

Dear valued supplier,

We are pleased to announce a new initiative to improve supplier onboarding and engagement processes. Corteva Agriscience is partnering with SAP Ariba® to fulfill our vision of building an end-to-end digital procure-to-pay process with Suppliers. **You will be able to maintain your own data via Ariba Network and to comply with Corteva business processes.** We value our partnership with your company, and we want to continually improve the collaboration capabilities of this relationship.

To communicate with Corteva, you can either create a new Ariba Network account or use a pre-existing Ariba Network account. If you are not the appropriate point of contact, please forward this message and update us at supplier.management.slp@corteva.com.

How will Ariba Supplier Management (Ariba SLP) benefit you?

Ariba Supplier Management reduces onboarding and qualification cycle time, via exchange of questionnaires through the Ariba Network's Proposal and Questionnaire section. It allows you to digitally comply with annual Corteva processes.

What kind of Ariba Network account should I have for Ariba Supplier Management?

You only need a Standard account (no cost) to fully utilize Ariba Supplier Management functionality. To learn more, please visit the [Standard Account Services webpage](#).

What if I already have an Ariba Network account?

- You are still encouraged to join one of the Supplier Management information sessions, detailed below, for Corteva-specific information.
- You will receive your Corteva questionnaires through an interactive email after Go-Live and will be able to log-in using your existing account to answer them.

When will this take effect?

We are targeting August 1, 2021 as the Go-Live date.

What is the next step?

After Go Live, you will receive the Legacy Registration questionnaire email and will be required to respond to that to continue your collaboration with Corteva.

We highly encourage you to join our informative web-based supplier information sessions. During the event, you will have the opportunity to participate in a Q&A with experts from Corteva and learn more.
