Advanced Shipping Notification

In this Chapter You Will Learn About ...

Learning Focus

1. What is an advanced shipping notification
2. What are the benefits of using advanced shipping notification
3. How to manage advanced shipping notification **for individual item**
 - Create an ASN
 - Define the correct label and pack items to generate Handling Units
 - Add auxiliary packaging
 - Save an ASN as a draft
 - Change or cancel an ASN before submitting
 - Print labels
 - Submit an ASN, view submitted ASNs and cancel submitted ASN

Follow especially the process steps marked with this symbol.

Advanced Shipping Notification

General Considerations

WHAT IS ASN?

An Advanced Shipping Notification is a packet of information containing details about an imminent delivery. The information is prepared by the Supplier and shared with the buyer to smoothen and improve the quality of the actual delivery event.

It can contain details about:

- Related documents like purchase orders and confirmations.
- Delivery time, place, vehicle and driver information.
- Type and identification of the packaging materials
- Identification information of the goods to be delivered like batches and / or serial numbers.

WHEN TO USE IT?

The word advanced can be confusing as it has multiple meanings. The way it should be understood in this context is before the actual event.

Please submit the ASN ideally shortly before or during the loading of the truck, at the latest 30 minutes after departure. By sending the information at the correct time, you maximize the time for preparing and finetuning of the delivery event.

To reap the most mutual benefits of the information exchange, timeliness is very important. The sooner ASN is created the better it will serve its goals.

WHY TO USE ASN?

- Advanced Shipping Notifications improve the efficiency and quality of the goods receipt / delivery process. By sending as much information as possible before the actual event the Supplier and Buyer can better align their mutual processes.
- The buyer can prepare and notify employees of the imminent arrival of goods and data quality will be higher as manual re-entry of data is avoided. This will have an impact on the following aspects of doing your business:
 - Planning
 - Gate, Parking space, Dock, etc. can be reserved for the delivering truck.
 - Special unloading and Quality Assurance persons and equipment, floor and rack space can be prepared.
 - In case of any bottlenecks, the supplier and buyer can align and adjust the shipment beforehand.
 - Execution
 - The time it takes to do the actual delivery will be shorter as everything will be already in place and most of the information that a buyer collects during goods receipt is already available. E.g. packaging, serial numbers, batches, etc.
 - Administration
 - Since both the supplier and the buyer will have transparency and share the same administrative data there will be less differences that need to be clarified afterwards.

Advanced Shipping Notification

Allowed Actions

Ariba Network provides multiple options to maintain ASN.

1. Individual PO management.

With a low volume of POs you may simply go to the PO and click the Create shipping notice button that will allow you to fill individual shipment notification per PO.

2. Multiple PO's management.

In case of multiple lines of POs to be shipped, you should use the tab **Items to Ship** for a one-step action.

3. Mass shipping notification upload.

In case of a high number of PO lines to be shipped, you may choose to notify via mass notification (file upload).

Note: See the other training documentation **SAP Ariba Training- Advanced Shipping Notification – Multiple** for the 2nd and 3rd option to maintain ASN.

Advanced Shipping Notification

Individual PO Management – Create ASN

There are 3 possible ways to start creating an individual shipping notice.

From the **Workbench**:

1. Click on **Items to Ship** tile.
2. Identify the right items using **filters**.
3. Select and click **Create ship notice**.

OR

From **Orders/ Orders and Releases** tab:

4. Identify the right document using **search filters**.
5. Click **Actions/ Ship Notice** or **Create Ship Notice** button.

OR

6. You can also create ASN from the PO screen. Click **Create Ship Notice**.

Note: Orders tab will be replaced with new Workbench concept soon.

