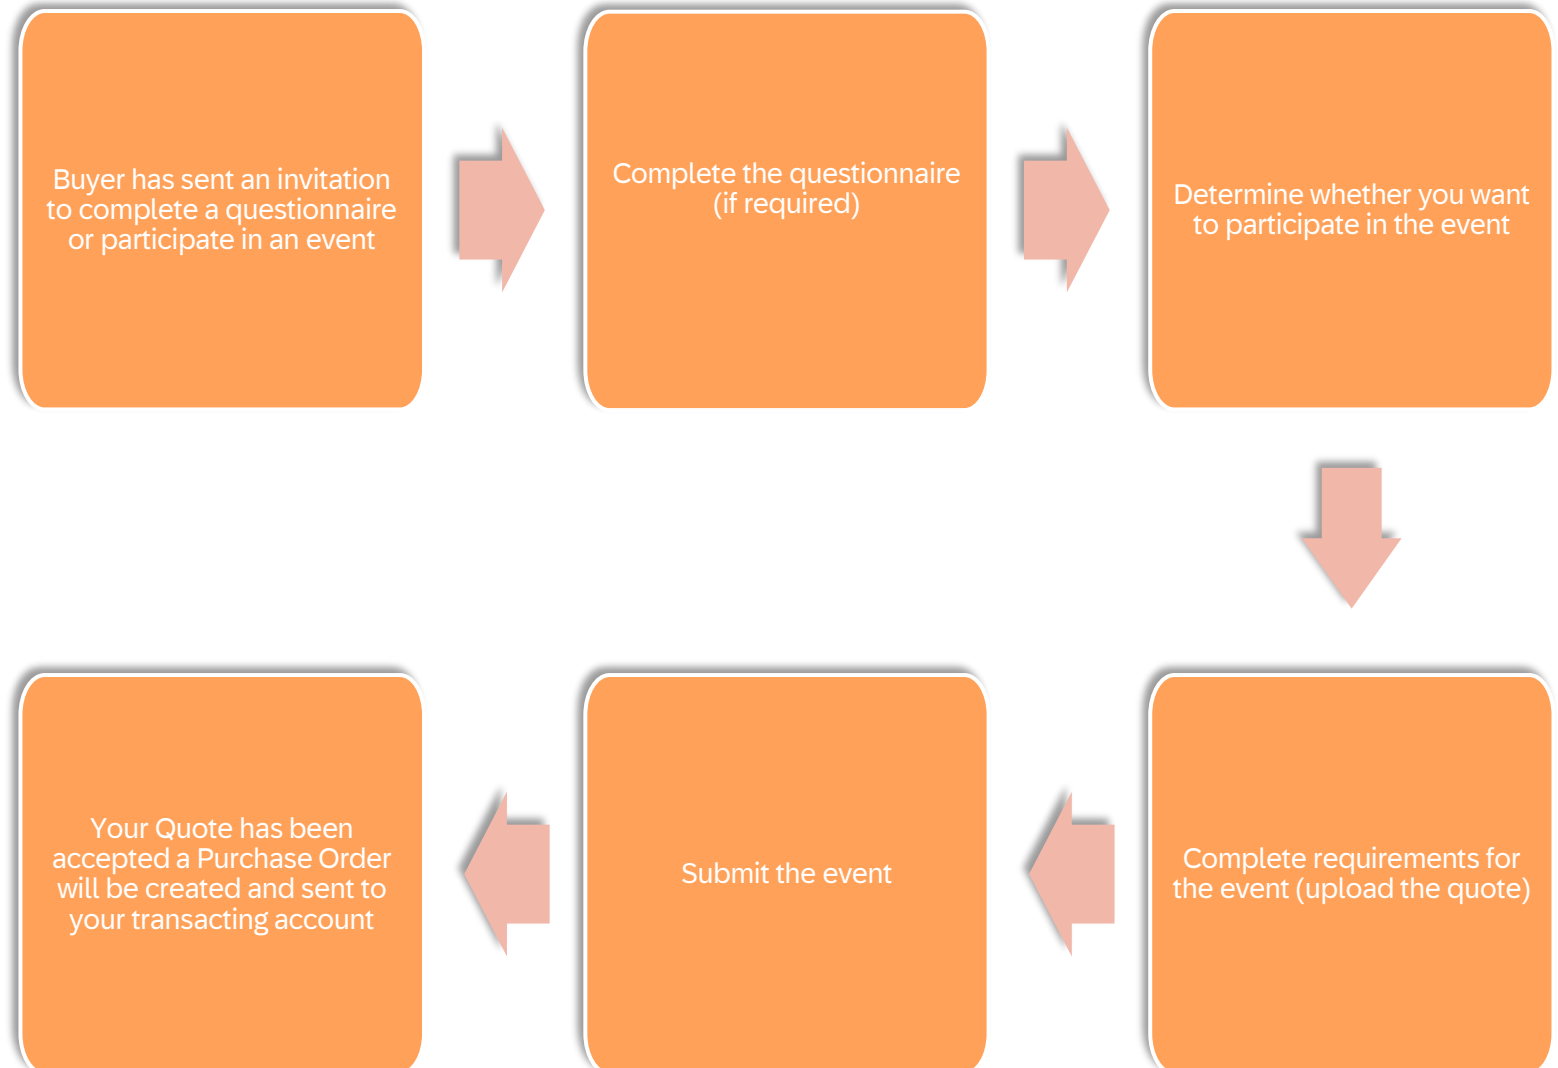

SAP Ariba Proposals & Questionnaires (Sourcing) Invitation Information and Flow

The invitation can **only** be opened by the person it was sent to.

The Buyer determines whether or not a supplier is required to complete questionnaires or just participate in events.

The Process:

- ❖ Suppliers receive an invitation
- ❖ Upon opening the invitation they should either use existing credentials or create a new account
- ❖ Buyers **prefer** that an existing Transacting account ANID be used for sourcing processes
- ❖ There is no cost associated with Sourcing accounts
- ❖ Supplier needs to add users to become part of the Response team
- ❖ In some cases the Buyer will manually approve the users added
- ❖ Some Buyers may have an automatic approval process
- ❖ If users are created after questionnaires and events have been added they will only see information from the approved date
- ❖ Ensure that if further information is required it is provided and submitted
- ❖ Once you have completed an event and are selected you will receive a Purchase Order in your transacting account

SAP Ariba Proposals and Questionnaires - Main Screen

Ensure that when you are in Proposals and Questionnaires to :

- ❖ Respond to a Questionnaire/s
- ❖ Respond to an Event
- ❖ Provide a Buyer with information or certification/s

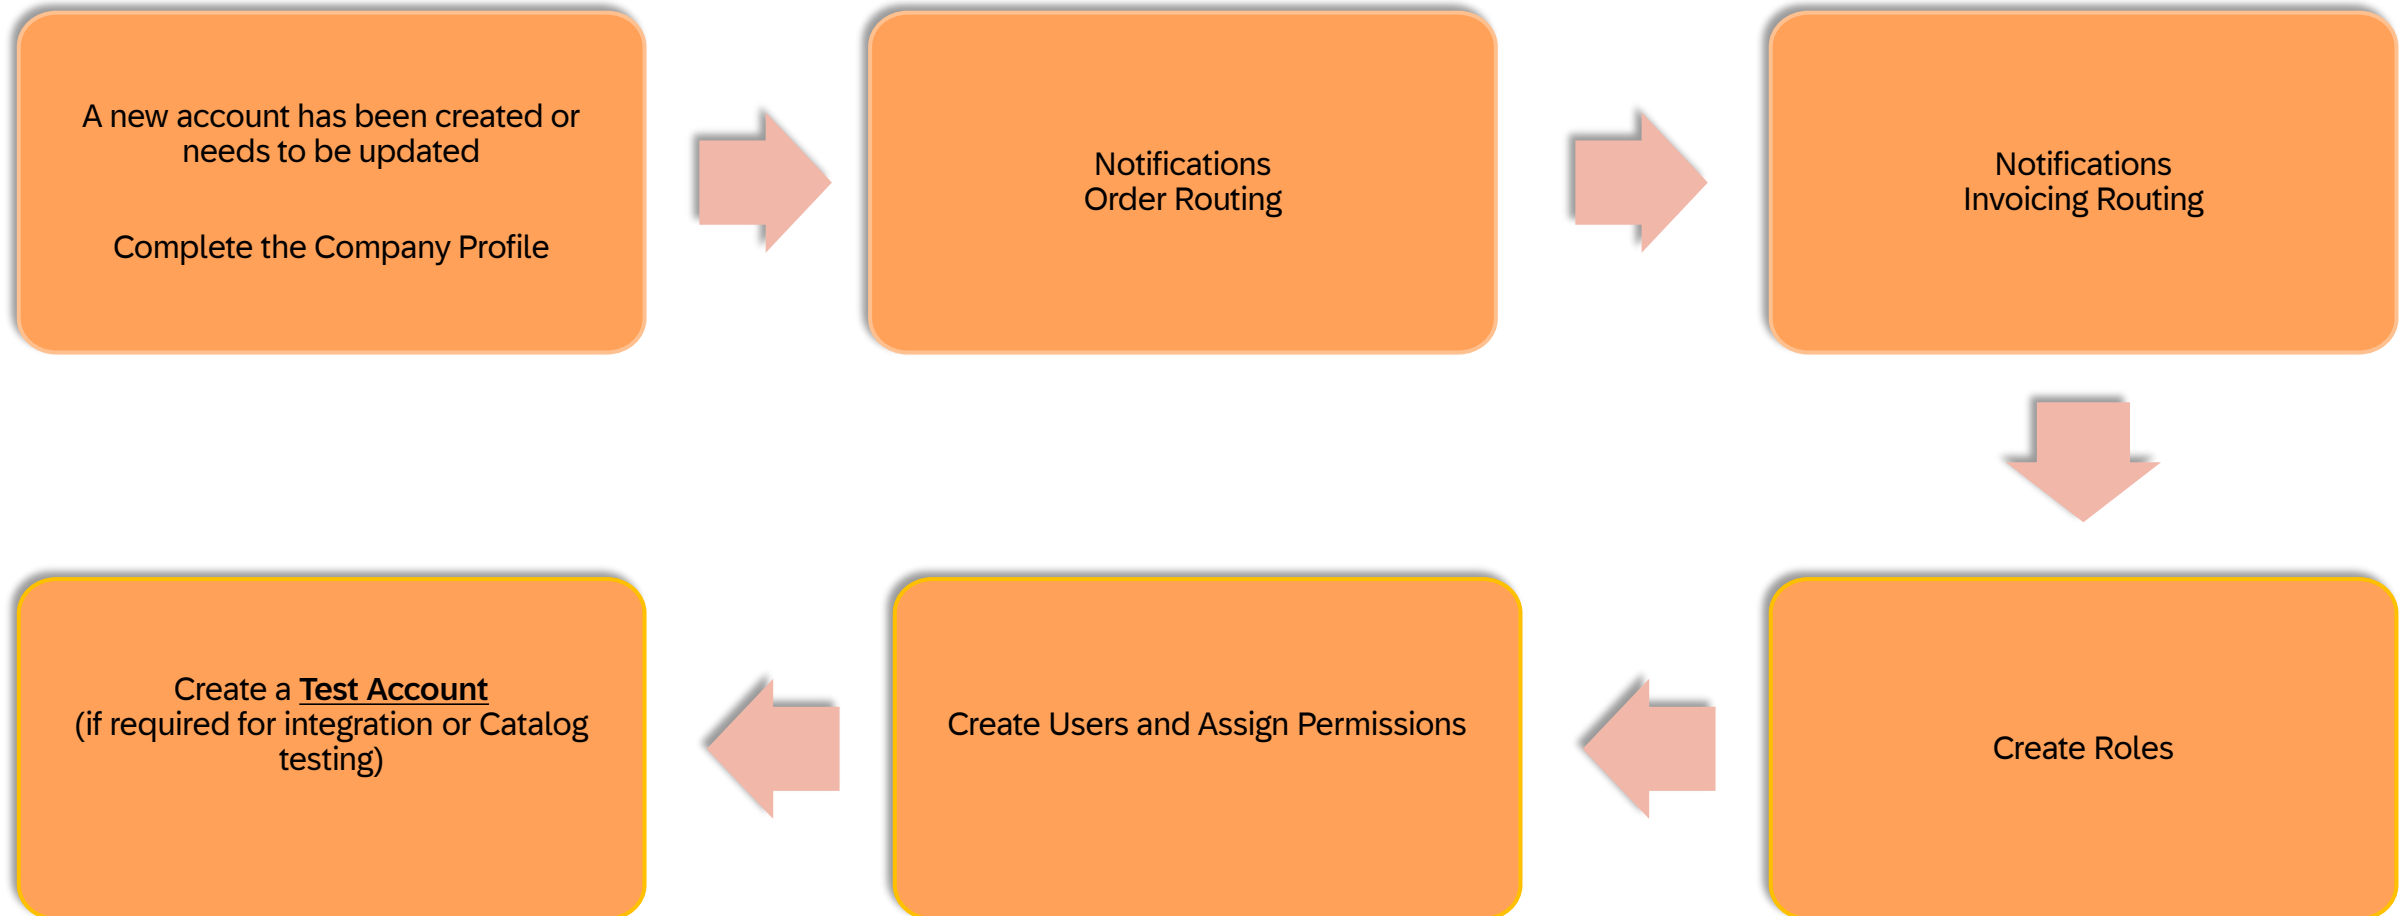

1. SAP Ariba Proposals and Questionnaires screen
2. The name of each buyer on the account is listed along the top in blue
3. Events can be:
 - ❖ Surveys
 - ❖ Auctions
 - ❖ RFIs
 - ❖ RFPs
 - ❖ RFQs
4. Risk Assessments
5. Questionnaires
 - ❖ Registration Questionnaires
 - ❖ Qualification Questionnaires
 - ❖ Questionnaires
4. Certificates
5. Tasks

The screenshot shows the SAP Ariba Proposals and Questionnaires main screen. The interface includes a top navigation bar with the SAP logo and the text "Ariba Proposals and Questionnaires". Below this is a "RELEASE READINESS" button. The main content area is divided into several sections, each with a numbered callout:

- 1**: The top navigation bar.
- 2**: The "RELEASE READINESS" button.
- 3**: The "Events" section, which displays a table of events. The table has columns for Title, ID, End Time, Event Type, and Participated. The status is "Pending Selection (2)".
- 4**: The "Risk Assessments" section, which displays a table with columns for Title, ID, End Time, and Event Type. The status is "No items".
- 5**: The "Registration Questionnaires" section, which displays a table with columns for Title, ID, End Time, and Status. The status is "Completed (1)".
- 6**: The "Certificates" section, which displays a table with columns for Certificate Info, Effective, Expiration, Attachment, Questionnaire, and Status. The status is "No items".
- 7**: The "Tasks" section, which displays a table with columns for Name, Status, Due Date, Completion Date, and Alert. The status is "No items".

Account Configuration - Company Profile

- ❖ Once you have received your Welcome email and have credentials, the System Administrator will need to ensure that the business Transacting Account is set up for success. This includes ensuring that the company profile access by potential buyers is accurate and correct, that notifications are for specific account information are sent to the correct user/s.

