

SAP Ariba 

Feature at a glance

Splitting an award on the Compare Supplier Bids page

Dan Pouliot, SAP Ariba
Target GA April 2018

Feature at a Glance

Introducing: **Splitting an award on the Compare Supplier Bids page**

Customer challenge

A buyer could not easily sort by total nor line and could not perform a split award when in a side by side comparison.

Meet that challenge with **SAP Ariba**

Side by Side award improvements include:

1. Highlight the lowest price total and per item.
2. Sort by any money field (total cost, price, taxes, etc)
3. Allow the buyer to conduct a split award within the side by side screen.

Experience key benefits

Buyers can quickly compare bids across suppliers including sort by different money fields and perform a split award in the same view saving time and errors when awarding.

Solution area

Operational Procurement / Network Procurement / Quote Automation

Enablement information

On by default for customers already enabled to use Quote Automation.
No action required.

The lowest bids are sorted left to right by total bid price by default. You can alternatively sort for a specific line item by choosing the line from the sort for: option

You can then for the chosen line item, sort by any of the applicable money fields.