The screenshot illustrates the SAP Business Network interface for creating a shipping notice. It is divided into several sections:

- Top Navigation:** SAP Business Network Enterprise Account. The 'Workbench' tab is highlighted with a blue circle '1'.
- Items to Ship Tile:** A tile showing '7 Items to ship' for the 'Last 31 days' period, with a blue circle '1' next to it.
- Items to Ship (7) Section:**
 - Buttons for 'Edit filter', 'Save filter', and filter options: 'Next 90 days', 'Last 31 days', 'Exclude fully shipped, +1', 'Exclude fully received', and 'Exclude fully invoiced'.
 - A 'Create ship notice' button is highlighted with a blue circle '3'.
 - A table with columns: Order No., Item No., Supplier Part No., Description, Schedule Line No., Commitment, and Actions.
 - Table content:

Order No.	Item No.	Supplier Part No.	Description	Schedule Line No.	Commitment	Actions
Customer: SCC Delivery Team - Global H19 Client 400 - TEST Ship To Address: Storage Location 171C - Address Nam, Palo Alto,						
<input checked="" type="checkbox"/>	4500003719	10	S_BP0011	RAW13, PD, Lohnbearbeitung		...
- Orders and Releases Section:**
 - Tabs: 'Orders and Releases', 'Items to Confirm', 'Items to Ship', 'Return Items'.
 - 'Items to Ship' tab is active.
 - 'Search Filters' section with columns: Type, Order Number, Ver, Customer, Actions.
 - Table content:

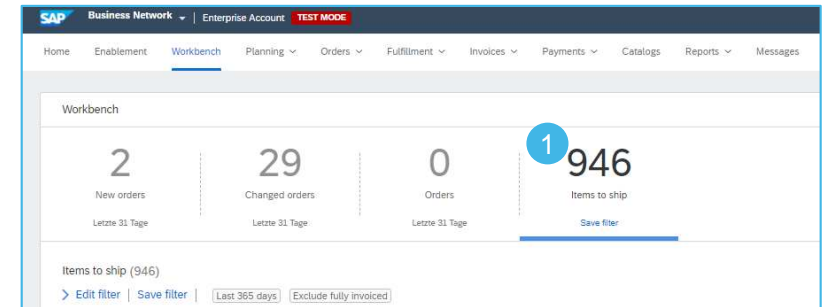

Type	Order Number	Ver	Customer	Actions
<input type="radio"/>	Order 4500003734	1	SCC Delivery Team - Global H19 Client 400 - TEST	Actions
 - A 'Create Ship Notice' button is highlighted with a blue circle '5'.
 - An 'Actions' dropdown menu is highlighted with a blue circle '5', showing 'Ship Notice' as an option.
- Purchase Order: 4500003734 Section:**
 - Buttons: 'Create Order Confirmation' and 'Create Ship Notice'.
 - 'Create Ship Notice' button is highlighted with a blue circle '6'.

Advanced Shipping Notification

Individual PO Management – Create ASN – from Workbench

Create a list with **all demands for all your part numbers** directly from the **Workbench & Items to Ship list**:

1. Click on **Items to Ship** tile.
2. Identify all demands using only following three filters:
 - **Need by Date:** “None”, to involve also **demands in backlog**
 - **Creation date:** “Last 365 days”, to involve all orders sent to Ariba in the last 365 days
 - **Invoicing status:** “Exclude fully invoiced”

Items to ship (946)

Advanced Shipping Notification

Individual PO Management – Create ASN – from Workbench

With those **three filters**, you will see also the Purchase Orders or Scheduling Agreements, which are already fully shipped and fully received. The status “**fully shipped**” or “**fully received**” is considering the whole order quantity in the Purchase Order (PO) and all schedule lines in the concerned Scheduling Agreement (SA).

1. To exclude the PO’s or SA’s, which are fully shipped, set the filter by shipping status: Exclude fully shipped
2. To exclude the PO’s or SA’s, which are fully received (that means, GR posting is completed in our MAHLE plant), set the filter by receiving status: Exclude fully received.

Advanced Shipping Notification

Individual PO Management – Create ASN – from Workbench

Use search filters to identify the items to ship:

1. If do you want to search for some specific demands, you can search acc. to “Order Numbers” or “Customer Part Number” or “Customer location”, etc.
2. If do you want to reset the filter settings, click on Reset button.
3. Click on Apply to apply the filter.
5. Click on Save filter to save the settings.
6. There is a possibility to rename your personal filter settings => double click on Save filter and overwrite the name of the filter.
7. Click on Save.
8. Name of the filter settings is overtaken.

