SAP Ariba /\\\\

Feature at a Glance
Support for additional bill of material (BOM) types

Content Owner Badrinath Waiker, SAP Ariba
Target GA: February, 2020

THE BEST RUN **SAP**

Feature at a Glance
Introducing: **Support for additional bill of material (BOM) types**

Customer challenge

- Product Sourcing is currently limited to the types of BOM it supports, i.e. standard material BOM
- Product Sourcing customers cannot extend their usage of the solution to group BOM, variant BOM or a multi BOM

Meet that challenge with
SAP Ariba

- SAP Ariba addresses this challenge by rolling out a new capability that allows Product Sourcing customers to extend their use case to group BOM, multi-BOM, normal BOM & variant BoM
- This is achieved by defining BOM number + Alternate BOM number + Usage as uniqueness in identifying a BOM

Experience key benefits

- Enhanced product usability
- Better support for direct use cases

Solution area

SAP Ariba Strategic Sourcing Suite

Implementation information

To have this feature enabled, please have your Designated Support Contact (DSC) submit a **Service Request (SR)**.

Prerequisites and Limitations

- The site needs to be configured for product sourcing, BOM use case
- The site must be integrated with the latest version of SAP Ariba Cloud Integration Gateway to use the BOM 2 enhancements.
- The feature cannot be used with older versions of SAP Ariba Cloud Integration Gateway
