# Feature at a Glance

## Introducing: New Spot Buy network seller

Ease of implementation

Low touch / simple

Geographic relevance

United States

### Customer challenge

It is desirable for the buyers to be able to purchase through Walmart.com, a global retailer, through the Spot Buy channel, thus channeling their spend on non-sourced goods to a trusted and compliant source.

### Meet that challenge with **SAP Ariba**

This feature allows buyers to purchase via a new supplier (Walmart.com) through the Ariba Network seller channel in Spot Buy

### Experience key benefits

Additional supplier in the form of a global retailer (Walmart) available to purchase non-sourced goods through the Spot Buy channel.

### Solution area

SAP Ariba Buying with Spot Buy capability  
SAP Ariba Buying and Invoicing with Spot Buy capability

### Implementation information

This feature is automatically on for all customers with the applicable solutions but requires customer configuration.

### Prerequisites and Limitations

- The Ariba Network seller channel must be enabled
- Valid account set up with Walmart.com
- The buyer's email address that is associated with the Walmart account must be added under Buyer Options
- Available in the United States only