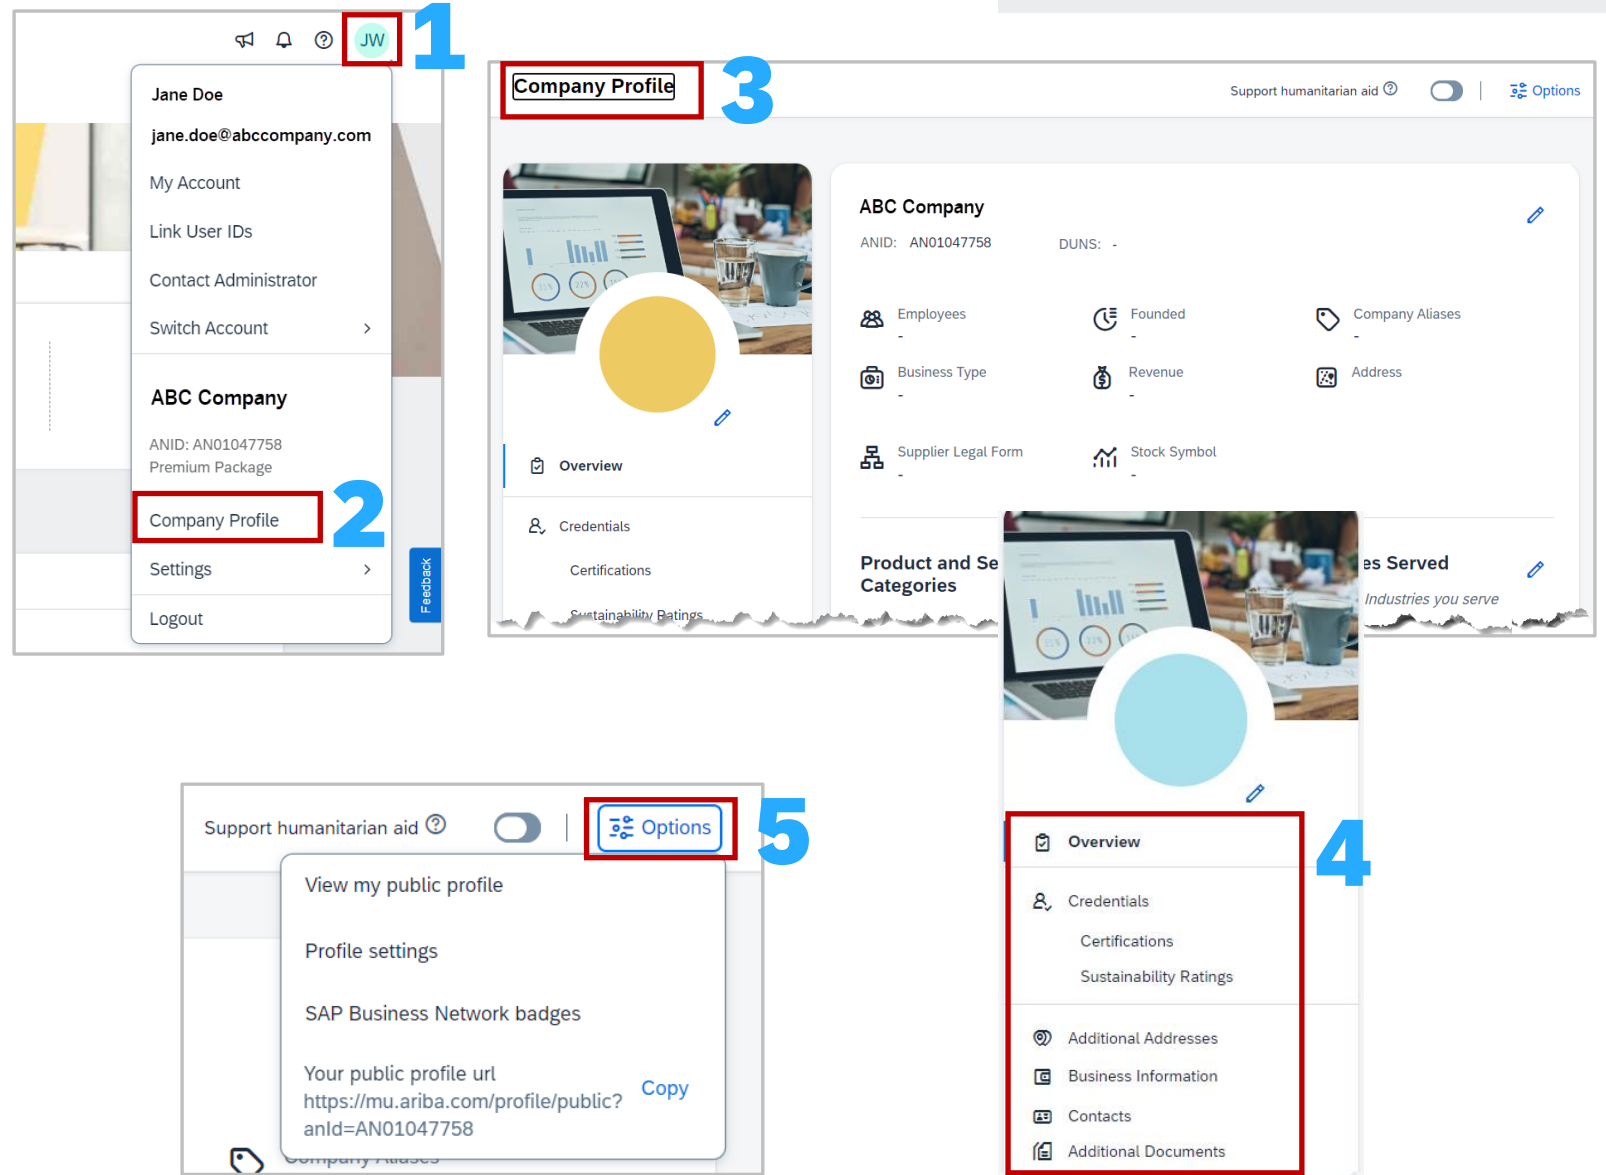

- ❖ The Company Profile is used by Suppliers to add information
- ❖ Information with an asterisk in Mandatory
- ❖ Adding information that is not mandatory provides more details about your business
- ❖ Account Configuration allows the System Administrator to set up the SAP Business Network for users, ensuring that the information is specific to the supplier and consistent across all users
- ❖ The Company Profile can be accessed via either the SAP Business Network Account or the SAP Ariba Proposals and Questionnaires account, they are one in the same, and all changes made via either account are the same
- ❖ Only one Company profile can be added to an ANID, this means that the Company Profile in your transacting account is reflected in the SAP Ariba Proposals and Questionnaires account

The Company profile provides basic information about your business and provides information to Buyers performing a search in the Buyer SAP Business Network

1. Click on your **initials** at the top of the page
2. Select **Company Profile**
3. The **Company Profile** is displayed
4. There are a number of sections in the company profile:
 - ❖ Overview
 - ❖ Certifications
 - ❖ Sustainability Ratings
 - ❖ Additional Addresses
 - ❖ Business Information
 - ❖ Contact
 - ❖ Additional Documents

As the System Administrator, the level of information completed is based on the needs of your business

5. Options – Allows Suppliers to view their Public Profile
 - ❖ Identify the Profile Settings
 - ❖ Identify if they have achieved any SAP Business Network Badges
 - ❖ Copy their SAP Business Network Public Profile

With the Company Profile Page Displayed:

1. Click on **Options** at the top of the page

The available options are shown in the drop-down list

2. Select **View my public profile**

The screen displays the Company Profile that can be accessed by potential customers on the SAP Business Network

3. Select **Profile settings**

Profile Settings allow some screens to be hidden or shown only to my trading partners, on the bottom of the Screen are Search Results Visibility options

4. Select **SAP Business Network badges**

This option will require a Plug-In and requires acceptance of the content and information

5. **Your Public Profile url**, click on copy to share

The ability to company the Public URL is available, the link provides direct access to the profile for your trading partners useful when there are a number of accounts

Profile Settings - Search Results Visibility

Search Results Visibility allows suppliers to identify what level of information their Trading Partners can see when they perform a search

Please be aware that by default your profile information is available to other users on the SAP Business Network. Manage your profile visibility settings to choose which information you want to share and who can search for and contact you.

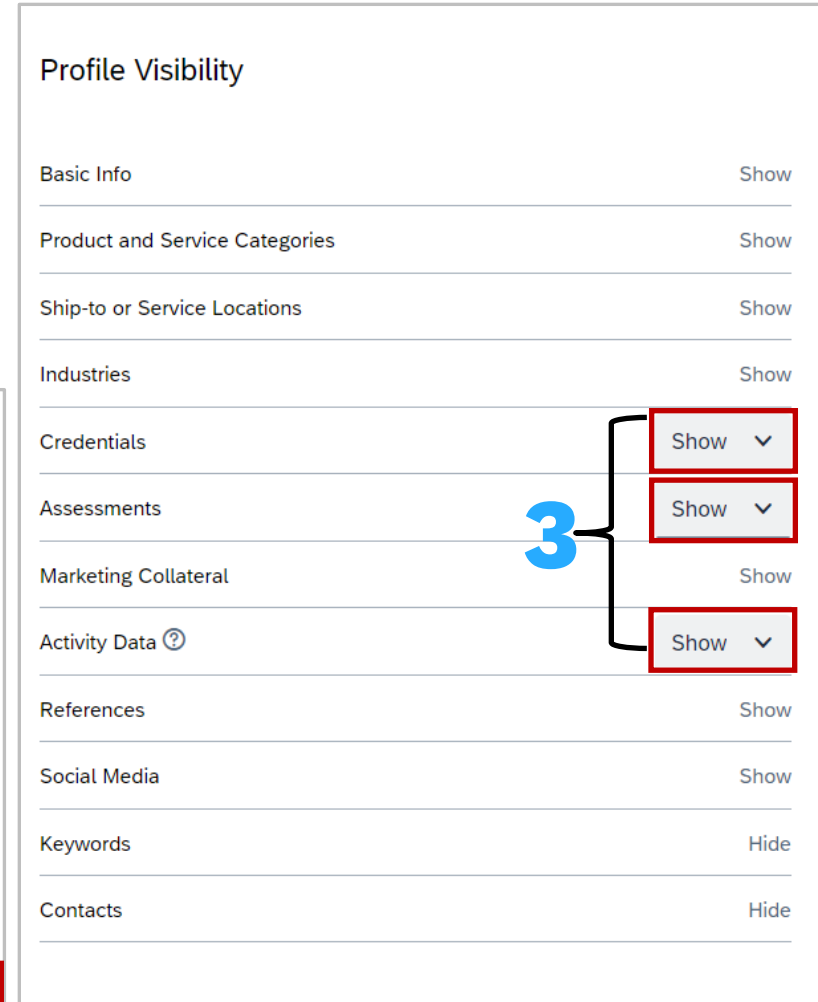

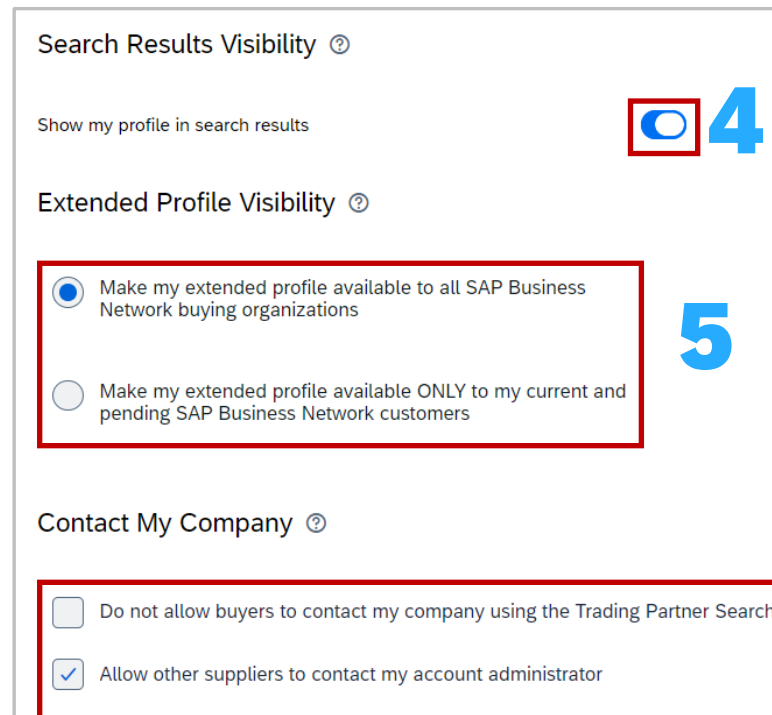

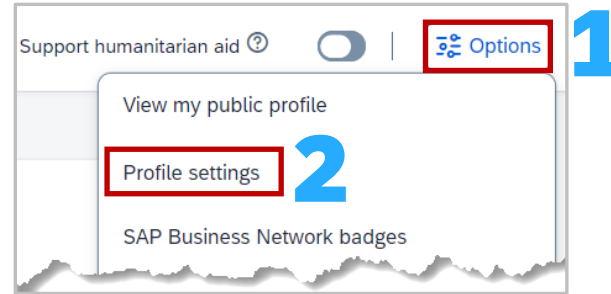

1. Click on **Options** at the top of the page
2. Select **Profile Settings**

Note: Greyed-out options cannot be changed as they are part of the default settings

3. Update the options with a drop-down list

The drop-down will either display Show/Hide or Show/Show to my trading partners only

4. Scroll down to display the Search Results Visibility section, to stop your profile from appearing in search results slide the slider across
5. Determine whether you want your extended profile available select the required option
6. Determine the level of contact your business requires, select the required option

With the Company Profile Page Displayed:

1. Click on the

The Upload company logo pop-up box is displayed

1. Click on **See example**

Examples of how the logo should be positioned for maximum effect

2. Click on **Browse**

Your file system will open, locate and select the logo you wish to use, select it and click on Open

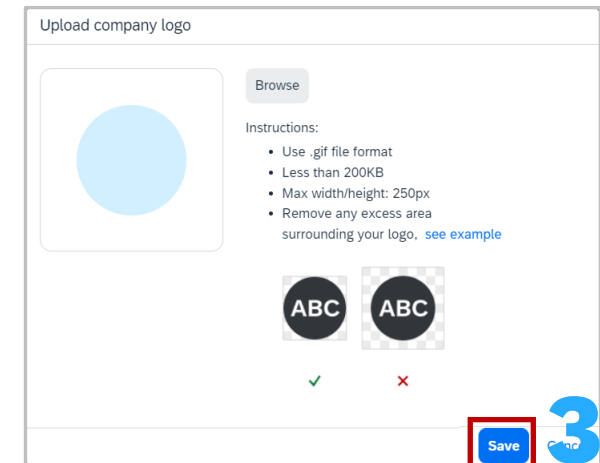

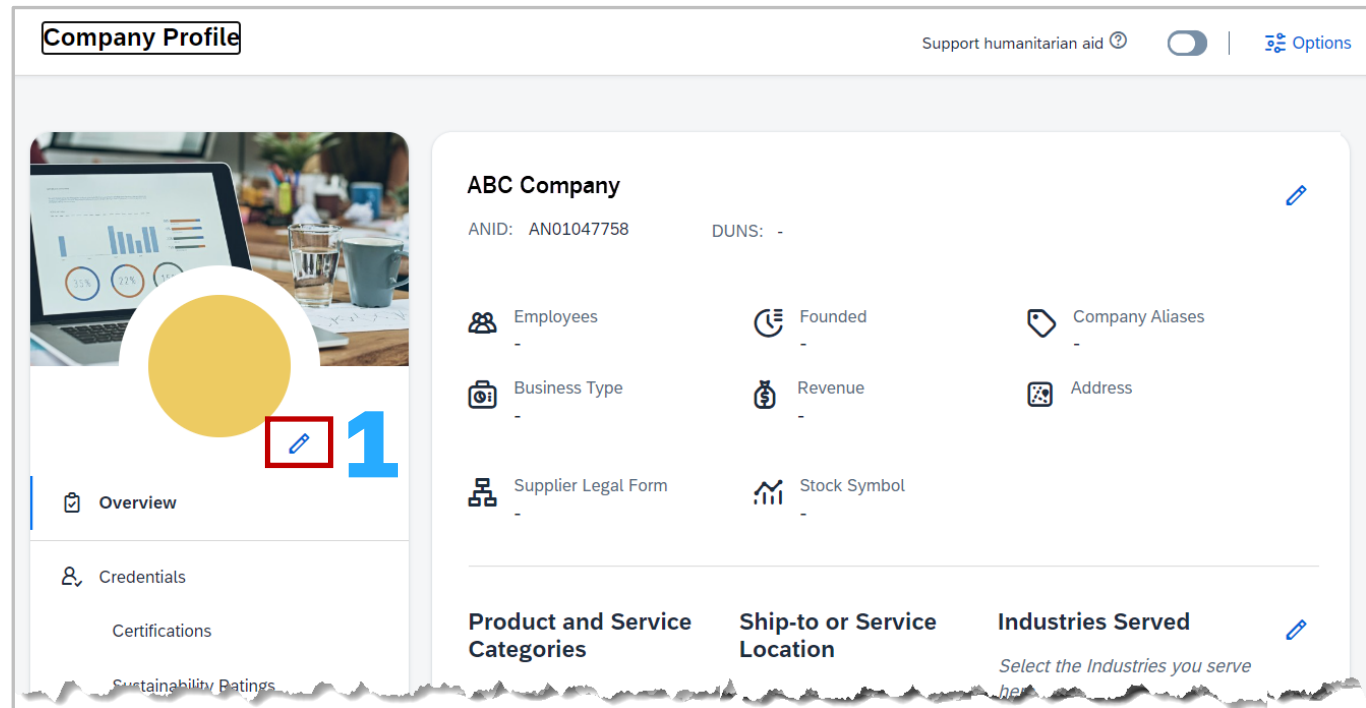

Logos must be less than 200KB

3. Click on **Save**

The Screen Returns to Company Profile, and the logo will be displayed

REMEMBER:

- ❖ 250 maximum pixels (so use resize)
- ❖ Less than 200KB size
- ❖ Must be a GIF file extension

Update/Edit Company Information

To Add or Edit your Company Information, open the Company Profile:

1. Click on the  next to the name of the company

The **Edit Company Information** Screen is displayed with the Basic Info Tab automatically selected

There are 3 tabs:

- ❖ Basic Info
- ❖ Address
- ❖ Business Type

2. Ensure you are on the **Basic Info Tab**
3. Update, add or edit open fields, greyed fields cannot be edited
4. Click on **Save**
5. Select the **Address tab**
6. Update, add or edit open fields
7. Click on **Save**
8. Select the **Business Type Tab**
9. Select all of the options applicable to the business
10. Click on **Save**

The information has been updated and displayed in the Company Profile

The screenshot shows the 'Edit Company Information' screen in SAP. It is divided into three tabs: 'Basic Info', 'Address', and 'Business Type'. The 'Basic Info' tab is selected and highlighted with a red box and a blue '2'. A red box and blue '1' highlight the pencil icon next to the company name 'ABC COMPANY' in the top header. A red box and blue '3' highlight the main form area. A red box and blue '4' highlight the 'Save' button in the top right of the form. The 'Address' tab is selected and highlighted with a red box and blue '5'. A red box and blue '6' highlight the address fields. A red box and blue '7' highlight the 'Save' button in the bottom right of the address section. The 'Business Type' tab is selected and highlighted with a red box and blue '8'. A red box and blue '9' highlight the list of business types. A red box and blue '10' highlight the 'Save' button in the bottom right of the business type section.

Account Settings

- ❖ Account Settings allow Suppliers to set the communication parameters of documents in the SAP Business Network, for who is advised a new purchase order has been received to rejected invoice notifications

Settings Drop Down Information – Account Settings

The Settings selection under your name initials on the top right-hand corner provides access to the Account Settings drop-down list

- ❖ The drop-down list shows the selections available to all users, however, only the System Administrator has all **available** selections including Users and Audit Logs
- ❖ There may be additional selections based on the SAP Business Network account you have

1. Accounts Settings usually consists of:

- ❖ Customer Relationships
- ❖ Users
- ❖ Notifications
- ❖ Application Subscriptions
- ❖ Account Registration

2. Network Settings usually consist of:

- ❖ Electronic Order Routing
- ❖ Electronic Invoice Routing
- ❖ Accelerated Payments
- ❖ Remittances
- ❖ Data Deletion Criteria
- ❖ Network Notifications
- ❖ Audit Logs

The screenshot displays the SAP Business Network user interface. At the top right, the user's name 'Jane Doe' and email 'jane.doe@abccompany' are visible. A dropdown menu is open, showing various account management options. The 'Account Settings' and 'Network Settings' options are highlighted with red boxes. A blue '1' is placed next to 'Account Settings' and a blue '2' is placed next to 'Network Settings'. The main dashboard area shows 'Leads' and 'In Location' filters, a 'Leads' dropdown, and a 'By Product' search bar. Below this, there are sections for 'Overview', 'Getting started', 'Enabling Tasks' (0), and 'My widgets' with a 'Customize' button. The 'My widgets' section includes a 'Company profile' widget showing a 35% completion rate, a 'My leads' widget with a 'View all' link, and a 'Download app' widget with Google Play and App Store logos.

