

SAP Ariba 

# Feature at a Glance

## Download event details with list separator option

Roberto Valdovinos, SAP Ariba  
Target GA: June 2018

CONFIDENTIAL

 **Run Simple**

## Feature at a Glance

### Introducing: **Download event details with list separator option**

Ease of implementation

 Low touch / simple

Geographic relevance

 Global

#### Customer challenge

The event detail file is only downloadable with a comma as list separator.

#### Meet that challenge with **SAP Ariba**

The event detail download file will now be available as both comma and semicolon separated files.

#### Experience key benefits

Users with locale settings where the list separator is a semicolon will not need to do additional operations to open the Event Details file directly in Microsoft Excel.

#### Solution area

Operational Procurement / Ariba Network / Quote Automation / Buyer

#### Implementation information

This feature is “on” by default for customers of **Quote Automation**. No action is required to utilize this feature.

#### Prerequisites and Limitations

N/A
