 - 69 Ideas in Delivered Status this cycle (Detailed list in slides 33- 41)
 - 195 Ideas Already Offered Status = Use- case is addressed currently in the solution (Detailed list in slides 41- 65)

Accepted & Planned (Long-term)

Delivered inclu. Already Offered

Review of Improvement Requests Accepted to Roadmap

How SAP Ariba's Customer Influence Works....

- Improvement requests are accepted based on community **desirability**, **viability** of use case, road map compliance, and **feasibility** (size, complexity)
- Votes are utilized to help prioritize review from Product Managers, but not the only reason for acceptance
- We strive to read and acknowledge every improvement request as we know it's important to you, our valued Customers. Ideas that "meet vote threshold" simply serve as a guide to prioritize review, but not the only reason for review.
- In some cases, submitted improvement requests that were previously accepted to SAP Ariba Roadmap are "Accepted" in the session or "Already Offered" if previously delivered
- Improvement requests provide general direction to Product Managers and Engineers, the final feature implemented may be designed differently than the exact description of the idea
- Blog updates in the session are a summary only, for more information about the ideas, please reference the ID# of the idea in Customer Influence

Where you can go to look at Accepted Ideas- Option 1

The screenshot displays the SAP Ariba Procurement Continuous Influence Session interface. On the left, there is an 'Overview' sidebar with metrics: Improvement Requests submitted (745), Delivered Improvements (16), and Blogs (12). Below this is a 'Contact us' section with user profiles for Vinay Kumar Banga, Sibyl Bevington, and Roger Nyberg. A 'Tags' section lists various categories like 'SAP Continuous Influence', 'SAP Ariba', 'Supply Chain', etc.

The main content area features a blue header for 'Continuous Influence Session' and 'SAP Ariba Procurement'. Below the header, there is an 'Overall Timeline' section with a date 'Today: May 29, 2018'. The main text area contains a welcome message and a list of categories for improvement requests: SAP Ariba Buying (Procurement for P2P and P2O), Contract Compliance and, and SAP Ariba Invoice Management (including Services & Contract Invoicing). It also states that the session does not include requests for On Premise, that requests are prioritized by community voting, and that ideas with 5 or more votes will be reviewed by Product Managers.

On the right, there is a 'Blogs' section and a 'SAP Ariba Procurement - All Improvement Requests' list. This list shows several improvement requests with details like Request ID, Category, Phase, Status, Author, and Coach. A callout box points to the 'Accepted' status filter on the left side of the list.

Two callout boxes provide instructions: 'Step 1: Click on Improvement requests submitted in the campaign' points to the 'Improvement Requests submitted' metric in the Overview sidebar. 'Step 2: Select "Accepted" status option to view all the Accepted Ideas' points to the 'Accepted' status filter in the Improvement Requests list.

Where you can go to look at Accepted Ideas- Option 2

The screenshot displays the SAP Ariba Continuous Influence Session interface. On the left, a navigation sidebar includes 'Overview' (Improvement Requests submitted: 745, Delivered Improvements: 16, Blogs: 12), 'Contact us' (listing Vinay Kumar Bangalore Krishna, Sibyl Bevington, and Roger Nyberg), and 'Tags' (SAP Continuous Influence, SAP Ariba, Supply Chain, Supplier Relationship Management, IMPROVE my product, Sourcing and Procurement). The main content area is titled 'Continuous Influence Session' and 'SAP Ariba Procurement', showing a status of 'Continuous' with 745 votes and 3287 views. A 'Blogs' filter is active, showing a 'No data' message. A callout box labeled 'Step 1: Click on Blogs' points to the 'Blogs' link in the sidebar. Below the main content, an 'Overall Timeline' shows a post from 'Today: May 29, 2018' addressed to SAP Ariba Customers, welcoming them to the session and mentioning categories like SAP Ariba B, Contract Co, and SAP Ariba I. A second callout box labeled 'Step 2: You can view the results published after each Voting Closing Webinar' points to the main content area. On the right, a 'Blogs' list shows three entries: 'Welcome to SAP Ariba's Next Generation ER Program and Q2 Voting' (Apr 3, 2018), 'SAP Ariba Customer Influence: Q4 Voting Results' (Mar 7, 2018), and 'Last Chance to Register for Q4 Voting Results Webinar' (Feb 27, 2018). Each blog entry includes the author's name, date, time, and influence opportunity.

Ideas Accepted & Planned (Long-term)- 2H 2023

Ideas Accepted to Roadmap 2H 2023

1/7

Idea #	Product [Category]	Title	Status

What's Ahead and Reminders: SAP Ariba Procurement and SAP Business Network Continuous Influence Program

- **Thank you and welcome 2024:** We have commenced the H1 2024 Continuous Influence cycle in partnership with SAP Product Success Team Experts and Product Manager Coaches. **Thank you for your excellent participation and submission of ideas/improvements in 2023!**
- **Refresh and archive of influence requests:** As a reminder, we will conduct a review with Product Experts and Coaches for IRs that have not met voting threshold within the last several voting cycles. Any status changes or updates to IRs will be notified to the author of the IR and those following the IR request. In addition, the request will show the updated status in the system viewable to the community.
- **SAP Continuous Influence Solution and 2024 Updates:** Throughout the year we work with our SAP Ariba Procurement and Business Network Product Teams to make any necessary updates to the CI system as our products evolve and product voting cycles change. We are also continuing to collaborate across SAP globally to continually improve our ideation and voting experience for our SAP community in 2024 and beyond.

Thank you.