Account Setting Screen – Customer Relationship Information

The System Administrator has access to all relevant tabs under Account Settings, however, users will only have access to the tabs based on the permissions set for each user

Customer Relationships provides suppliers with information about:

- ❖ Current Relationships
- ❖ Potential Relationships
- ❖ Numbering Preferences
- ❖ More which contains Numbering Preferences and Automatic Invoice Creation

Note: Tabs can be used to access other sections under the Account Settings Screen instead of exiting and selecting from the Settings drop down list

1. **Account Settings** screen header
2. **Tabs** to other options under the Settings > Account Settings option
3. **Current Relationships** and **Potential Relationships** tab
4. **Relationship request options** – automatic or manual
5. **Current Customers** sub heading
6. **Filter** to search for customers
7. All Buyers that have a transacting relationship in the SAP Business Network
8. **Show Hide Columns** options

The screenshot shows the SAP Business Network 'Enterprise Account' interface. The 'Account Settings' header is highlighted with a blue '1'. Below it, a navigation bar contains tabs for 'Customer Relationships', 'Users', 'Notifications', 'Account Hierarchy', 'Application Subscriptions', 'Account Registration', and 'Account Type Change Log', with the latter highlighted by a blue '2'. Under 'Customer Relationships', there are sub-tabs for 'Current Relationships' and 'Potential Relationships', with the latter highlighted by a blue '3'. Below the sub-tabs, there are radio buttons for 'Automatically accept all relationship requests' (selected) and 'Manually review all relationship requests', with a blue '4' next to them. An 'Update' button is below. A summary bar shows 'Current (0)', 'Pending (0)', and 'Rejected (0)'. The 'Current Customers' sub-heading is highlighted with a blue '5'. Below it is a 'Filter' section with a search box containing 'Enter customer name or Network ID' and a '+' button, with a blue '6' next to it. Below the search box are 'Apply' and 'Reset' buttons. At the bottom, a table header is visible with columns: 'Customer', 'Network ID', 'Relationship Type', 'Approved Date', 'Supplier Information Portal', 'Routing Type', and 'Actions', with a blue '7' next to the 'Customer' column. On the right side, a 'Show / Hide Columns' dropdown menu is open, showing a list of columns with checkboxes, with a blue '8' next to the header.

This screenshot shows the 'Potential Relationships' tab, highlighted with a blue '3'. Below the tab, there is a text description: 'View the list of buying organizations that are currently accepting relationship requests from qualified suppliers and view the project details.' Below this is a 'Project Details' section with a 'Page 1' dropdown and a right arrow. Below that is a table with the following data:

Buying Organization	Project Name	Date Posted ↓	My Response Status	Date Submitted	Action
Test Buyer	Bea and Lucie	13 Jun 2023			View Project

The **Buyer-Supplier Information Portal** is a way Buyers can communicate with their supplier’s System Administrator with the information they need to transact using the SAP Business Network. However, only System Administrators or those with the applicable “Customer Relationships” permission can access this section

General Access to the Supplier Information Portal should be done via the Support function. Refer to [Accessing Buyer Suppliers Information Portals](#) for all Buyers transacting on this account.

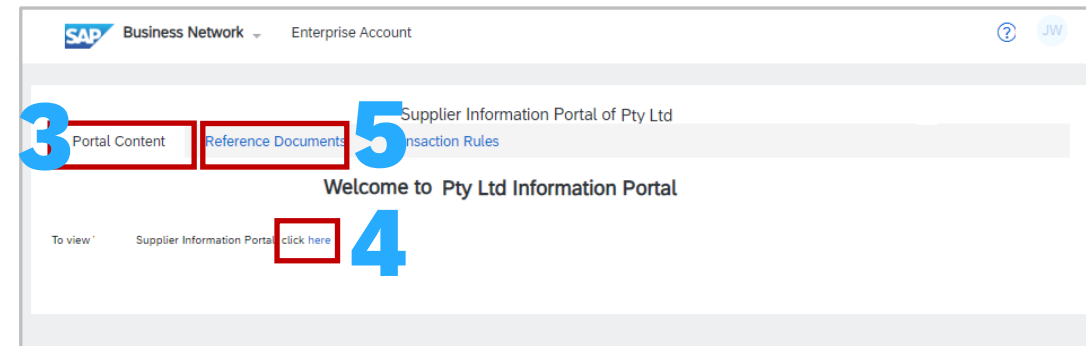

To access each tab in the Buyers Supplier Information Portal:

1. Access **Settings > Customer Relationships**
2. Under **Current Customers** locate the **Supplier Information Portal** column
3. Click on  under the Supplier Information Portal heading associated with the Buyer you require information on
4. The **Supplier Information Portal of** the Buyer you selected with the Portal Content tab open
5. Click on the **Reference Documents** tab to identify any documents from your Buyer

The Buyer-Supplier Information Portal & Reference Documents – For System Administrator Information

Accessing a Buyer (SIP) – Sub Users or those without Customer Relationship Permissions

The **Buyer-Supplier Information Portal** is a way Buyers can communicate with their supplier's System Administrator with the information they need to transact using the SAP Business Network. However, only System Administrators or those with the applicable "Customer Relationships" permission can access this section

General Access to the Supplier Information Portal should be done via the Support function. Refer to [Accessing Buyer Suppliers Information Portals for all Buyers](#) transacting on this account.

Note: A user **must** be logged on to access specific Buyer Supplier Information Portal/s.

To access all Buyer Supplier Information Portals you are transacting with on an account (both Standard & Enterprise Accounts)

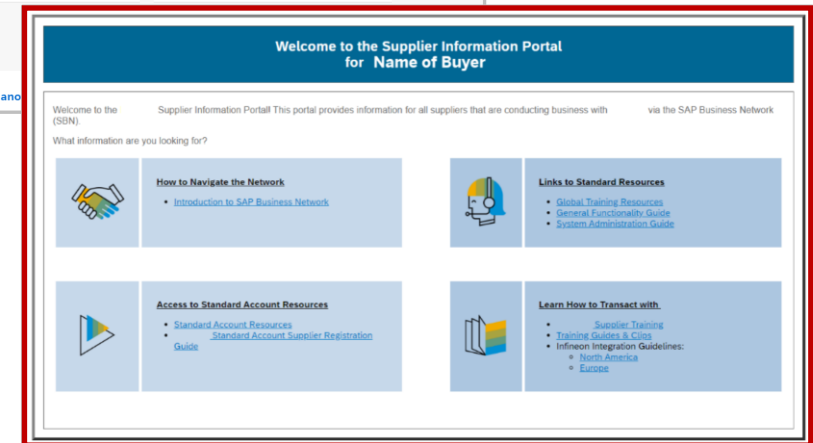

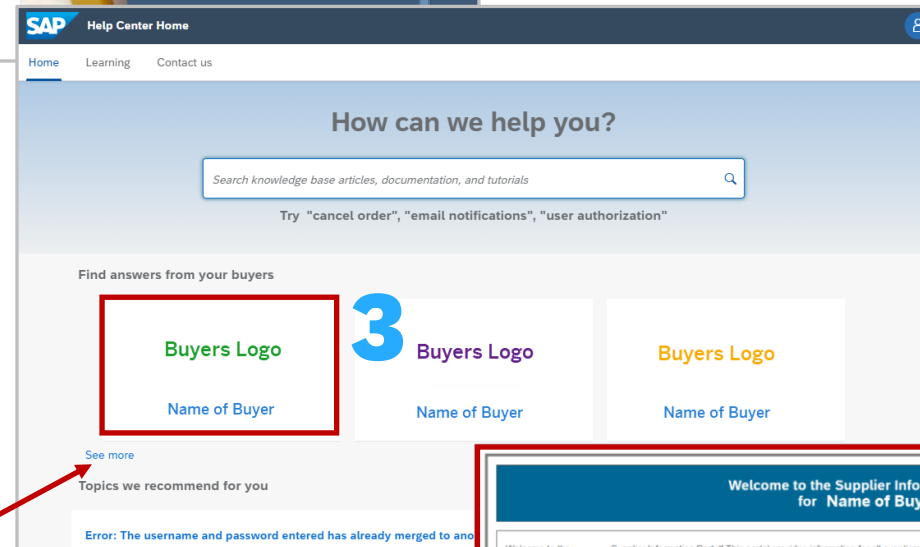

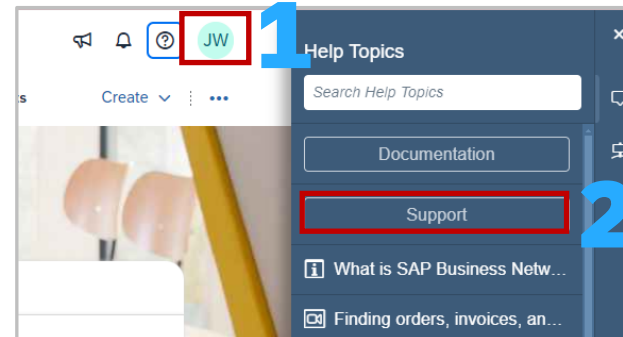

1. Login and from the Home page, click on your **initials**
2. Click on **Support**

The SAP Help Centre Home page is displayed, and a list of all of the Buyers you are transacting with on this ANID is displayed

3. Click on the tile with the name of the **Buyer** you are looking for

Note: To view all Buyers on the ANID click on **See more....**

4. The selected Buyer Supplier Information Portal (SIP) is shown

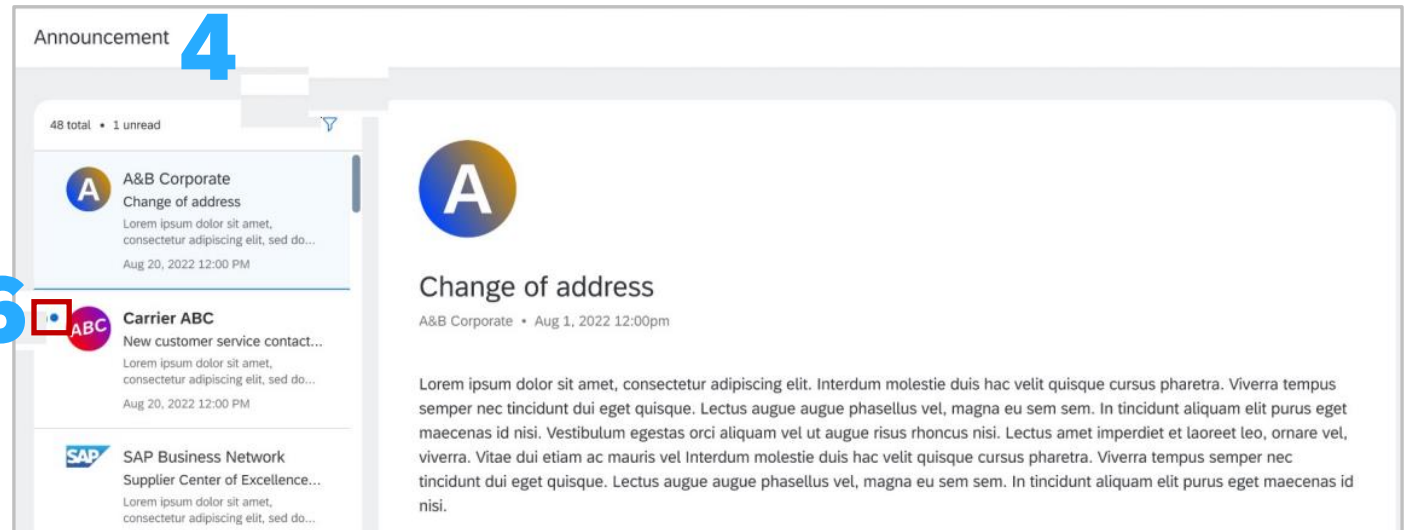

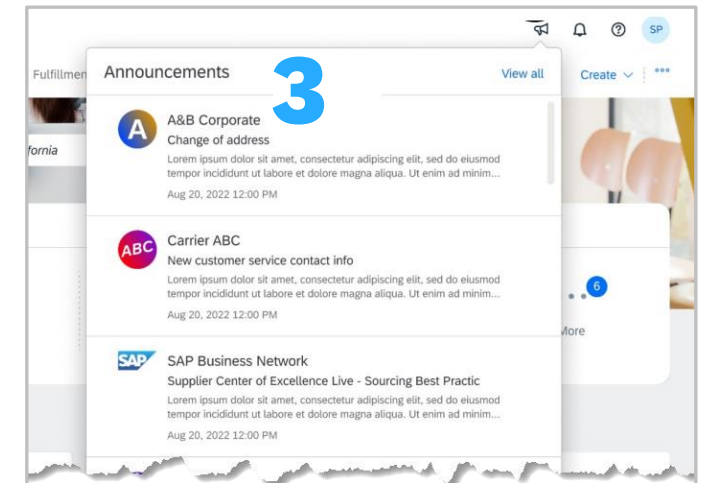

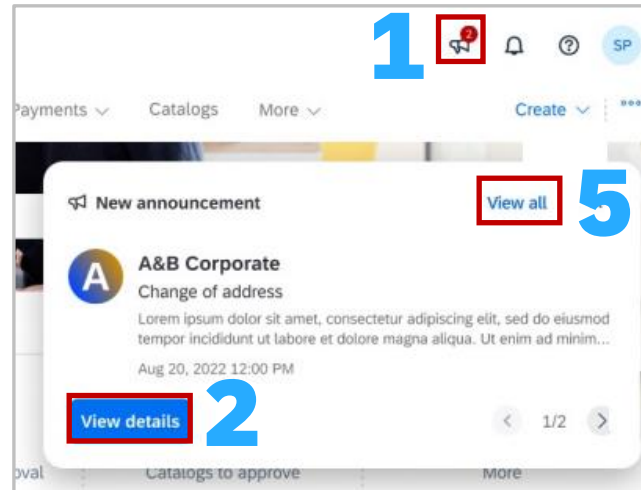

4

Some Buyers may have Buyer Announcements activated in the Buyer SAP Business Network. Buyers will be able to send timely announcements to their Suppliers.

Suppliers can filter on Unread/Total announcements. Blue Dots show unread announcements and to open a Suppliers click on the announcement and it will change from unread to read

1. New Announcements will be highlighted by a **Red circle**, which may contain a number indicating the number of new messages that are unread - Click on the **Announcement** icon on the shell bar to view all announcements
2. Click on **View Details** to see a specific announcement,
3. If there is more than 1 announcement they will appear in a drop-down list
4. Clicking on an announcement will take Suppliers to the Announcements Detail Page
5. **View All** will take you to the announcements page
6. All items with a **Blue Dot** indicate an unread message

Buyer Announcements

Unsubscribe from Communications from SAP

Suppliers can unsubscribe from receiving news about SAP Products and Services or SAP Newsletters –

[Click Here to Unsubscribe](https://www.sap.com/profile/unsubscribe.html)

(<https://www.sap.com/profile/unsubscribe.html>)

Unsubscribing will not affect the receipt of important business communications related to your current relationship with SAP this includes:

- ❖ Security Updates
- ❖ Event Registration notices
- ❖ Account Management Messages
- ❖ Support and Service Communications

If you have an active public profile and wish to stop sharing your profile information on SAP sites, update the privacy settings in profile settings

Open a Web Browser by using the link or copy and pasting the link into your browser

1. Enter your **Business Email Address**
2. Click on **Unsubscribe**
3. You will see a **Thank You** Pop up message

We're sorry to see you leave

Complete the form below to remove your e-mail address and phone number from our mailing and contact lists

Before you unsubscribe, please note that you will no longer receive news about SAP's products and services or SAP newsletters you are subscribed to.

Unsubscribing will not affect your receipt of important business communications related to your current relationship with SAP, such as security updates, event registration notices, account management messages, and support and service communications.

If you have an active public profile and wish to stop sharing your profile information on SAP websites, you may update your privacy settings from your [profile account settings](#) page.

1**2**

Thank You

You've been successfully unsubscribed based on the preference you selected.

Your request is being processed. In the interim you may continue to receive e-mails from us as we update our systems with your request. Opting out of promotional e-mails from SAP doesn't affect your receipt of important business communications related to your current business relationship with SAP, such as security updates and support communications.

3

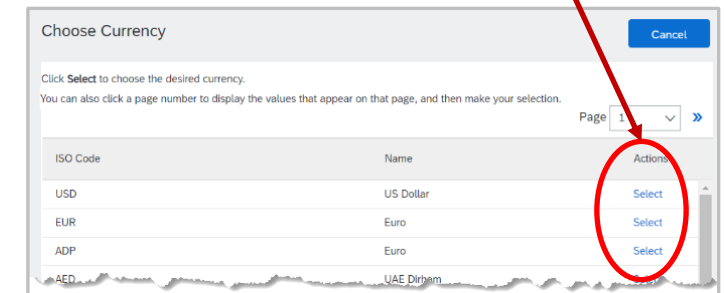

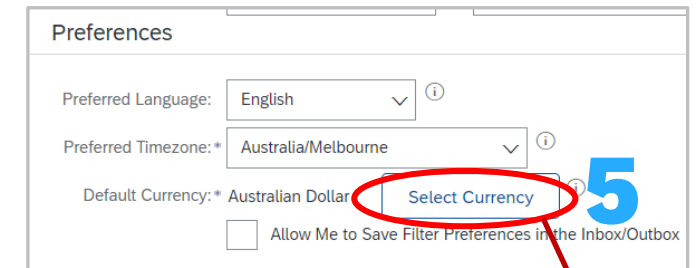

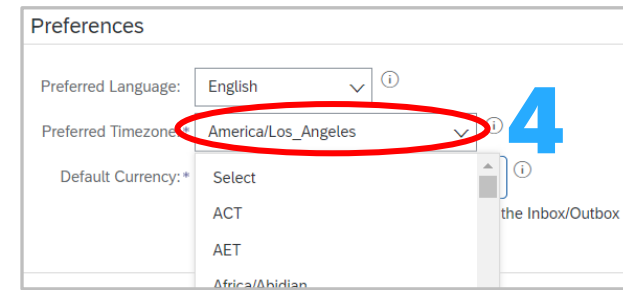

Set Time zone and Currency

Suppliers can set up accounts to reflect the currency and time zone they are in. If you are using a generic login that has many users the changes will impact all users using the same credentials.

