SS-12910: Event Management API

Michael Waugh, Srikanth Raghavendra, SAP Ariba
Target GA: May, 2020

THE BEST RUN **SAP**

Some complexity
Global

Feature at a Glance
Introducing: **Event Management API**

Customer challenge

An API does not currently exist to publish sourcing events.

Meet that challenge with
SAP Ariba

The Event Status Management API enables clients to publish sourcing events.

Experience key benefits

This feature introduces an API that enables API clients to publish sourcing events.

- Publish sourcing events

- Republish previously published events

- Specify how previous participant responses are handled (kept or discarded) and if participants receive notifications for the modifications.

Solution area

SAP Ariba Strategic Sourcing Suite
SAP Ariba Sourcing
SAP Ariba APIs
SAP Ariba developer portal

Implementation information

This feature is ready for immediate use for all customers with the applicable solutions but requires customer enablement steps.

Prerequisites and Restrictions

See Documentation for Prerequisites and Restrictions
