 - 41 Ideas in “Delivered” Status in this cycle
 - 28 Ideas in “Already Offered” Status = Use-case is addressed in the existing product
- (See slides 11-33 for more details)**

SAP Ariba Continuous Influence- 2H 2024 Detailed Results

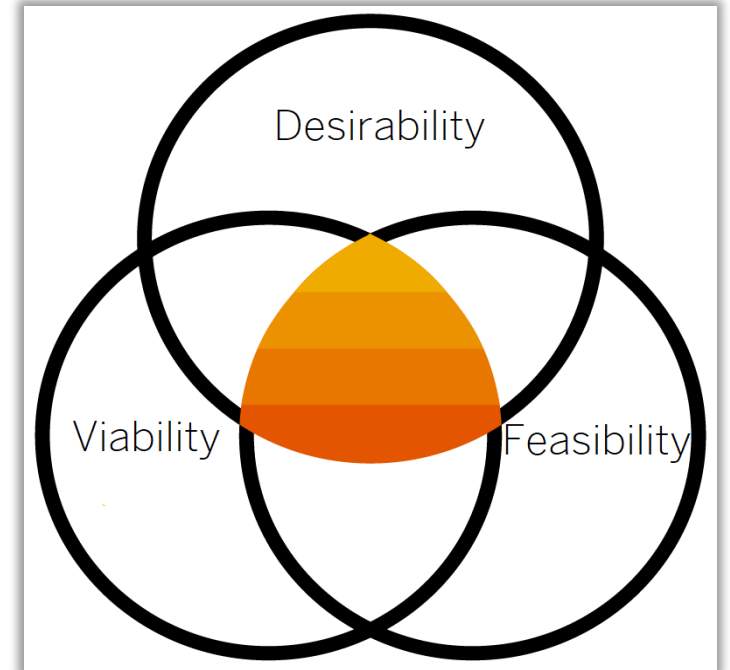

2H 2024 Results

Review of Improvement Requests Accepted to Roadmap

How SAP Ariba's Customer Influence Works....

- Improvement requests are accepted based on community **desirability**, **viability** of use case, road map compliance, and **feasibility** (size, complexity)
- Votes are utilized to help prioritize review from Product Managers, but not the only reason for acceptance
- We strive to read and acknowledge every improvement request as we know it's important to you, our valued Customers. Ideas that "meet vote threshold" simply serve as a guide to prioritize review, but not the only reason for review
- In some cases, submitted improvement requests that were previously accepted to SAP Ariba Roadmap are "Accepted" in the session or "Already Offered" if previously delivered
- Improvement requests provide general direction to Product Managers and Engineers, the final feature implemented may be designed differently than the exact description of the idea
- Blog updates in the session are a summary only, for more information about the ideas, please reference the ID# of the idea in Customer Influence

Where you can go to look at Accepted and Delivered Ideas per session

The screenshot displays the SAP Ariba Continuous Influence Session interface. On the left, a sidebar shows an overview with 745 improvement requests submitted, 16 delivered improvements, and 12 blogs. Below this is a 'Contact us' section with three contacts: Vinay Kumar Banga, Sibyl Bevington, and Roger Nyberg. A 'Tags' section lists various topics like SAP Continuous Influence, SAP Ariba, Supply Chain, and Sourcing and Procurement.

The main content area features a 'Continuous Influence Session' header for 'SAP Ariba Procurement'. Below the header, a message from SAP Ariba Customers welcomes users to the session and lists categories for improvement requests: SAP Ariba Buying (Procurement for P2P and P2O), Contract Compliance, and SAP Ariba Invoice Management (including Services & Contract Invoicing). It also states that improvement requests are prioritized by community voting and that ideas with little to no votes will be automatically closed.

On the right, a list of improvement requests is shown, sorted by 'Most Recent'. The list includes details such as the request ID, category, phase, status, author, and coach. The status 'Accepted' is highlighted for several requests.

Two callout boxes provide instructions:

- Step 1:** Click on Improvement requests submitted in the campaign
- Step 2:** Select "Accepted" or "Delivered" status option to view all the Ideas

Where you can go to look at access these results

The screenshot displays the SAP Ariba Continuous Influence Session interface. On the left, a sidebar shows an 'Overview' section with a table of metrics: Improvement Requests submitted (745), Delivered Improvements (16), and Blogs (12). Below this is a 'Contact us' section with user profiles for Vinay Kumar Bangalore Krishna, Sibyl Bevington, and Roger Nyberg. A 'Tags' section lists various topics like SAP Continuous Influence, Supply Chain, and Sourcing and Procurement. The main content area is titled 'Continuous Influence Session' and 'SAP Ariba Procurement'. It features a 'Blogs' tab, a 'Filter By' dropdown, and a 'Reset Filters' button. A date indicator shows 'Today: May 29, 2018'. The main text area contains a welcome message and a list of topics. Two callout boxes provide instructions: 'Step 1: Click on Blogs' points to the 'Blogs' tab, and 'Step 2: You can view the most recent published results' points to the 'Blogs' section in the sidebar. On the right, a detailed view of a blog post is shown, titled 'Welcome to SAP Ariba's Next Generation ER Program and Q2 Voting'. The post includes a welcome message, a date of April 3, 2018, and a link to 'SAP Ariba Customer Influence: Q4 Voting Results'. Below this, another blog post titled 'SAP Ariba Customer Influence: Q4 Voting Results' is displayed, dated March 7, 2018, and includes a link to 'Last Chance to Register for Q4 Voting Results Webinar'.

Step 1:
Click on Blogs

You can view the most recent published results

Welcome to SAP Ariba's Next Generation ER Program and Q2 Voting

We are delighted to welcome our users to SAP Ariba's Next Generation ER Program and Q2 Voting cycle. Please take time to submit your ideas (improvement requests), review and vote on ideas from your Customer Community. The Q2 Voting cycle is now open and will continue through the end of June, 2018. Votes will be tallied in July, 2018 and a webinar will take place to share

Planned (Long-Term)	321282	SAP Integration Suite, managed gateway	Improve CIG Transaction Tracker handling

What's Ahead and Reminders: SAP Ariba Procurement and SAP Business Network Continuous Influence Program

- **Thank you and welcome to New & Improved Reviews:** In line with our 1H and 2H Program Review, we plan to include review cycles in partnership with SAP Product Success Team Experts and Product Manager Coaches to review requests that have met specific criteria and provide more prompt responses. **We hear you!**
- **Archival of influence requests:** As part of the review cycle, we will conduct a review with Product Experts and Coaches for IRs that have not met voting threshold within the last several voting cycles and are not part of the roadmap. We recently completed this exercise and any status changes or updates to IRs notified the author of the IR and those following the IR request. It included a reason for the update of status to “Not Planned”. In addition, the request will show the updated status in the system viewable to the community.
- **SAP Continuous Influence Solution and 2025 Updates:** We continue to collaborate across SAP globally to review and improve our ideation and voting experience for our SAP community in 2025 and beyond.

Thank you.