The inbox represents documents that are sent from the Buyer/Customer to the Supplier, such as Purchase Orders and The outbox represents documents sent from the Supplier to the Buyer such as Invoices

1. **Sign in** to the SAP Business Network and click on your **initials** at the top of the screen
2. Select **My Account**
3. The My Account screen is displayed, locate **Preferences**
4. To change the Time zone, click on the **Preferred Timezone** down arrow and select the required time zone from the list
5. To change the currency, click on **Select Currency**, select the currency required from the drop-down list
6. Determine whether you require the preferences to be saved for the **Inbox/Outbox**, and select (if required)
7. Click on **Save**

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

Routing Processes

- ❖ There are a number of Electronic Order Routing Options, ensure that you select the correct routing type
- ❖ In most instances the System Administrators email will auto-populate most fields
- ❖ An Email must be provided in all fields with an asterisk, however until the option is selected by placing a tick in the associated box it will not activate
- ❖ Up to 5 email addresses can be entered into each field separated by a comma only, do not include spaces or use other separators
- ❖ Using emails and selecting to attach a copy of the Purchase Order means that Suppliers can view what their Buyers require prior to logging into the SAP Business Network – SAP Ariba
- ❖ Email addresses can include distribution lists, generic email boxes or specific people's email addresses
 - ❖ **Online** – This means that the Purchase Order is sent to the SAP Business Network but no email notifications will be sent to advise there is a new purchase order from your Buyer/s
 - ❖ **Email** – This is the default setting and means that an email will be sent to advise that a new purchase order/s is in the SAP Business Network from your Buyer/s
 - ❖ **cXML/EDI** – Only used when system integration is set up
- ❖ This document only directs suppliers to complete the mandatory fields required for the initial set-up, however, there are many other fields that can be activated to send emails for other document types (default is set to online)

Electronic Order Routing – New Orders

Electronic Order Routing is where suppliers can set up the preferred method for transacting with your customer, the information entered affects all users on your SAP Business Network

Where a Supplier is transacting with multiple Buyers on the SAP Business Network, separate routing for each different Buyer cannot occur.

Also, ensure that all fields with asterisks have an email address entered, only when there is a tick next to the option does it become active.

Open **Network Settings** by, clicking on your **Initials** at the top right of your screen, selecting **Settings**

1. Click on **Electronic Order Routing** under Network Settings
2. Locate **New Orders**
3. Select the **Routing Method** (the default is Email)
4. Confirm or enter up to 5 emails **into Email Address**,

To add more emails only use a comma, no spaces or dashes

5. Select the required option/s from (Enterprise Accounts only):
 - ❖ Attach cXML document in the email message
 - ❖ Include document in the email message
 - ❖ Leave attachments online and do not include them with email messages etc.
 - ❖ Attach PDF document in the email message
 - ❖ All other New Order routing methods will reflect the choice made for Catalog Orders without Attachments

6. Scroll down to **Notifications**

Refer to [Electronic Order Routing - Notifications](#)

The screenshot displays the 'Network Settings' page for 'Electronic Order Routing'. The 'New Orders' section is highlighted with a red box and a blue '2'. A dropdown menu for 'Routing Method' is open, showing 'Email' selected, with a red box and blue '3' next to it. The 'Email address' field is empty, with a red box and blue '4' next to it. A red box and blue '5' highlights the 'Options' section, which includes checkboxes for 'Attach cXML document in the email message', 'Include document in the email message', 'Leave attachments online and do not include them with email message. This applies to all orders with attachments that have the routing method "Same as new catalog orders without attachments".', and 'Attach PDF document in the email message'. At the bottom, the 'Notifications' section is highlighted with a red box and blue '6', showing a checkbox for 'Send a notification when orders are undeliverable.' which is checked.

Suppliers can identify when they require to be notified about a document by ticking in the applicable **Send Notifications when...**

At least one email address must be in the To email addresses and the System Administrator email may already be displayed

1. Select the required **Send notifications when...**, putting a tick in the associated box activates the selection
2. Confirm or enter the **To email addresses** applicable email address
3. Click on **Save**

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

4. Click on **Close** to exit or select the next tab required

❖ Even if none of the selections are chosen there must be an email address in the fields with an asterisk

Type	Send notifications when...	To email addresses (one required)
Order	<input checked="" type="checkbox"/> Send a notification when orders are undeliverable.	*
	<input type="checkbox"/> Send a notification when a new collaboration request against an existing order is received.	
	<input type="checkbox"/> Send notification for new purchase orders to suppliers.	
	<input type="checkbox"/> Send notification to suppliers when purchase orders are changed.	
Purchase Order Inquiry	<input checked="" type="checkbox"/> Send a notification when purchase order inquiries are received.	*
	<input type="checkbox"/> Send a notification when purchase order inquiries are undeliverable.	
Time Sheet	<input type="checkbox"/> Send a notification when time sheets are undeliverable.	*

Roles, Users and Network Permissions

- ❖ A Role must be available or created before adding a user, many users can be associated with a particular role. Roles can be named using your businesses terminology and permissions can be added or removed when required

Account Settings – Users Tab Information

The Users tab/selection is only available to the System Administrator, use this tab to maintain users for the SAP Business Network for:

- ❖ Creating Roles
- ❖ Creating Users
- ❖ Maintaining Users
- ❖ Assigning permissions
- ❖ Resetting passwords
- ❖ Assign the System Administrator role to another user

- 1. Users** – The tab accessed by the System Administrator to create, update and maintain users
- 2. Manage Roles** – Roles must be created prior to creating users, roles are created based on the functions/roles within the supplier organisation
- 3. Manage Users** – Used to add, delete, update and maintain both users and specific permissions of users
- 4. Manage User Authentication** – Used to increase system security
- 5. Role Name** – The name of the function/role added by the System Administrator, users are then assigned a role based on the permissions required to perform their job
- 6. Users Assigned** – Indicates the number of users assigned to the Role
- 7. Actions** – The actions allowed, the System Administrator role cannot be deleted, there is only 1 System Administrator at any one time
- 8. +** - Used to Add Roles

Account Settings

Customer Relationships Users 1 Notifications Application Subscriptions Account Registration API management

+ 8

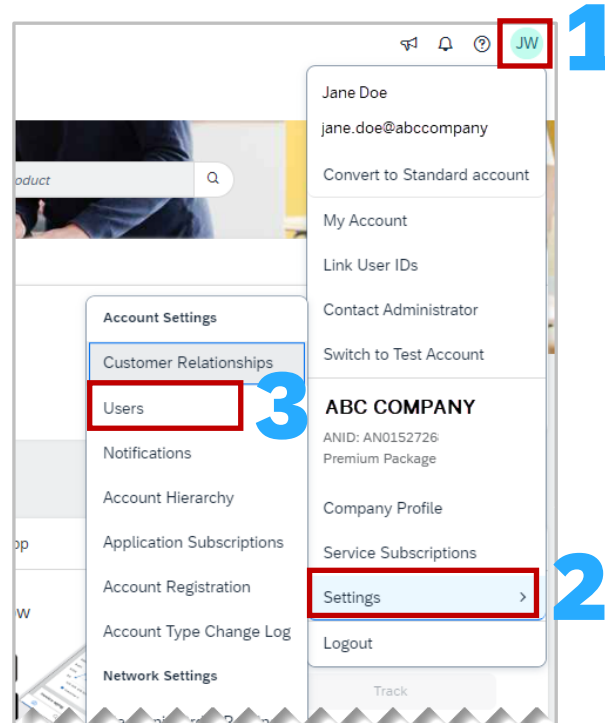

Only the System Administrator can manage roles, add users and control permissions. Even selecting all available permissions will not provide access to the Users section of the SAP Business Network.

Roles should reflect the job roles within your organisation, particularly those that need to interact with the SAP Business Network.

Roles are then assigned permissions so that sub-users are able to access the network and perform the tasks required.

1. Sign in to the SAP Business Network, click on your **initials**
2. Select **Settings**
3. Select **Users**
4. Confirm you are on the **Manage Roles** tab
5. Locate **Role Names** and determine whether you need to add, edit or update permissions on an existing role

Checking there is Roles

Adding a Role

Permissions are assigned by the System Administrator based on the Role responsibilities, refer to [Permissions](#).

A new role does not need to be created if adjusting permissions, refer to editing permissions.

1. Sign in to the SAP Business Network, click on your **initials**
2. Select **Settings**
3. Select **Users**
4. Confirm you are on the **Manage Roles** tab
5. Click on the **+**
6. Add the name of the **role**
7. Scroll down to see available permissions, and select all applicable permissions, use **Page** to review more permissions

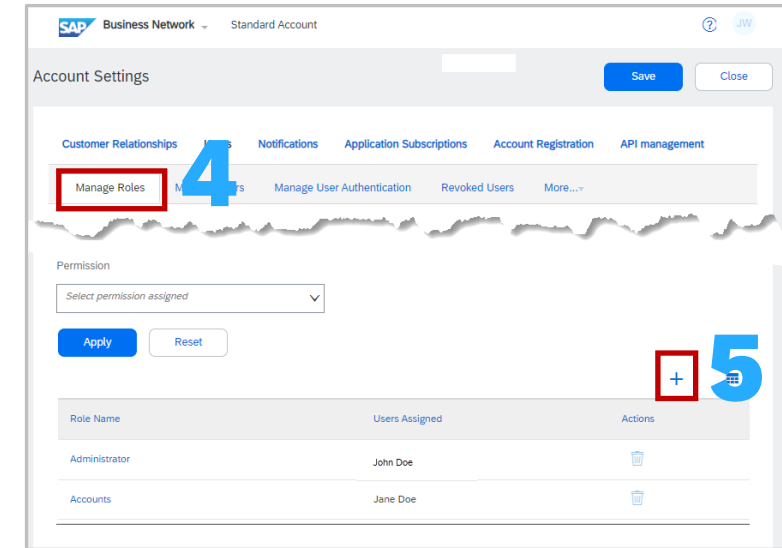

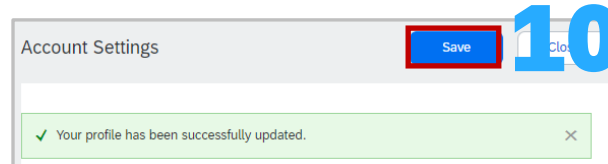

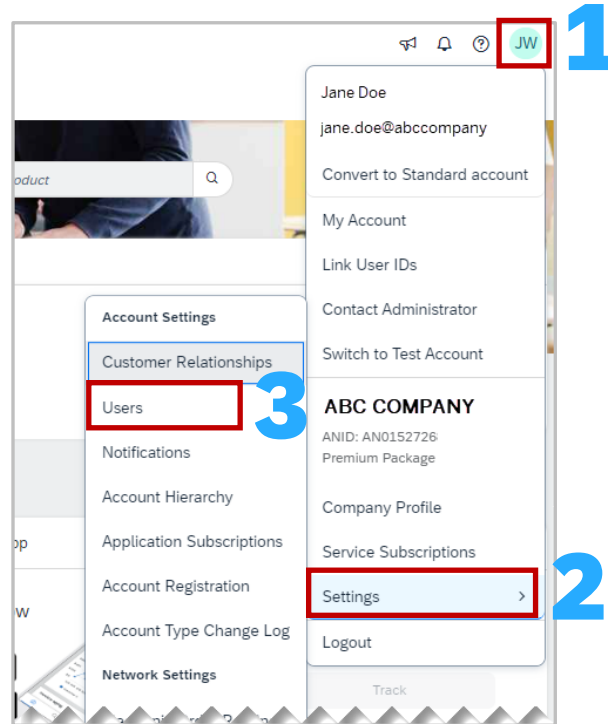

Note: Standard Account Suppliers do not have the same number of available permissions,

8. To select all permissions select **Permission**
9. Once completed, click on **Save**

The screen will revert back to the Manage Roles Tab

10. Click on **Save**

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

Editing a Role

Existing Roles can be edited, including:

- ❖ Changing the name of the Role
- ❖ Removing permissions
- ❖ Adding Permissions
- ❖ Identifying Assigned Users
- ❖ Moving Assigned Users to another role

1. Display the **Manage Roles** Tab
2. Click on the name of the role you need to modify
3. The Edit Role screen is displayed, the active permissions are shown, to view other available permissions, click on **Show me all the available permissions**
4. Review and select other permissions this role should have (review other pages)
5. Click on **Save**
6. Screen returns to the Manage Roles tab, click on **Save**

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

✓ Your profile has been successfully updated.

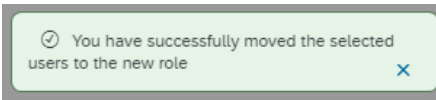

Only the System Administrator can manage roles, add users and control permissions. Even selecting all

1. Display the **Manage Roles** Tab
2. Scroll down to **Assigned Users**
3. The **Users** assigned to this **Role** will be displayed
4. To Move a User to a different Role, select the affected **user**
5. Click on **Move to another role**
6. The Move Users to Another Role pop-up box is displayed, click on the **Select Role** down arrow

Note: The System Administrator role is not available, to change the System Administrator refer to [Change Administrator](#)

7. Click on **Move and Save**

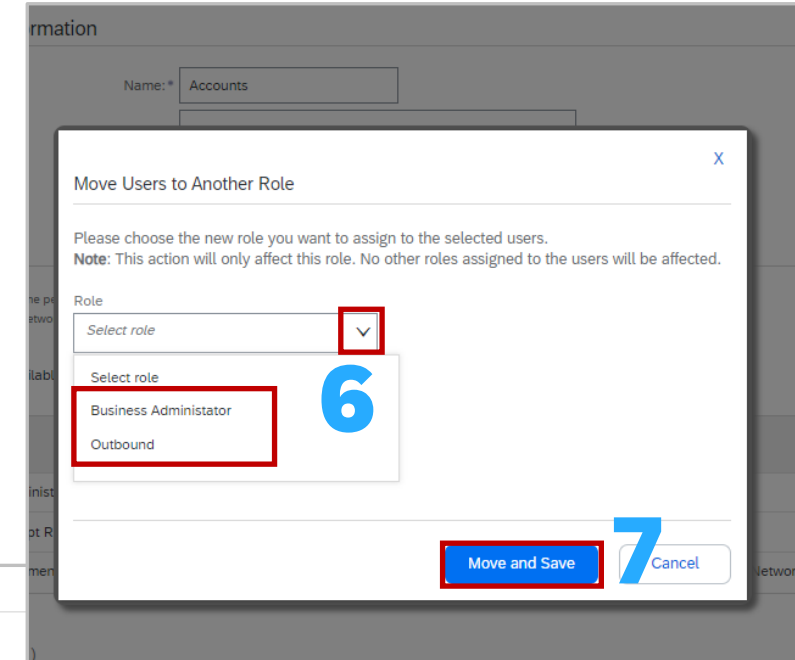

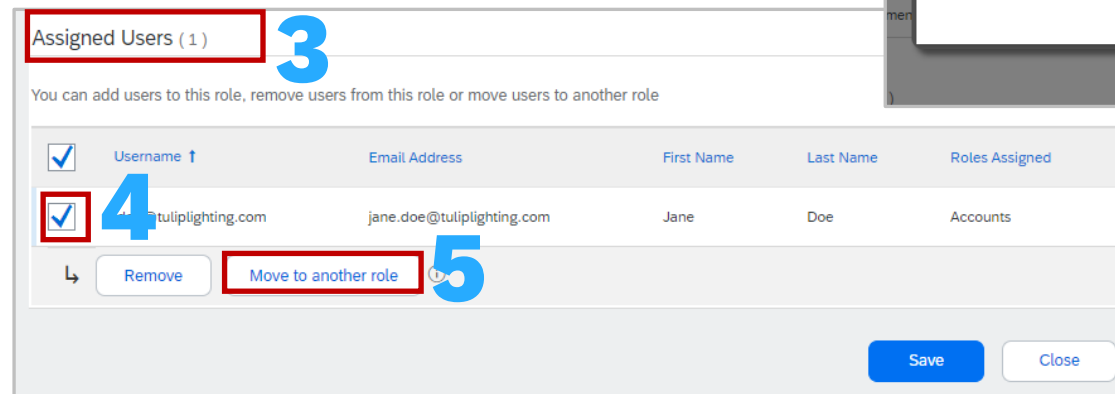

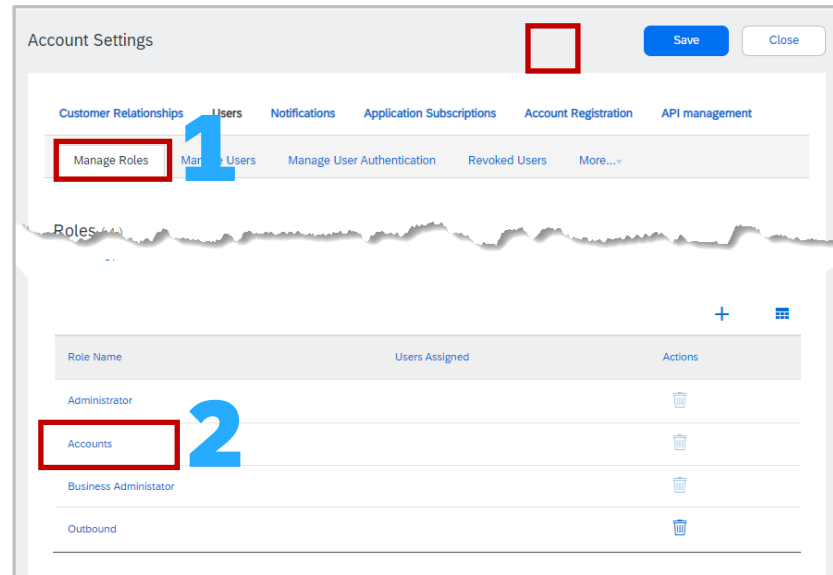

Note: A screen pop up confirms the move

8. Screen returns to the Manage Roles tab, click on **Save**

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

Identifying Assigned Users to a Role and Moving users to another Role

Only the System Administrator can manage sub-users, assign a new System Administrator and control permissions.

