

Dear valued supplier,

We are pleased to announce a new initiative to streamline our procurement and accounts payable processes. Corteva Agriscience is partnering with SAP Ariba® to fulfill our vision of moving away from paper and the manual transmission of documents. **Therefore, your purchase orders and invoices will soon be transmitted using this platform.**

You can either create a new Ariba account or use a pre-existing Ariba account to establish the trading relationship with Corteva.

How will the Ariba Network benefit you?

The network provides many benefits such as real-time purchase order delivery, use of online catalogs, invoice automation and potential new business opportunities.

What kind of account should I have?

You have been selected as a candidate for an Enterprise Account due to the higher volume of transactions with your organization. To learn more, including the fee structure, please visit [SAP Ariba Subscriptions and Pricing](#).

What if I already have an account?

Corteva-specific information will be provided at the supplier information session, detailed below. Following that event, you will receive an invitation for a trading relationship with Corteva.

Please pay close attention to the following information to ensure you complete all the required steps for enablement on the Ariba Network. If you are not the appropriate point of contact, please forward this message and update us at supplier_enablement@corteva.com.

When will this take effect?

We are targeting August 2021 as the go-live date.

What is the next step?

We highly encourage you to join our informative web-based supplier information session. During the event, you will have the opportunity to participate in a Q&A with experts from SAP Ariba and Corteva and learn more.
