

What is Ariba Supplier Management (Ariba SLP)?

Ariba SLP is a solution to engage with our suppliers to improve and reduce time of collaboration.

The benefits of Ariba SLP for you:

- You can update your vendor record information at any time
- You can provide more insights about your company such as your ISO certifications, professional licenses, sustainability credentials, supplier diversity information and much more.
- Corteva will know even more about your company, in real-time, as we address our sourcing needs.

What is the Ariba Supplier Management process?

1. **Supplier Request** – When Corteva identifies a need to do business with a new supplier, the Corteva team will create a Supplier Request.
2. **Supplier Registration** – After Corteva has approved the Supplier Request, we will send you a Registration Questionnaire. This questionnaire is used to collect essential, upfront information for suppliers onboarding with Corteva. After your response is received, it will be reviewed. Once approved, you will be able to participate in Corteva sourcing events.
3. **Supplier Qualification** – If Suppliers are being considered for a contract, the Corteva team will send you a Qualification Questionnaire. The Qualification Questionnaire is used to collect extensive commercial and/or technical information about your company. Once reviewed and approved, you will be qualified and can be awarded with Corteva procurement contracts.
4. **Modular Questionnaires** – Modular Questionnaires are used to collect information about a specific subject, for example: Certification information, Supplier Code of Conduct annual affirmation, Customs Trade Partnership Against Terrorism (CTPAT), etc. Modular questionnaires are also sent via email, and responses once submitted, will be reviewed, and approved.

Do

- ✓ Check email regularly
- ✓ Submit responses in time
- ✓ Browse the links from emails
- ✓ Reach out to support team @ supplier.management.slp@corteva.com when in doubt

Don't

- ✗ Delay submitting responses
- ✗ Submit incorrect responses
- ✗ Wait on things to get better when in doubt