The screenshot shows the 'Items to ship (0)' filter interface. It contains various filter fields such as Customers, Order numbers, Customer locations, Need by date, Ship by date, Creation date, Company codes, Purchasing organizations, Purchasing groups, Ordering address IDs, Part numbers, Customer part numbers, Product group, Planner codes, Order type, Category, Stock transfer type, Ship from location, Supplier batch ID, Confirmation status, Shipping status, Receiving status, Invoicing status, External document type, Transport Terms, and Storage locations. Each field has a 'Select or type selections' button. There are also radio buttons for 'Partial match' and 'Exact match'. At the bottom right, there are 'Apply', 'Reset', and 'Cancel' buttons. Numbered callouts are present: '1' points to the 'Order numbers' and 'Customer locations' fields, '2' points to the 'Reset' button, and '3' points to the 'Apply' button.

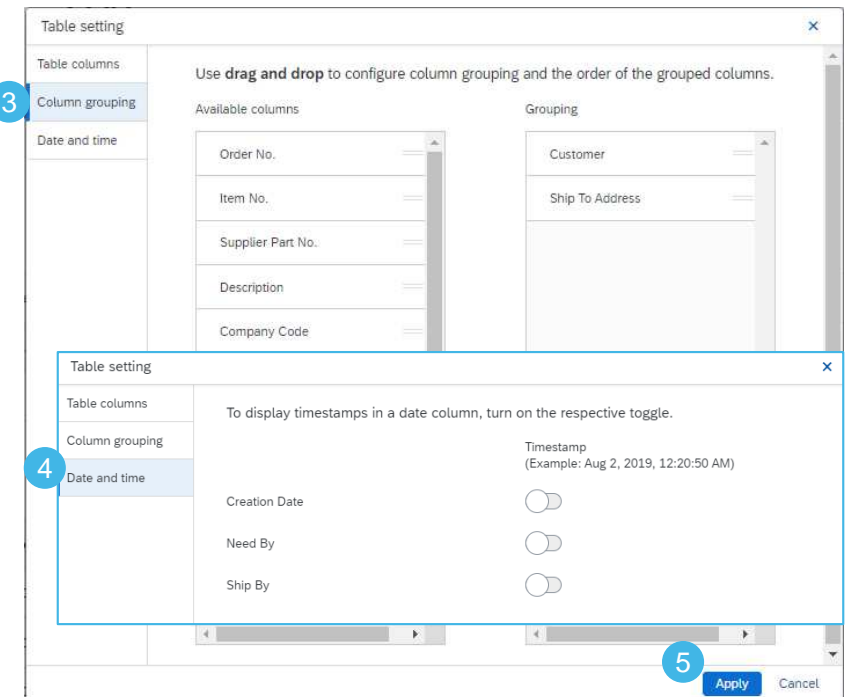

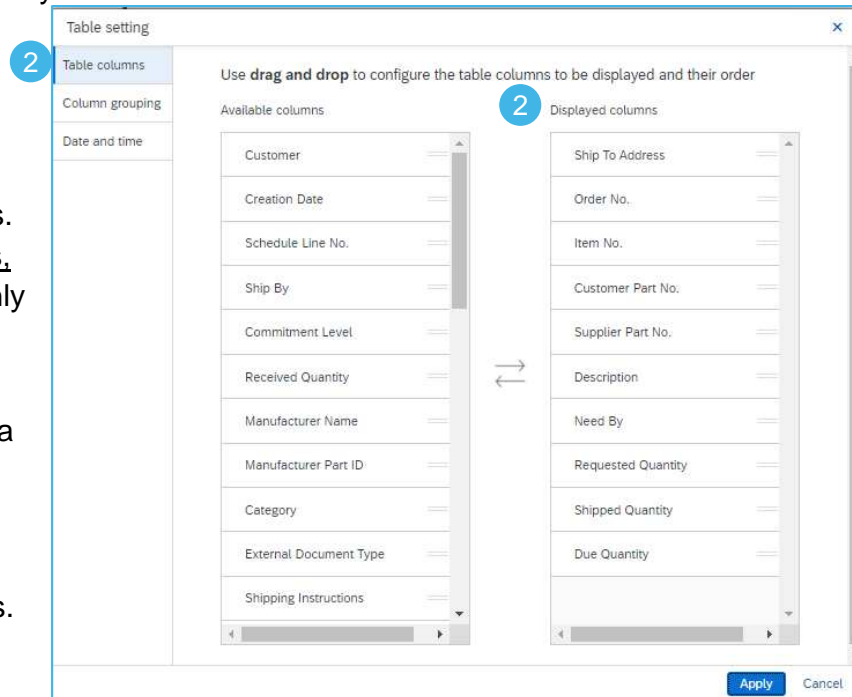

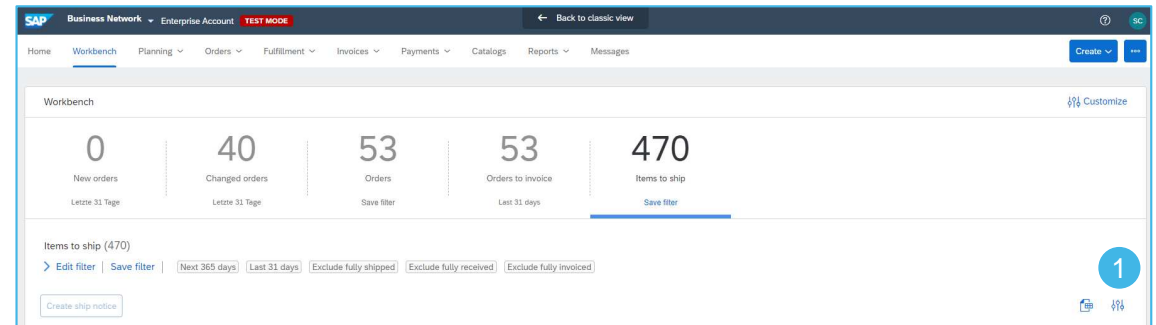

The sequence of three screenshots illustrates the 'Save filter' process. The first screenshot shows the 'Save filter' dialog box with a 'Save filter' button and a 'Test' button. Callout '5' points to the 'Save filter' button and callout '6' points to the 'Test' button. The second screenshot shows the dialog box with a 'Save' button and a 'Cancel' button. Callout '7' points to the 'Save' button. The third screenshot shows the dialog box with a 'Test' button. Callout '8' points to the 'Test' button. The dialog box also displays the number of items to ship (943) and a 'Test' button.

Advanced Shipping Notification

Individual PO Management – Create ASN – from Workbench

