Introducing: Report exports without the need for ActiveX Controls

Customer challenge

ActiveX was a legacy technology; while it delivers the functionality, it comes with its own IT and business challenges

Meet that challenge with

SAP Ariba

SAP Ariba Contracts used a legacy technology - ActiveX control to export reports and contract authoring. ActiveX dependency for contract authoring was removed in Q2, 2017 release. With this release, ActiveX dependency for reports exports will be removed as well.

Experience key benefits

Eliminates the need for legacy ActiveX technology while simplifying the user experience

Solution area

SAP Ariba Analysis

Implementation information

Will be enabled on request by Customers to Support CUP-17662 and CUP-21666

Prerequisites and Limitations

None.

Feature at a Glance

Introducing Report exports without the need for ActiveX Controls

Detailed feature information

1. ActiveX was a legacy technology used in Ariba for Contract Authoring and Report Exports in Excel
2. With this release we are removing the dependency for ActiveX across Ariba Products

Thank you.
