

Dear valued supplier,

We are pleased to announce a new initiative to streamline our procurement and accounts payable processes. Corteva Agriscience is partnering with SAP Ariba® to fulfill our vision of moving away from paper and manually transmitted documents.

Our Crop Protection business platform will go-live on the Ariba Network on August 1, 2021. Our Seed business platform will go-live on the Ariba Network in July 2022.

You have been identified as a supplier that exclusively supports Corteva Agriscience's Crop Protection business platform. This means that **your purchase orders (POs) and invoices will be transmitted using this platform starting on August 1, 2021.**

**What will change for me?**

You will receive your Corteva POs through an interactive email after go-live and will be able to log into your account to process them.

**What do I need to do?**

You need to create a new Ariba account or use a pre-existing Ariba account to transact with Corteva.

**What kind of account should I have?**

We have identified you for a no-cost Standard account. To learn more, please visit the [Standard Account Services webpage](#).

**When will this take effect?**

Go-live for Corteva's Crop Protection business platform is targeted for August 1, 2021.

**What is the next step?**

We highly encourage you to join a virtual supplier information session. During these sessions, you will have the opportunity to engage with experts from SAP Ariba and Corteva. We encourage you to attend, even if you already have an Ariba account.

**Supplier Information Session (Standard Account)**

If you are not the appropriate point of contact, please forward this message. If you believe you should also be considered a supplier who provides goods and/or services for the Seed business platform, please update us at [supplier\\_enablement@corteva.com](mailto:supplier_enablement@corteva.com).

We are confident that this change will strengthen our business relationship and allow for more robust collaboration and purchasing capabilities. You can visit the [Ariba information portal](#) for more information. If you have technical questions for Ariba, please contact them [here](#). If you have supplier questions for Corteva, please contact us at [supplier\\_enablement@corteva.com](mailto:supplier_enablement@corteva.com).
