Introducing: Increased maximum size of approver lookup CSV files to 30 MB

Customer challenge

Buyer customers who had approver lookup CSV files of size more than 10 MB could not upload the file.

Meet that challenge with SAP Ariba

You can now upload approver lookup CSV files up to a maximum size of 30 MB.
[Approver lookup files specify which approver to add to an approval flow based on data in the approvable document. For example, you can have an approver lookup table that lists commodity codes and specifies which approver to add for each code.]

Experience key benefits

The new 30 MB file size limit allows customers to load larger approver csv lookup files to drive approval workflows.