Accessing the Manage Users Tab

1. Sign in to the SAP Business Network, click on your **initials**
2. Select **Settings**
3. Select **Users**
4. Confirm you are on the **Manage Users** tab
5. The list of users is displayed
6. Click on **+** to add users
7. Click on **📄** to export contacts list
8. Click on **☰** for the Table Options Menu
9. The Filter allows for a search based on the criteria selected, use the drop down to select the criteria, enter the information, click on the **+** then click on Apply. The info will be displayed

The screenshot shows the SAP Business Network user management interface. It is divided into two main parts: a top navigation menu and a main content area.

Top Navigation Menu: A user profile for Jane Doe is shown at the top right, with a red box around the initials 'JD' and a blue '1' next to it. Below the profile is a list of menu items: 'Convert to Standard account', 'My Account', 'Link User IDs', 'Contact Administrator', 'Switch to Test Account', 'Settings', and 'Logout'. A red box highlights the 'Settings' item, with a blue '2' next to it.

Main Content Area: The 'Account Settings' page is displayed. A red box highlights the 'Users' tab in the left sidebar, with a blue '3' next to it. The 'Manage Users' tab is selected in the top navigation bar, with a blue '4' next to it. Below the tabs, there is a section for 'Users (3)'. A red box highlights the 'Filter' section, which includes a dropdown menu for 'Username' and a search input field. A blue '9' is next to the filter section. Below the filter is a table of users. A red box highlights the table, with a blue '5' next to it. The table has columns for 'Username', 'Email Address', 'First Name', 'Last Name', 'SAP Business Network Discovery Contact', 'Role Assigned', 'Customer Assigned', 'AN Access', and 'Actions'. The table contains three rows of user data. To the right of the table, there are three icons: a plus sign (+), a document icon, and a table options icon (☰). A blue '6' is next to the plus sign, a blue '7' is next to the document icon, and a blue '8' is next to the table options icon.

Username	Email Address	First Name	Last Name	SAP Business Network Discovery Contact	Role Assigned	Customer Assigned	AN Access	Actions	
<input type="checkbox"/>	jdoe@tuliplighting.com	jane.doe@tuliplighting.com	Jane	Doe	No	Outbound	All(1)	Yes	Actions
<input type="checkbox"/>	jane.doe@abccompany.com		Jane	Doe	No	Business Administrator	All(1)	Yes	Actions
<input type="checkbox"/>	john.doe@abccompany.com		John	Doe	No	PROFILE_MGMT_ROLE, +3	All(1)	Yes	Actions

Getting to the Manage User Tab - Manage Users Information

Users – Create Users/Assign Roles/Assign Customers

After Roles have been created or added as required, **Users** can be created

To Create a User:

1. Click on the **Manage Users** tab
2. Click on the **PLUS** button
3. The Create User Screen is displayed, enter a **User name**

Note: The User name can be the email address of the User or it can be created, however it must be in an email format, for example jane@abc.com

4. Enter the **Email Address** of the User
5. Enter the User's **First Name**
6. Enter the User's **Last Name**

There is no requirement to add information without an Asterisk

7. Scroll down to **Role Assignment**, select the **Role/s** that suits the needs of the Sub-user

Note: Users can be assigned more than one Role

8. Scroll down to **Customer Assignment**, and identify whether the user works specifically on one or more Customers (only customers with a relationship will appear)

9. Click on **Done** (you may get a Confirm Domain message particularly if you have not used the actual email address of the user for the Username, click **Yes**)

10. Click on **Save**

The screenshot illustrates the SAP User Management interface with several key sections and steps highlighted:

- Manage Users Tab:** The 'Manage Users' tab is selected, indicated by a red box and the number 1.
- PLUS Button:** A red box and the number 2 highlight the plus icon in the top right corner of the 'Users (0)' list.
- Create User Form:** The 'Create User' form is shown with the following fields:
 - Username:** 'john.doe@abccompany.com' (highlighted with a red box and number 3)
 - Email Address:** 'john.doe@abccompany.com' (highlighted with a red box and number 4)
 - First Name:** 'John' (highlighted with a red box and number 5)
 - Last Name:** 'Doe' (highlighted with a red box and number 6)
- Role Assignment:** The 'Role Assignment' section is highlighted with a red box and the number 7. It shows a table with the following roles checked:

Name	Description
<input checked="" type="checkbox"/> Business Administrator	
<input type="checkbox"/> Accounts	
<input checked="" type="checkbox"/> Outbound	
- Customer Assignment:** The 'Customer Assignment' section is highlighted with a red box and the number 8. It shows a table with the following customers checked:

Customers	Description
<input type="checkbox"/> Customers ↑	
<input type="checkbox"/> Name of Buyer	
- Account Settings:** The 'Account Settings' section is highlighted with a red box and the number 10. It shows a 'Save' button and a success message: 'Your profile has been successfully updated.'
- Confirm Domain:** A 'CONFIRM DOMAIN' dialog box is shown with the message: 'The domain you specified does not match your company's domain. Do you still want to use it?' with 'Yes' and 'No' buttons.
- Done Button:** The 'Done' button at the bottom right of the 'Customer Assignment' section is highlighted with a red box and the number 9.

Manage User Deletion and Delete a User

Only the System Administrator can manage roles, add users and control permissions. Even selecting all available permissions will not provide access to the Users section of the SAP Business Network.

Prior to deleting Users from accessing the SAP Business Network, confirm that a retention period has been entered. Retention periods are done in “months”.

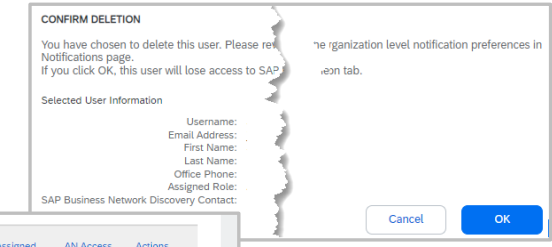

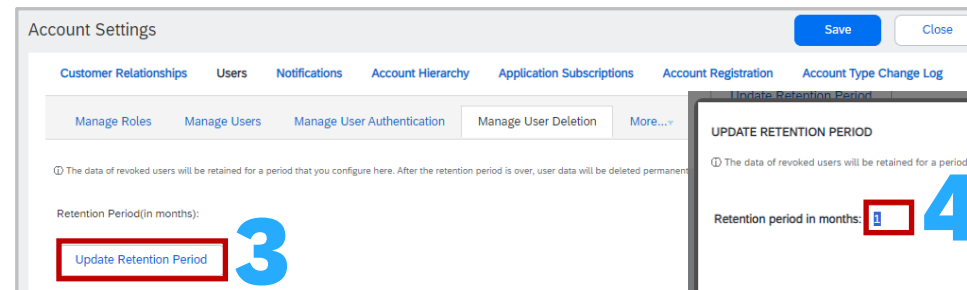

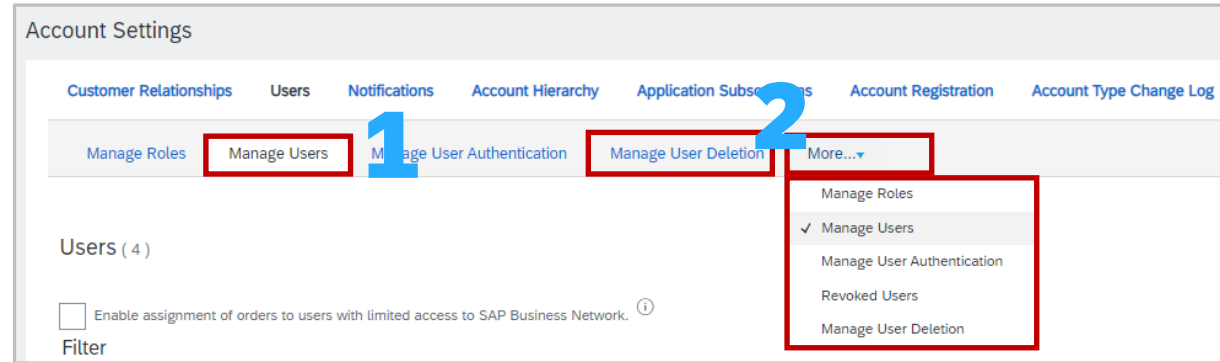

To access the Deletion Retention period:

1. Display the Account Settings screen with the Manage Users tab selected
2. **EITHER** – Click on the **Manage User Deletion** tab
Or Click on **More** and select the **Manage User Deletion** from the drop-down list
3. To add or change the retention period, click on **Update Retention Period**
4. Enter a number between 1 and 12
5. Click on **Save**
6. The Retention Period is shown with the date the retention period was modified

A **Green** ribbon indicates that it has been successfully saved, a **Red** ribbon indicates an error, correct and re-save

To Delete a User: (numbers in orange)

1. Display the **Manage Users Tab**
2. Scroll down to the **list of users**
3. Select the **User** you need to delete
4. Click on **Actions**
5. Select **Delete** from the drop-down list
6. The details of the user are shown, click on **OK**

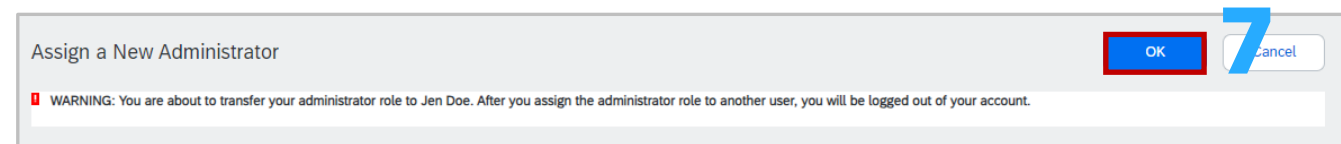

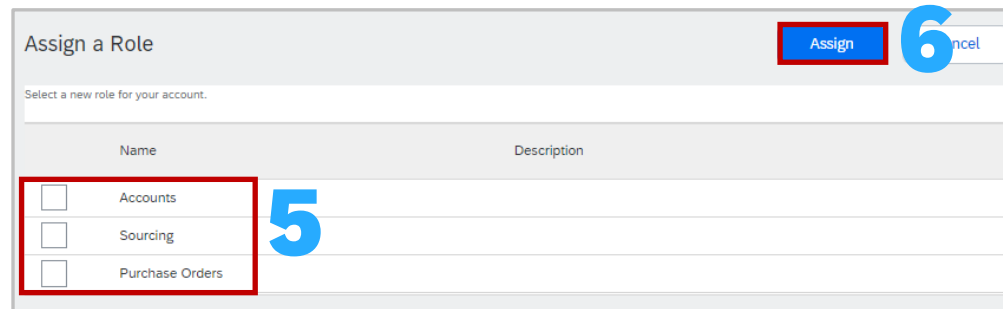

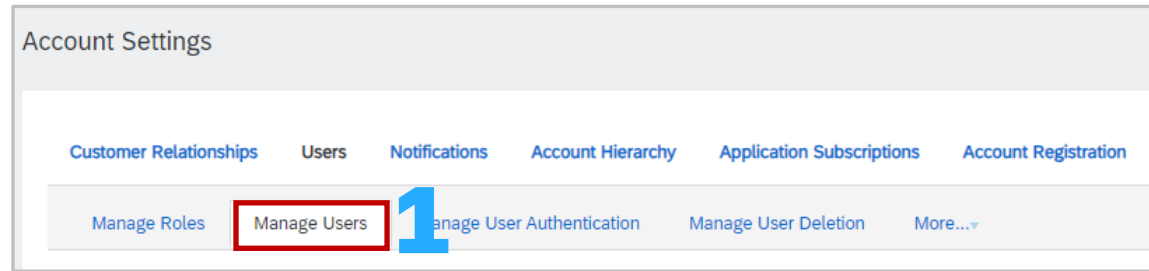

Updating the System Administrator

Where the Administrator is still working in the business but no longer is the designated SAP Business Network System Administrator. Ensure that the new administrator has a Username and Permissions already assigned to an existing role.

1. Display Account Settings and select the **Manage Users** tab
2. Scroll down to **Users** or use filters to search for a specific user, select the **User** that is the new designated administrator
3. Click on **Actions**
4. Select **Make Administrator**
5. Select the **role/s** being assigned to the existing administrator
6. Click on **Assign**
7. A screen message will confirm that the new administrator is being assigned

Note: The new system administrator will receive an email advising they are now the new administrator and the previous system administrator will be logged out, the Username and password remain the same for both the old and new administrators

Ariba Commerce Cloud
You Are Now an Ariba Network Account Administrator.
<https://service.ariba.com/an/p/Ariba/Logo_SAPBusinessNetwork.png>

Ariba Commerce Cloud
Attention: User Account information changes detected
<https://service.ariba.com/an/p/Ariba/Logo_SAPBusinessNetwork.png> User account 5:34 PM

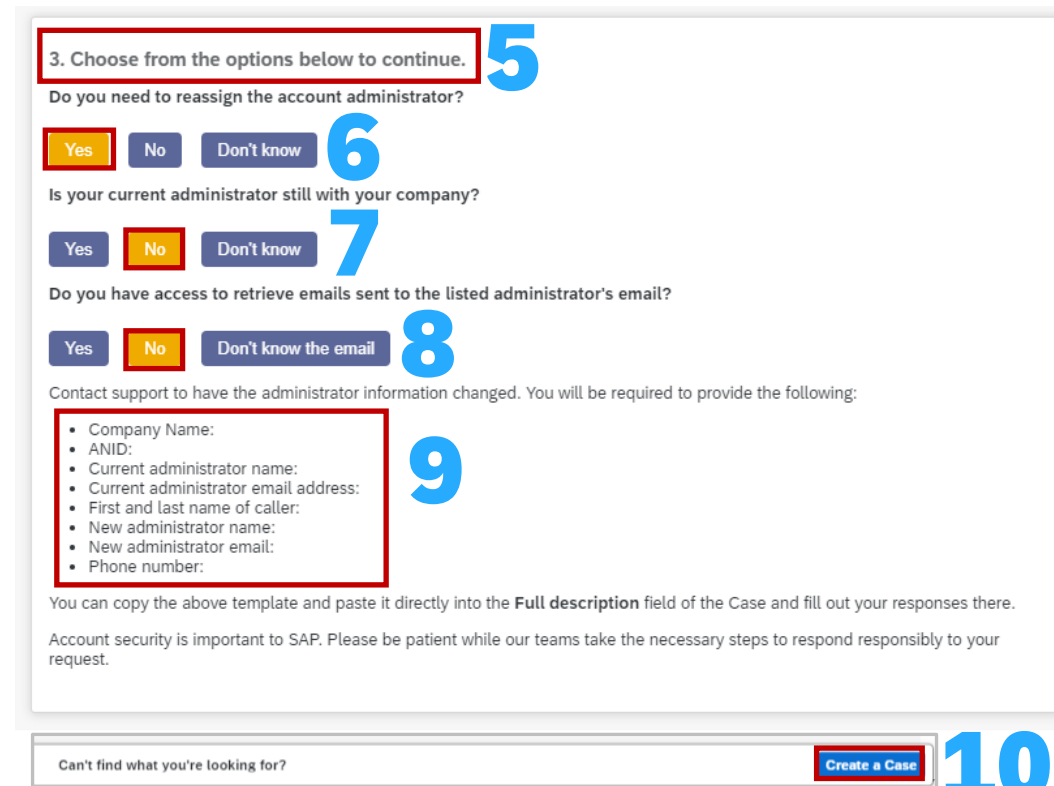

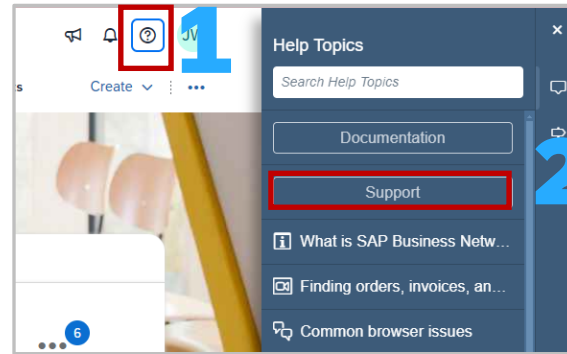

Where the System Administrator has left the business but a sub-user has a username and password, you need to assign a new System Administrator you will need to log a support request. Creating a case while logged in will update the ANID of the account you are using

1. Sign in to the SAP Business Network AND Click on the
2. Select **Support**
3. The SAP Help Centre Home is displayed and click on **Contact Us**
4. Enter **Change System Administrator**
5. Scroll down to **Choose from the below to continue**
6. Click on **Yes**
7. Click **No**, for the current administrator is still with the business/company
8. Click **No**, that you do not have access to the listed administrator email
9. Ensure you have the information listed
10. Click on **Create a Case** at the bottom of the screen

Refer to [Create a Case](#)

What to do if the System Administrator has Left and you have a username and password

Where the System Administrator has left the business and you need to assign a new System Administrator you will need to log a support request. If you do not have access to the network and no other sub-user has a username or password follow this process.

