

SLP New Supplier 360° Profile

OVERVIEW

The New Supplier 360° Profile unlocks a bevy of new benefits for SLP users including a more consistent look and feel within Supplier Management and across the SAP Ariba platform thus, improving user navigation.

There are some supplier management features and functions that are only supported in the new supplier 360° profile, which is why it is very important to take action and make the transition to the New UI as soon as possible.

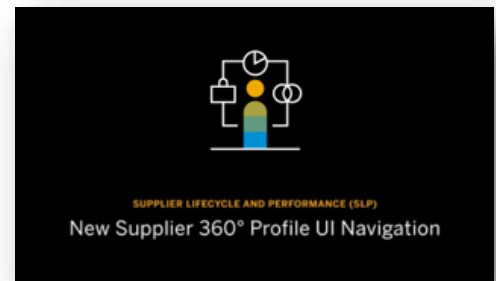

FUNCTIONALITY AND ENHANCEMENTS

All of the functionality that was available in the classic supplier 360° profile is still available in the new supplier 360° profile. New features are:

- Improved navigation, better use of space, and more intuitive organization of supplier profile information and supplier management activities.
- Improved task management.
- Enhancements to the workflow for supplier qualification expirations and requalification's (SAP Ariba Supplier Lifecycle and Performance only).
- Compatibility with Microsoft Internet Explorer.

IMPORTANT NOTE

Due to differences between the classic and new supplier 360° profiles and in effort to reduce impact to our end users, SAP Ariba recommends enabling the new supplier 360° profile in your test environment first, so you can explore the enhancements it introduces before enabling it in production.

Your Designated Support Contact (DSC) can log a Service Request (SR) using the link below to request enablement of the supplier 360° profile in your test environment. Please note 'EAC: SM-14322' should be in the short description.
