Introducing: **Send supplier bidding currency in external approval API task and event details**

Customer challenge

When event has multiple currencies enabled and Suppliers bid in multiple currencies, the External Approval API is not able to handle them.

Meet that challenge with

SAP Ariba

This feature enhances the External Approval API to send bids in event currency and supplier's bid currency.

Experience key benefits

Enhancements to the External Approval API for Sourcing and Supplier Management to support multiple bid currencies.

Solution area

SAP Ariba Sourcing
SAP Ariba Sourcing Suite

Implementation information

This feature is **automatically on** for all customers with the applicable solutions and is ready for immediate use.

Prerequisites and Restrictions

Prerequisites: To use the External Approval API for Sourcing and Supplier Management, you must be registered with the SAP Ariba developer portal and have access to the API.

Restrictions: None

Introducing: **Send supplier bidding currency in external approval API task and event details**

```
{
  "supplierBids": [
    {
      "isAward": "true",
      "bidRank": "0",
      "item": {
        "itemId": "7777",
        "title": "My Item",
        "itemType": "Line Item",
        "parentItem": "7770",
        "terms": [
          {
            "title": "Extended Price",
            "fieldId": "EXTENDEDPRICE",
            "valueTypeName": "Money",
            "supplierValue": {
              "amount": 900,
              "currency": "EUR"
            },
            "value": {
              "amount": 1001.11,
              "currency": "USD"
            }
          }
        ]
      }
    }
  ]
}
```

The External Approval API for Sourcing and Supplier Management now includes a supplierValue object.

Each supplierValue object contains bid information in the currency selected by the participant.