1. From the **SAP Business Network Sign-in Page** (<https://service.ariba.com>) and click on the  in the top corner of the screen
2. Click on **Support**
3. The SAP Help Centre Home is displayed and click on **Contact Us**
4. Click on **Forgot username**
5. Scroll down to **Choose from the below to continue**
6. Click on **Yes**
7. Click **No**, for the current administrator is still with the business/company
8. Click **No**, that you do not have access to the listed administrator email
9. Ensure you have the information listed
10. Click on **Create a Case** at the bottom of the screen

What to do if the System Administrator has Left and you do not have a username and password

1 From the **SAP Business Network Sign-in Page** (<https://service.ariba.com>) and click on the  in the top corner of the screen

2 Click on **Support**

3 The SAP Help Centre Home is displayed and click on **Contact Us**

4 Click on **Forgot username**

5 Scroll down to **Choose from the options below to continue.**

6 Click on **I need to reassign the administrator account**

7 Click **No**, for the current administrator is still with the business/company

8 Click **No**, that you do not have access to the listed administrator email

9 Ensure you have the information listed

10 Click on **Create a Case** at the bottom of the screen

Refer to [Create a Case](#)

Self-Service Account Deletion

- ❖ The feature allows users to delete their SAP Business Network account
- ❖ Where a Supplier proceeds with the account deletion, ALL associated accounts get deleted
- ❖ Once a Supplier submits an account deletion request, there is a 90 grace period in which the account can be restored, however, this will require the Supplier to Create a Case or contact Customer Support
- ❖ Once the grace period has lapsed the account is permanently deleted and cannot be retrieved
- ❖ Only Standard Accounts can be deleted
- ❖ If a Supplier wishes to delete an Enterprise Account they will need to first downgrade the account using the **Self Downgrade Process**
- ❖ Suppliers must initiate the account deletion from a Parent account
- ❖ Enterprise Account Suppliers must download archived invoices first
- ❖ Where a System Administrator deletes an account, note that none of the users will be able to access the accounts
- ❖ Suppliers will lose access to all company relationships, documents and configuration
- ❖ Confirm that an account is NOT being used for RFXs as they will be deleted where the ANID is the same

NOTE: Open Purchase Orders are **NOT**, accounts can be deleted even if there are open Purchase Orders

The **System Administrator** is the only User with the Option to perform self-service account deletion. Currently, supplier will need to access a listed option until the account tab is updated.

1. Sign in to the account and click on your initials in the top right corner
2. Select **Settings**
3. Select **Customer Relationships**
4. Click on the **Account Deletion** tab
5. Read the information under Review Associated Account and your ANID displayed on the screen and if you wish to proceed, put a tick in the “**I understand that my associated account(s) also get deleted by this deletion request**”
6. Read the information under the Submit Deletion Request, and if you still wish to proceed put a tick in the “**I Understand that once my deletion request is submitted.....**”
7. Click on **Submit Deletion Request**

Delete an Account Process

The screenshot illustrates the SAP account deletion process with seven numbered callouts:

- 1**: A red box highlights the user initials 'JW' in the top right corner of the user profile dropdown menu.
- 2**: A red box highlights the 'Settings' option in the user profile dropdown menu.
- 3**: A red box highlights the 'Customer Relationships' option in the left-hand navigation menu.
- 4**: A red box highlights the 'Account Deletion' tab in the 'Account Settings' header.
- 5**: A red box highlights the checkbox for the statement: "I understand that my associated account(s) also gets deleted by this deletion request.*"
- 6**: A red box highlights the checkbox for the statement: "I understand that once my deletion request is submitted, I won't have access to my account and associated account. There is a 90 days grace period to cancel the deletion request through customer support."
- 7**: A red box highlights the 'Submit Deletion Request' button at the bottom of the form.

The **System Administrator** is the only User with the Option to perform self-service account deletion.

You need to confirm the Account Deletion via an SAP Business Network Account deletion notification

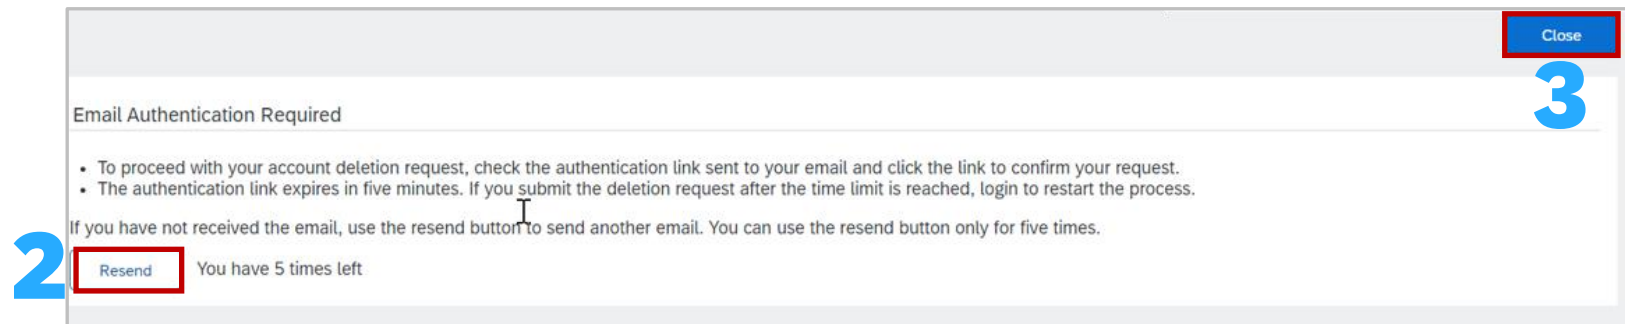

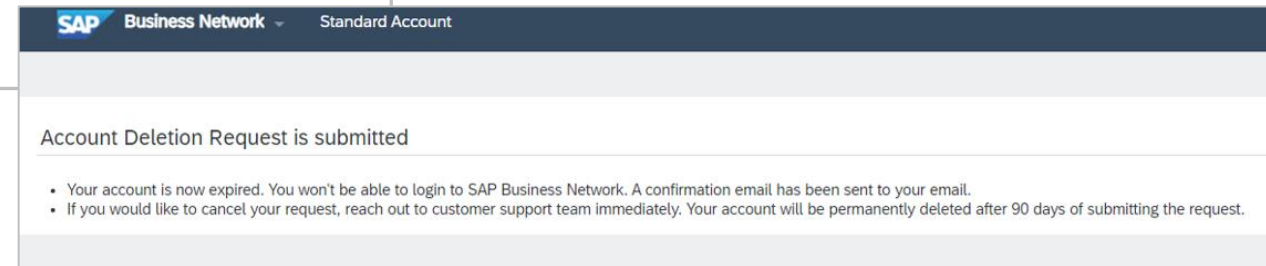

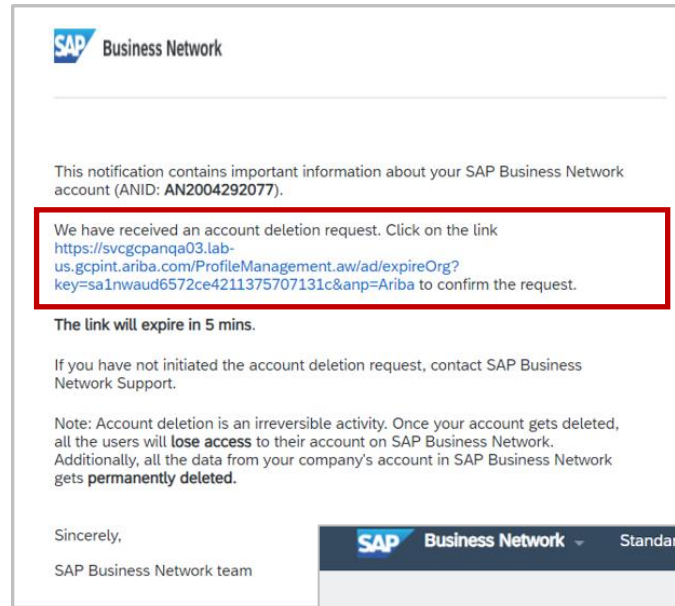

A deletion confirmation notification will be sent to the supplier with a confirmation link which will complete the request to delete the account. A final confirmation email will be sent after the account is deleted.

The Email Authentication Required screen is displayed, Go to your email and locate the SAP Business Network Notification Email

NOTE: the link in the email will expire in 5 minutes

1. Click on the Link in the email to confirm the request
2. If you did not receive the email click on the Resend Button in the Email Authentication Required screen box
3. Click on **Close**

Deletion Confirmation Notification

Multi-Factor Authentication

- ❖ Multifactor Authentication increases a business SAP Business Network security
- ❖ Only the System Administrator can manage, update and maintain multifactor authentication processes
- ❖ There are different levels of multifactor authentication that can be attached to specific users or all users of the SAP Business Network, they are:
 - ❖ **Time Allowed to skip multi-factor authentication attempts allowed** – the maximum number of days the user can skip the multifactor authentication setup, the default value is 5 days
 - ❖ **Number of invalid multi-factor authentication attempts allowed** – the maximum number of invalid multifactor authentication attempts that a user can make, the default is 5 attempts. After the number of invalid attempts specified in the field the user account is locked, only the System Administrator can unlock this account
 - ❖ **Retry period for locked out users** – After the number of minutes shown (default 120 minutes) the user account is automatically unlocked and can be reused, if it occurs a second time the default is 240 mins and the user is unlocked after that time. If the User gets locked a 3rd time the user account is locked and only the System Administrator can unlock the account
 - ❖ **Enable the Remember me option** – a user can select this option for multifactor authentication in the one-time password input screen, this opens a Remember Device for selection
 - ❖ **Remember device for** – specifies the maximum number of days the user's device and browser will be remembered, during which they will not be promoted for the multifactor authentication passcode during login, the default is 5 days

User Notifications of Multifactor Authentication Information

When this notification is sent to a User	Notification Text
<p>When you have not set up multi-factor authentication even after you receive an email from your SAP Business Network administrator</p>	<p>Your action is required. This is a reminder to set up Multi-factor authentication which is due in 5 days. Multi-factor authentication is an additional layer of security to prevent unauthorized access to your account and protect the data. This does not affect your log in into SAP Ariba applications. Once you successfully log in with your credentials, you will be shown instructions to set up multi-factor authentication. It is highly recommended that you set up this feature immediately.</p>
<p>When you exhaust the limit set by your SAP Business Network administrator for invalid passcode entries</p>	<p>You have been locked out of your account for providing invalid passcode. Please wait while your account is reactivated. You may also reach out to your administrator and request your account to be unlocked.</p>
<p>When: Your SAP Business Network administrator has reset multi-factor authentication for your user account.</p> <p>You have requested a reset of multi-factor authentication for your user account.</p>	<p>Multi-factor authentication has been reset and a new security code has been generated for you. Once you successfully log in with your credentials, you will be shown instructions to set up multi-factor authentication. It is highly recommended that you set up this feature immediately</p>

Enable Multifactor Authentication for Login - Users

Only the System Administrator can enable Multifactor Authentication requirements

With Multifactor Authentication enabled for login, users are required to perform the two-step verification process to log in to the SAP Business Network

To enable multifactor authentication for login:

1. Select the **Manage User Authentication** tab
2. Select the box **Require multi-factor authentication for login**
3. Click on **Yes** in the dialogue box
4. Select the users by checking the boxes against their names from the table or the box in the blue ribbon as it will select **ALL** users
5. Click on **Apply**
6. Click on **Save**

Note: If you do not select specific Users none of the Users in your business will be enabled for multifactor authentication

To **Disable Multi-Factor Authentication**, select the box with a tick, a dialogue box will indicate you are disabling the multifactor authentication at login, click **Yes**

The screenshot shows the SAP Account Settings interface. The 'Manage User Authentication' tab is selected and highlighted with a red box and a blue '1'. Below it, the 'Multi-factor Authentication User Setup (1)' section has the 'Require multi-factor authentication for login' checkbox selected with a red box and a blue '2'. A table below shows user details with checkboxes in the first column, one of which is selected with a red box and a blue '4'. A dialog box at the bottom left asks 'MUTIFACTOR AUTHENTICATION AT LOGIN' with a 'Yes' button highlighted in red and a blue '3'. A 'Multi-factor Authentication User Setup (10)' dialog box at the bottom right has the 'Require multi-factor authentication for login' checkbox checked with a blue '5' and an 'Apply' button highlighted in red. A 'Save' button is highlighted in red at the top right, and a 'Close' button with a blue '6' is also visible.

Test Accounts

- ❖ Only the System Administrator can create the test account and use the Switch to Test ID selection, users must be added as users
- ❖ The same credentials cannot be used to access the Test and Production account
- ❖ For Suppliers that will be integrating, a Test Account will be needed to ensure documents are flowing correctly from your ordering system or ERP through Ariba and to your Buyer
- ❖ Roles, Users and Permissions must be created for users in the test environment as their production account will not give them access unless a specific test log in is created
- ❖ Your Test account should be configured to match your Production account. This will ensure the testing results are consistent with what will result in Production
- ❖ The Network will always display which mode you are logged into, (Production or Test). Your Test account ID has the suffix “-T” appended to your SAP Business Network ID (ANID)

The **System Administrator** is the only User with the Option to Switch to the Test Account

- ❖ The System Administrator will need to create Test Account User ID's before users can access Test.

To Create a **Test Account**:

1. Click on your initials in the top right corner
2. Select **Switch to Test Account**
3. Click **OK** when the SAP Business Network displays a warning indicating You are about to switch to Test Mode.

Note: A Test Admin Username will be autogenerated, the System Administrator can either use this or create a new one, it cannot be the same as the login for the Production Account

4. Create a **Username**
5. Create a **Password**
6. Re-enter the password into **Confirm Password**
7. Click **OK**

You will be transferred to your test account. Your Test account should be configured to match your Production account. This will ensure the testing results are consistent with what will result in Production.

Test Mode will be displayed in Red at the top of the screen to identify you are working in a Test account

Test Account Creation

The image shows three screenshots of the SAP Business Network interface illustrating the steps to create a test account:

- Step 1:** A user profile card for Jane Doe (jane.doe@abccompany) is shown. The initials 'JW' in the top right corner are highlighted with a red box and a blue '1'. A red box is also present in the top right corner of the page.
- Step 2:** The 'Switch to Test Account' option in the user profile card is highlighted with a red box and a blue '2'.
- Step 3:** A 'Changing Account Mode' dialog box is shown. The 'OK' button is highlighted with a red box and a blue '3'. The dialog contains the following text: 'When you change account mode, you log out of your SAP Business Network account in Production Mode and login to your account in Test Mode. To remain in Production Mode and save changes, click Cancel. To continue logging into your account in Test Mode, click OK.'
- Step 4:** The SAP Business Network header is shown with 'TEST MODE' displayed in a red box.
- Step 5:** The 'Create Test Account' dialog box is shown. The 'Username:*' field is highlighted with a red box and a blue '4'. The 'Password:*' field is highlighted with a red box and a blue '5'. The 'Confirm Password:*' field is highlighted with a red box and a blue '6'.

Auto-Invoice Against Goods Receipts (GRN)

- ❖ The Automatic Invoice Creation process authorizes the Buyer to use the SAP Business Network functionality to create and submit invoices based on the receipts generated by the Buyer
- ❖ Each time the SAP Business Network receives a receipt that applies to a single order from the Buyer, the system will use the information from the receipt and the corresponding order to automatically create and submit an Invoice
- ❖ When using this process the information entered into the Purchase Order and then confirmed is the document that the invoice is created from
- ❖ Only Buyers who use Automatic Invoice Creation will have an Actions button available and Automatic Invoice Creation a selection
- ❖ When the Automatic Invoice Creation has been triggered the Response Status will be either Rejected (not active) or Accepted (active)
- ❖ A Supplier can change the response at any time however be aware that receipts prior to changing will be automatically created

Activate Goods Receipt Notice (GRN) Process and Information

To request consent from your Buyer that they agree to participate in this process

Open the [Customer Relationships](#) screen

1. Click on the **Automatic Invoice Creation Acceptance** tab

❖ **Note:** If the Automatic Invoice Creation tab is not displayed, click on More. If it is not available for selection it indicates this is not a process your Buyer/s use

2. Click on **Actions**
3. Select **Confirm Automatic Invoice Creation**
4. Click **Yes**
5. Agree to the terms and conditions by clicking in the box
6. Click **OK**
7. Click on **Close** to exit the screen

Note: To turn the Auto-invoice process off select No in step 3

The screenshot illustrates the process of activating Goods Receipt Notice (GRN) in SAP. It is divided into seven numbered steps:

- Step 1:** In the 'Account Settings' screen, under the 'Customer Relationships' section, the 'Automatic Invoice Creation Acceptance' tab is selected.
- Step 2:** The 'Actions' button is clicked.
- Step 3:** The 'Confirm Automatic Invoice Creation' option is selected from the actions menu.
- Step 4:** In the 'Confirm Automatic Invoice Creation' dialog, the 'Yes' radio button is selected.
- Step 5:** The checkbox for 'By selecting Yes, my company authorizes Ariba, using the Ariba Network functionality, to automatically create and submit invoices based on receipts sent by' is checked.
- Step 6:** The 'OK' button is clicked.
- Step 7:** The 'Close' button is clicked to exit the screen.

Customer Relationships

Suppliers may receive requests from other businesses to create a relationship

To manage Customer Relationships:

Open the [Customer Relationships](#) screen

1. Select **Current Relationships**
2. Identify and select whether you wish to accept new customer relationships either **Automatically** or **Manually**
3. Click **Update**

The Tabs indicate how many customers are:

- ❖ Current
- ❖ Pending
- ❖ Rejected
- ❖ My Groups

Review, update and confirm customer relationships as required

The screenshots illustrate the steps to manage customer relationships in SAP. The top screenshot shows the 'Account Settings' window with the 'Customer Relationships' tab selected. The 'Current Relationships' tab is highlighted with a red box and a blue '1'. Below it, the radio button options for 'Automatically accept all relationship requests' and 'Manually review all relationship requests' are highlighted with a red box and a blue '2'. The 'Update' button is highlighted with a red box and a blue '3'. The bottom screenshot shows the same interface but with the 'Update' button disabled and a 'Pending Customers' section visible below, which is currently empty.

