## Introducing: Pricing Condition Rules for Analytical Reports

Event Summary report with pricing condition data for event count

The screenshot displays the SAP Reporting tool interface for 'Report 17-12'. The 'Applied Filters' section is highlighted with an orange box and labeled 'Filters applied on pricing conditions'. It shows two filters: 'Event Publish Date' (Spanning: most recent 4 Month(s)) and 'Allow Pricing Conditions' (Yes). The data table below is labeled 'Fields related to pricing conditions' and has columns for 'Pricing condition validity period type', 'Pricing condition duration', 'Event Type', and 'Event Count'. The table shows a total of 22 events, broken down by validity period type (Month, Supplier Defined, Annually) and event type (RFP).

Pricing condition validity period type	Pricing condition duration	Event Type	Event Count
Total			22
Month	2	RFP	10
	3	RFP	6
	0	RFP	1
Supplier Defined	3	RFP	2
	0	RFP	1
Annually	3	RFP	2