To Manage Potential Customer Relationships:

1. Select **Potential Relationships**
2. Click on **View Project** next to the relationship you wish to view
3. Review the information on the **Relationship Details Tab**, enter information into all fields with an asterisks
4. Click on **Next**
5. Review the information on the **Profile Details** tab
6. Click on **Submit**

Suppliers can group their customers into defined groups

To do this:

Open the [Customer Relationships](#) screen

1. Select **Current Relationships**
2. Select the **My Groups** tab
3. Click **Create**
4. Enter the Name of the group you wish to create
5. Enter a Description of the group
6. Click in the box next to the Buyer/s you wish to add to this group
7. Click on Add, the names of the Buyers will appear under Members
8. Once all members have been added click on **Submit**, the name of the group is displayed

To create more groups, repeat this process

The screenshot illustrates the SAP interface for managing customer groups. It is divided into two main parts: the 'Account Settings' window and a 'Customer Group' modal.

- Account Settings:**
 - At the top, there are tabs for 'Customer Relationships' and 'Notifications'. The 'Current Relationships' tab is selected and highlighted with a red box and a blue '1'.
 - Below the tabs, there are statistics for 'Current (12)', 'Pending (0)', and 'Rejected (0)'. The 'My Groups (0)' tab is also visible and highlighted with a red box and a blue '2'. A red arrow points from this tab to the modal window.
 - At the bottom of the 'My Groups' section, there is a 'Create' button highlighted with a red box and a blue '3'.
- Customer Group Modal:**
 - The modal has a 'Submit' button at the top right, highlighted with a red box and a blue '8'.
 - There are input fields for 'Name' (containing 'Retail Customers', highlighted with a red box and a blue '4') and 'Description' (containing 'Direct To Store', highlighted with a red box and a blue '5').
 - Below the input fields is a 'Members' section with a table containing columns for 'Name' and 'Name of Buyer'. There is a 'Remove' button below this table.
 - Below the 'Members' section is a 'Select members' section with a table containing columns for 'Name' and 'Name of Buyer'. One row has a checkbox checked, highlighted with a red box and a blue '6'.
 - At the bottom of the 'Select members' section is an 'Add' button highlighted with a red box and a blue '7'.

Archiving Invoicing Enterprise Accounts Only

Invoice Archival Process

Configuring invoice Archiving allows you to specify the frequency, immediacy and delivery of zipped invoice archives

Suppliers can determine the frequency that invoices can be archived by choosing either Twice Daily, Daily, Weekly, Biweekly or Monthly

To do this:

Open the [Electronic Invoice Routing](#) screen

1. Select **Tax Invoicing and Archiving**
2. Scroll down to Invoice Archival, click on **Configure Invoice Archival**
3. Select the **Frequency**

Note: Select Archive Immediately if required, after Archive Immediately starts you can either Stop it or Update the frequency as required

4. Click on **Start**
5. Determine the **Send Requirement:**
 - ❖ Click on **Send Archived invoice files to the pending queue for download**
 - OR**
 - ❖ Click on **Send archived invoice files to the Archive Delivery URL**, then enter the **Archive Delivery URL**
6. Click on **Save Delivery Option**
7. Click on **Save**

Linking User ID's

- ❖ A production account User ID can not be connected with a Test Account User ID
- ❖ There is no option to un-link a linked user id, only the System Administrator can delete the User Name from the Manage Users section in the native account, however it will not be removed from the switch account section on the linked account
- ❖ All Users have link User IDs in their Account Settings by default
- ❖ There are two options:
 - ❖ Approval Needed
 - ❖ No Approval Needed
- ❖ You cannot link a test account to a Production Account
- ❖ When a user uses the **Approval Needed** option and sends a link request from the user account to the account administrator, the user will see whether the request is successful or not right away
- ❖ The account administrator will receive an email notification for the request to take action
- ❖ While the user's request is pending, they will be able to see the pending request in the supplier account and will have a chance to cancel the request if necessary
- ❖ The supplier account administrator will log in to the Ariba account, open Account Settings -> Link User IDs -> locate Received Link Requests -> click on the Actions dropdown to approve or decline the request
- ❖ When you use the **No Approval Needed** option, enter your user ID and password for another account, the linkage will occur momentarily

Linking User Id's

When you link user IDs from between two accounts, both will inherit already linked user IDs prior to this linkage

Once accounts are linked, you can log in to any one of them and switch to the other/s

Link User Id's to access more than one account without having to log out of one to log into another account you have credentials for

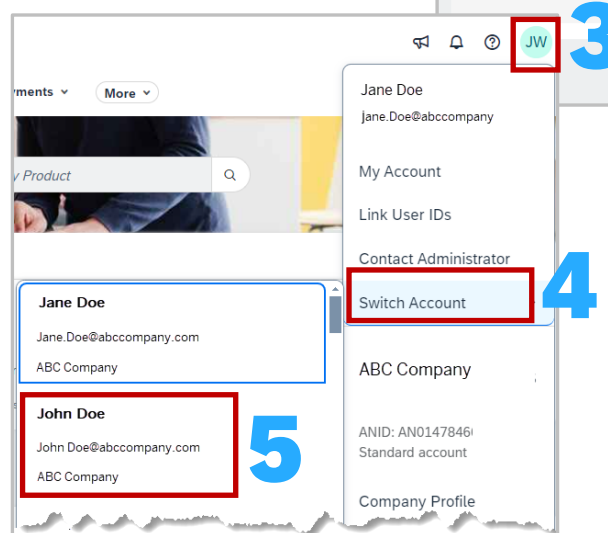

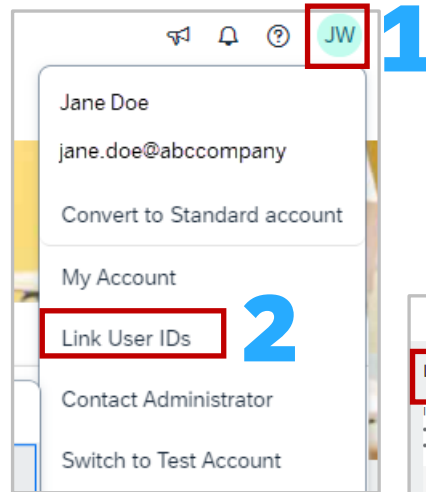

To do this:

1. Sign in to the SAP Business Network and click on **the initials at the top of the screen**
2. Select **Link User ID's**

Note: There are two options for Link User ID's. **Approval Needed** is used when you don't have a specific login for another account **No Approval Needed** is when you have a log in for the other account.

To accessed linked accounts:

3. Click on your **Initials**
4. Select **Switch Account**
5. Select the Account to switch to in the drop down list

Setting Up an Account Hierarchy

- ❖ An Account Hierarchy is used for multiple SAP Business Network accounts
- ❖ The Account Hierarchy Administration and Child Account Access permissions enable users to automatically sign on to a child account without having to enter a username and password
- ❖ Account Hierarchy and Link User IDs are two separate processes – Link User ID's can be actioned by all users, however only the System Administrator can define parent and child accounts
- ❖ Creating an Account Hierarchy makes it easier to manage by reducing the maintenance required to update duplicated accounts (where the profiles are synced)
- ❖ The Account Administrator has the permission's to create a hierarchy, however, users can send a request to the parent account administrator to approve the creation of a parent-child hierarchy. Send a request to the parent administrator and add a child account to the parent account on their own but a user cannot have any visibility to or awareness of their existing account hierarchy
- ❖ Account Hierarchy is a pre-requisite for a Multi-Org consolidation within a supplier account
- ❖ Multi-Org Consolidation is for Billing Purposes
- ❖ An Account Hierarchy is not available to create between production and test accounts
- ❖ Can be used for both Enterprise and Standard Account users

- ❖ The Administrator of the parent account can unlink accounts, unlink company profiles and sign onto child accounts and back to the parent account by default
- ❖ As the administrator of a parent account, you can automatically sign on to a child account
- ❖ You can create an account hierarchy between an Enterprise account (parent) and a Standard Account (child) and visa versa
- ❖ However, the parent account type is dominant when the account profiles are linked.
- ❖ Be aware of an automatic account upgrade when you try to create a hierarchy between an Enterprise account (parent) and a Standard account (child) or an automatic account downgrade when you try to create a hierarchy between a Standard account (parent) and an Enterprise account (child) while choosing to synchronize, i.e. linking the company profiles
- ❖ The administrator of the parent account **CAN:**
 - ❖ Log in to the child account
 - ❖ Change the setting on the child account and complete the company profile
 - ❖ Publish catalogs
 - ❖ Check the status of any subscription or transaction fees
- ❖ The administrator of a parent account **CANNOT:**
 - ❖ View buyers on the Child account
 - ❖ Create any documents (PO confirmation, Ship Notices, Invoices)
 - ❖ Run Reports

- ❖ Manage links to Child Accounts and sign on to Child Accounts to manage SAP Business Network processes
- ❖ The Account Hierarchy Administration permission allows users to manage links to child accounts and sign on to child accounts without a username and password
- ❖ The Child Account Access permission enables a user to sign on to child accounts
- ❖ The Account Hierarchy Administration permission allows a user to manage links to child accounts and sign on to child accounts without a username and password
- ❖ Other users can also sign on to child accounts, but require the Child Account Access permission to sign on to child accounts
- ❖ Administrators can control the visibility of accounts to potential business partners
- ❖ By default, both the parent and child accounts are visible to potential business partners when they perform a search for you on SAP URL Business Network using Allow buyer organizations to search this account setting. When this setting is enabled, business partners can search for both parent and child accounts on SAP URL Business Network. When this setting is unchecked, business partners can search and view only the parent accounts on SAP URL Business Network
- ❖ The administrator for a parent account can work with SAP Business Network Help Centre to manage services for child accounts.
- ❖ This includes subscribing to, updating, renewing, and cancelling services on behalf of the child accounts
- ❖ If an administrator chooses to align subscription terms for multiple child accounts, and one or more of the child accounts have already subscribed to services on their own, the SAP URL Business Network Customer Support team cancels the existing subscriptions and begins a new subscription on the date specified by the parent account administrator

- ❖ Manage links to Child Accounts and sign on to Child Accounts to manage SAP URL Business Network services
- ❖ The administrator of the Child account can unlink accounts by default
- ❖ A child account administrator cannot link or unlink account profiles whether the accounts are synchronized or unsynchronized
- ❖ If you choose to link company profiles while establishing a parent-child hierarchy:
 - ❖ The administrator of the Child account **CAN** log into the child account and take the following actions:
 - ❖ In the Account Hierarchy section
 - ❖ View parent account information
 - ❖ View parent account users name and username In the Settings
 - ❖ Change notifications in the Settings
 - ❖ Change electronic order routing and invoice routing
 - ❖ View buyers on the Child account
 - ❖ Create roles, users, and remittance info in the Settings In the Company Profile
 - ❖ Change or add certifications to the Company Profile
 - ❖ Add documents to the Additional Documents in the Company Profile
 - ❖ The administrator of the Child account **CAN NOT** take the following actions:
 - ❖ Change Basic, Business, and Marketing information and Contacts in the Company Profile because they are greyed out

- ❖ The SAP Business Network offers invoice consolidation and synchronization for customers with several accounts
- ❖ When the parent account administrator creates a parent-child hierarchy, it does NOT automatically translate into a consolidated billing
- ❖ After the administrator creates a hierarchy, they need to submit a Customer Support ticket to consolidate the billing. In other words, the parent account administrator needs to make sure they have set up a parent-child hierarchy before filing a Support ticket
- ❖ The accounts continue to transact as they are today in a multi-org but the billing will be consolidated onto one invoice while they are separated by child account/s and their relationships
- ❖ The parent account determines the fee currency
- ❖ The transaction currency is defined by the child account preferences/location
- ❖ Fees will be invoiced only to the parent account with the payment cycle synchronized for the entire group
- ❖ The parent account will receive one single invoice every three months for all customer relationships and for all linked accounts
- ❖ This consolidation is related only to invoices issued by SAP Business Network to the supplier, the business operations of each account are still independent
- ❖ A Multi-Org is **NOT**: -
 - ❖ A way to merge accounts
 - ❖ A way to get a discount on Transaction Fees

Setting Up an Account Hierarchy

Only the System Administrator and sub-users with the applicable permissions can access the Account Hierarchy process.

When linking accounts it must be a System Administration Account you cannot link sub-user account to an account Hierarchy, refer to Link Account process to access sub-accounts – Refer to [Linking User IDs](#)

Sign in to the SAP Business Network:

1. Click on the **initials** at the top of the page
2. Select **Settings**
3. Select **Account Hierarchy**

Note: You may get a system message identifying that there are other accounts that match your company profile, Refer to [Reviewing Existing Account](#)

4. Click on **Link Accounts**
5. The Link Account Screen is displayed you have two options:
6. If you are **not** the System Administrator of the account you wish to add to the Account Hierarchy, click on **Request link with Other Accounts**
7. If you **are** the System Administrator for the account you wish to link to, enter the Username of the other account and the Password for the other account, then click on Link Accounts
8. Click on **Link Accounts**, respond to system message

The screenshot shows the SAP Business Network interface for an Enterprise Account. The user profile dropdown (1) is open, showing the user's name and email. The settings menu (2) is open, and the 'Account Hierarchy' option (3) is selected. The 'Account Settings' page (4) shows the 'Link Accounts' button. The 'Link Account' screen (5) is displayed, showing two options: 'Request link with other accounts' (6) and a login form for account administrators (7) with a 'Link Accounts' button (8).

Reviewing Existing Accounts

From the Account Hierarchy Account Settings screen, all of the accounts are associated with the business information entered during the registration process.

The Actions column provides access to a particular account or information about the account such as the account is expired.

Display the Account Setting Screen

1. Select **Account Hierarchy**
2. Click on **“Click here to view details”**

The screen displays a list of the accounts

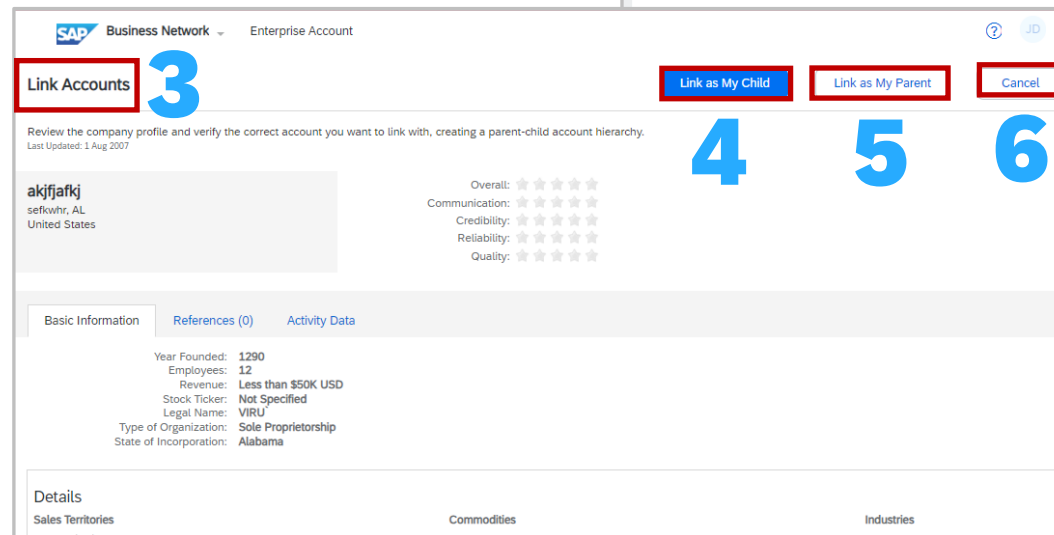

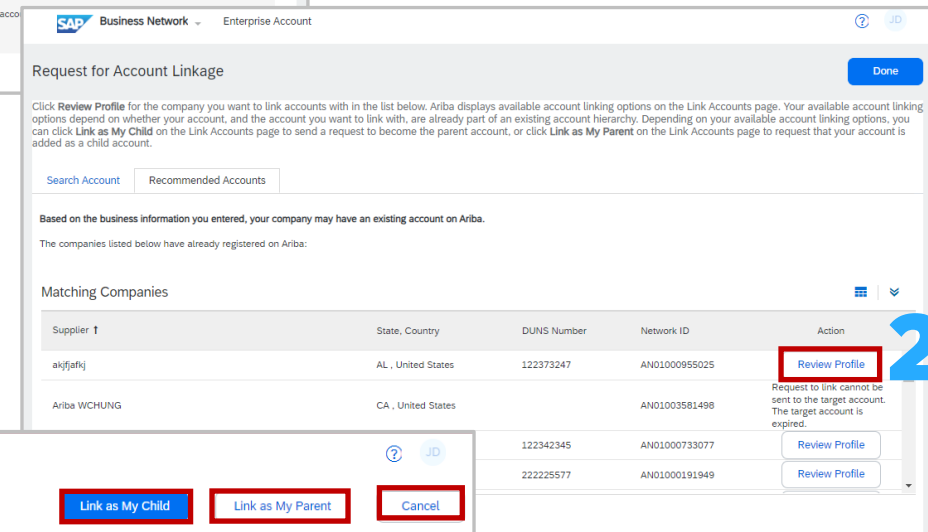

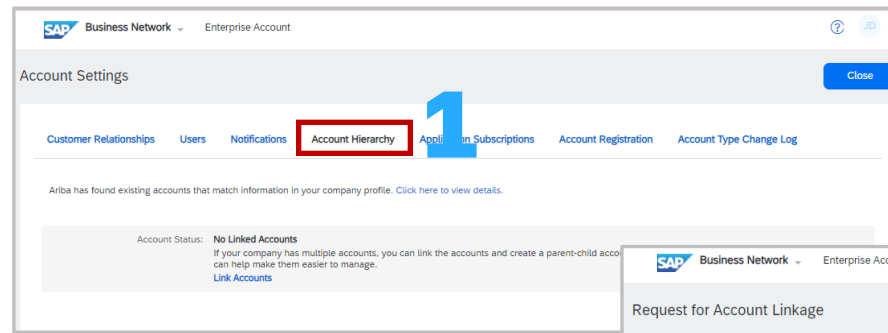

3. To review a profile, click on the **Review Profile** under the **Action** column

The Account information is displayed

4. If you wish to link this account as a **Child** click on **Link as My Child**
5. If you wish to link this account and make it a **Parent** Account, click on **Link as My Parent**
6. To exit click on **Cancel**

The screen displays the Request for Account Linkage

7. Continue to review as required

Subscription and Transaction Fees – Understanding and Calculating Fees

Calculating Fee Information

- ❖ Enterprise account subscription levels and fees are determined by the number of documents and volume of transactions your business runs through the SAP Business Network
- ❖ As your transaction level on SAP Business Network increases, the value your business receives will also rise, and your fees will adjust accordingly
- ❖ Use this calculator to estimate fees you may be assessed for your SAP Business Network (SBN) enterprise account activity
- ❖ For purchase orders, invoices, and non-PO invoices, enter an estimate of the number you process annually and their total combined value
- ❖ This calculator provides an estimate of subscription and transaction fees for SAP Business Network based on the information you provide and the current, generally applicable fees schedule for SAP Business Network enterprise accounts
- ❖ Your actual charges will be based on your actual usage of SAP Business Network services and the applicable fee schedule and may vary from the estimates provided in this calculator
- ❖ The value you receive from being an SAP Business Network supplier will always be greater than the fees you incur

To access the fees calculator:

1. Click <https://www.ariba.com/ariba-network/ariba-network-for-suppliers/accounts-and-pricing>, scroll down to **Supplier Fee Calculator** is shown
2. Select the **Country** you are in using the drop-down list
3. Enter the number of **Purchase Orders Received** in **Count** and the dollar value into the **Amount**
4. Enter the number of **Invoices Issued** in **Count** and the dollar value into the **Amount**
5. If Known - Enter the number **Non-Purchase Orders Invoices Issued** in **Count** and the dollar value into the **Amount**
6. If Known - Enter the number of **Service Entry Sheets** you would send to the Buyer annually
7. Click **Estimate Fees**
8. The Subscription Level and Estimated Annual fee are shown.

Note: These are estimates only and are based on the information entered

Supplier Fee Calculator 1

Use this calculator to estimate fees you may be assessed for your SAP Business Network enterprise account activity. For purchase orders, invoices, and non-PO invoices, enter an estimate of the number you process annually and their total combined value.

Subscription Level

Estimated Annual Fee 8

This calculator provides an estimate of subscription and transaction fees for SAP Business Network based on the information you provide and the current, generally applicable fees schedule for SAP Business Network enterprise accounts. The calculator works on the assumption that you only have one (1) chargeable customer relationship.

Your actual charges will be based on the gross amount of your actual usage of SAP Business Network and the applicable fee schedule. It may vary from the estimates provided in this calculator. The estimates provided in this calculator exclude any applicable taxes.

Raising a Dispute

Suppliers should raise a dispute if they believe that they are being incorrectly Charged Subscriptions or Transaction Fees.

Only Open Bills can be disputed

Note: The Acceptance of the Terms of Use clearly indicates that there may be fees associated with creating an Enterprise Account.

1. Sign In to the SAP Business Network, click on your initials
2. Select **Service Subscriptions**, this screen may take a few seconds to open
3. Click on **Open Bills**
4. Locate the **Bill** you wish to dispute, and click on the  under the **Action** field
5. Select the Applicable reason for the dispute from the **Cause** drop down list
6. Enter further information into the **Comment** field
7. Confirm the **Contact Data** is correct
8. If there is a document to upload, click on Choose File, select the file from your computer
9. Click on Upload
10. Click on **Send**
11. To view the Status of the **Dispute**, click on Dispute Cases

The screenshot shows the SAP Business Network interface. At the top, the user profile 'Jane Doe' is visible with a red box and number 1. Below the profile, the 'Service Subscriptions' option is highlighted with a red box and number 2. The 'Subscriptions' overview shows a table with columns for 'Subscriptions', 'Open Bills', 'Credits & Adjustments', 'Paid Bills', 'Dispute Cases', 'Address Data', and 'Contacts'. The 'Open Bills' button is highlighted with a red box and number 3. In the 'Action' column of the table, a comment icon is highlighted with a red box and number 4. The 'Enter Dispute Case' form is shown below, with the 'Cause' dropdown menu highlighted with a red box and number 5. The 'Comment' field is highlighted with a red box and number 6. The 'Contact Data' dropdown menu is highlighted with a red box and number 7. The 'Append File' section has a 'Choose File' button highlighted with a red box and number 8. The 'Upload' button is highlighted with a red box and number 9. The 'Send' button is highlighted with a red box and number 10. The 'Dispute Cases' button in the top navigation bar is highlighted with a red box and number 11.

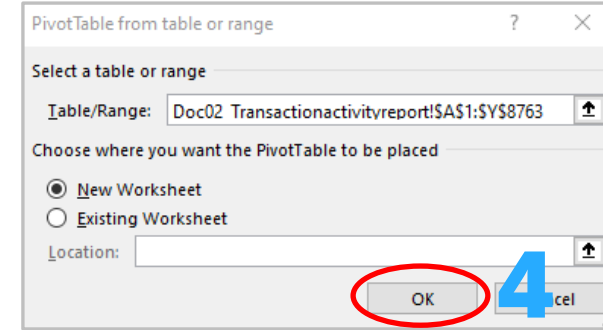

Creating an Excel Spreadsheet should be done using the Choreography line and not the Customer and Document information.

The information allows a view to determine which documents have been charged, which have been credited and others with no charge associated. This document was created to assist suppliers who may be unfamiliar with Pivot tables and provides a starting point for suppliers to identify what documents attracted fees or credits.

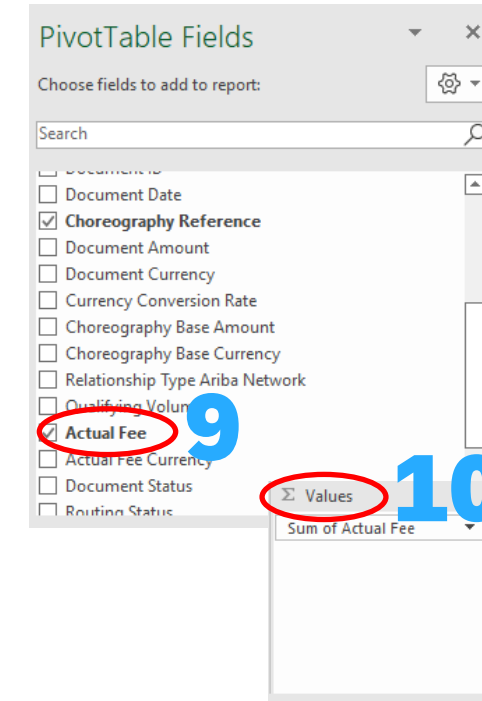

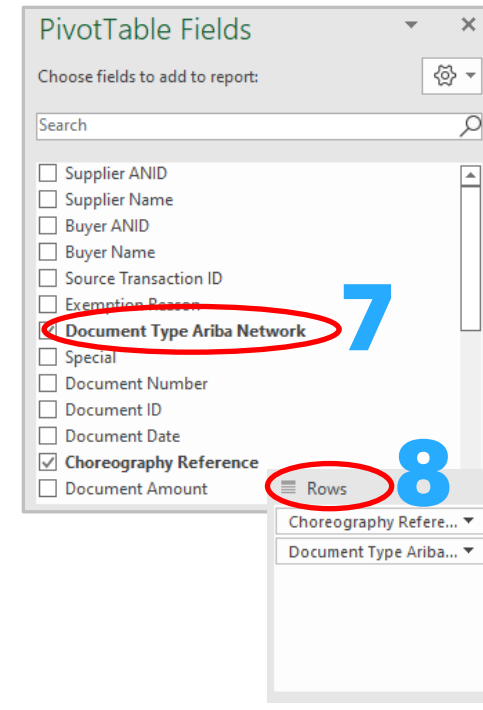

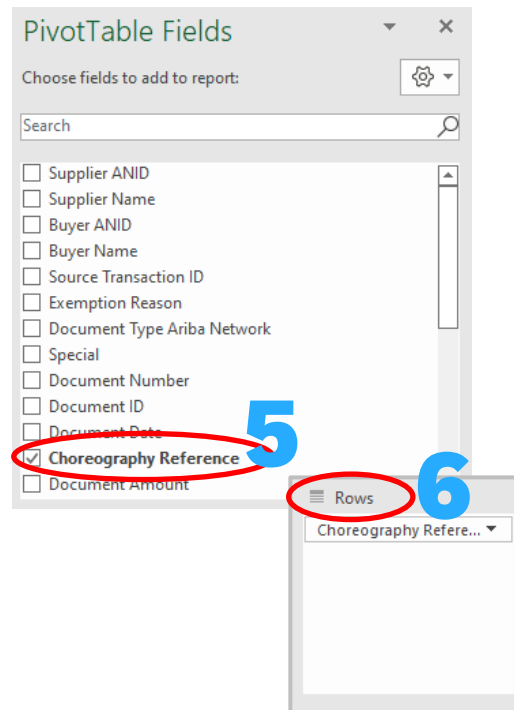

With the Transaction Activity Report Displayed:

1. Click on the **Insert** tab
2. Select **Pivot Table**
3. Select **From Table/Range**
4. The Pivot table from the table or range box is displayed, click on **OK**
5. The PivotTable Fields box is displayed, locate **“Choreography Reference”**
6. Right-click and drag to the **Rows** box on the bottom right of the screen
7. Next locate **“Document Type Ariba Network”**
8. Right click and drag to the **Rows** box on the bottom right of the screen
9. Next locate **“Actual Fee”**
10. Right click and drag to the **Values** Box on the Bottom right of the screen
11. The Results of the information are displayed, review the data

Logging a Support Request (SR)

- ❖ Create a case when there is an issue that cannot be rectified
- ❖ Standard Accounts can only access the Help Centre when they have a technical issue or need to change the contact details of the System Administrator
- ❖ Suppliers that use Supply Chain Collaboration processes such as scheduling, forecasting or quality (to name a few) should indicate that their issue is related to a Supply Chain Collaboration Account
- ❖ All fields with Asterisks must be completed and you will not be able to progress to the next step while there is a field not completed
- ❖ All Cases submitted will be displayed under the Contact Us tab in the SAP Help Center
- ❖ Standard Account users only have access via email
- ❖ Suppliers do not need to Sign in to the SAP Business Network to access the SAP Help Center
- ❖ Ensure that the correct information is selected from drop-down list

- ❖ When entering the phone number select the Country code first

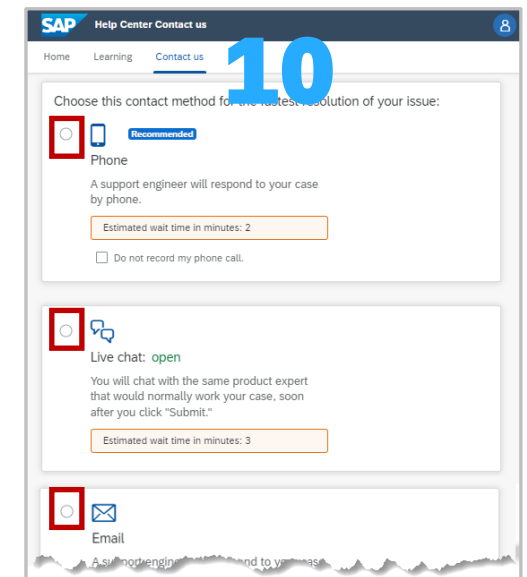

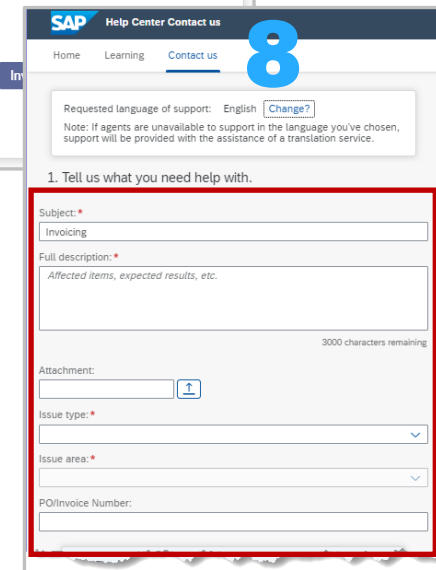

Create a case when you are unable to identify how to rectify an issue or query.

Sign into you SAP Business Network

1. Click on the 
2. The Help Topics pane is shown, select **Support**
3. The Help Centre Home page is displayed, click on **Contact Us**
4. Enter what information you require
5. Click on 
6. Identify if any of the AI information shown provides an answer, however, to create a case click on **Something Else**
7. Click on **Create a Case** (bottom right of the screen)
8. Complete all fields with Asterisks and select the correct information from the drop-down lists
9. then click on **One Last Step** (bottom right of the screen)
10. Select the radio button of the preferred contact option, then click on **Submit**

Create a Case

Create a Case without Signing in

Display the SAP Business Network Supplier Sign-In screen

1. Click on the **Question Mark**
2. Select **Support**
3. Click on the Link
4. Respond to the **Legal Disclaimer for Links**, clicking on **Agreed and Proceed** implies accept acceptance of the Disclaimer. Clicking on **Disagree** will close options to continue
5. Click on **Contact** to open the Help Centre Home page

All Options will be displayed, select the option that meets your needs, and use **Something Else** to generate other options

Refer to [Create a Case](#) to complete the form to gain assistance

Note that anything with an Asterisks must be completed.

The image shows a sequence of four screenshots from the SAP Business Network interface:

- Top Screenshot:** The 'Supplier sign-in' page. A red box with the number '1' highlights a question mark icon in the top right corner.
- Second Screenshot:** A 'Help Topics' sidebar on the right. A red box with the number '2' highlights the 'Support' option, which has a sub-link 'Support URL for supplier prelogin page'.
- Third Screenshot:** A 'Legal Disclaimer for Links' page. A red box with the number '3' highlights a URL link: https://support.ariba.com/Help_Center/Login?persona=seller&product_family=transactions&domainobject=account&activity=login&misc=register&app=supplier&page=SupplierLogin&dc=%24%23%7Bdc%7D.
- Bottom Screenshot:** The 'Help Center Contact us' page. It shows a 'Log in to your account' section and a '2. If you're unable to log in, tell us what you need help with' section with several icons for actions like 'Register on SAP Business Network', 'Reset my password', 'Forgot username', 'Unsubscribe', 'Privacy request', and 'Update integration certificate'.

Permissions, Seller Dashboard, General Terms and Glossary

Account Permissions

- The below shows role permissions, their line of Business usage and a brief description (where available)

Ship Notice	A ship notice also known as an Advanced Ship Notice provides the Buyer with information about the goods arriving to their premises	Drafts	Documents can be saved as a draft for completion at a later point

Order Status Descriptions

Name of Item	Description/Use	Name of Item	Description/Use
New	Initial state. You have not updated the order status.	Partially Confirmed	The order is in progress and some of the ordered quantities have been confirmed
Changed	Your customer canceled or replaced the order by a sending a subsequent (changed) order.	Partially Shipped	If you partially confirmed an order and then you partially ship either the previously confirmed order line or a different order line, the purchase order status is set to Partially Shipped . You can still continue to confirm order line items regardless of the shipping status until you have confirmed all order lines.
Confirmed	You agreed to ship all line items and/or agree to the pricing, delivery of services and requirements listed in the Purchase Order	Partially Serviced	For service orders, you can continue to create service sheets for unplanned service lines up to their hidden maximum amounts (which might be larger than their subtotals) or planned service lines up to their subtotals. The service order status is set to Partially Serviced until all of the service lines are serviced
Confirmed with New Date	The order confirmation has a different Start Date or End Date than the order, but no other change	Partially Invoiced	Some of the ordered quantities have been invoiced
Confirmed with Changes	The order confirmation has a different Expected Value than the order, and also has a different Start Date, End Date , or both	Partially Rejected	Some or the ordered quantities have been rejected
Shipped	Final state. You shipped the entire order	Serviced	The order is fully serviced. You cannot create any more service sheets for any more service lines in the order
Invoiced	The order is fully invoiced. The Amount Invoiced column shows how much money you have invoiced or charged against the purchase order. For older purchase orders, displays Yes to indicating that you have submitted invoices	Received	Statuses for receipts that are sent by the buyer from their ERP system. The purchase order status is updated based on this information
Obsoleted	Purchase order that has been replaced by a subsequent (changed) order	Partially Received	Only some of the goods received have been receipted into the Buyers ordering system or ERP.
Cancelled	A cancelled Purchase Order means it can no longer be used, where a Buyer cancels a Purchase Order and then re-instates it the balance tracking will not carry forward	Returned	Specific to Supply Chain Customers using returns
Failed	experienced a problem routing the order to your account. You can resend failed orders.		

Routing Status

Name of Item	Description/Use
Accepted	SAP Business Network accepted the purchase order from your customer or from the catalog tester
Order Queued	SAP Business Network Queued the purchase order from cXML processing
Sent	SAP Business Network successfully converted the purchase order from cXML to EDI and has forwarded it to your VAN in an interchange
Acknowledged	SAP Business Network received a positive functional acknowledgment from you
Failed	SAP Business Network could not route the purchase order and it lists the reason for the failure