1. Use the configuration button  above the table to change the table settings.
2. In the tab **Table columns** use drag and drop to configure the table columns to be displayed and their order. Display the Ship to Address, Order No., Item No., Customer Part No., Supplier Part No., Description, Need By, Requested Quantity, Shipped Quantity and Due Quantity.
3. In the tab **Column grouping** are the default settings => grouping by Customer and by Ship to address. Remove those settings, to sort the demands only by delivery date, not grouped by customer.
4. Display timestamps in a date column, if you want.
5. Click on Apply to overtake those settings.

Advanced Shipping Notification

Individual PO Management – Create ASN – from Workbench

See the comparison of the **Items to Ship** list grouped by the customer and **Items to ship** list without any grouping (second screenshot).

Advanced Shipping Notification

Individual PO Management – Create ASN – Header Level

Fill out the requested information on the Shipping PO form.

1. Do not modify the “Deliver To” address at the top.
2. Do not edit the “Ship From” address. By default this is your company address in your Ariba Network account.
3. The Packing Slip ID is a mandatory field. Please enter there supplier unique **delivery note number**.
4. Provide the invoice number for these items if applicable.
5. Specify the Ship Notice Type – the selected value has to be “**Actual**”.
6. Provide **shipping/ delivery date**.
7. Upload tool to attach additional documents if needed.
8. **Do not modify the Transport Terms**
9. In section “additional fields”, provide comments if needed. Those comments are only for your internal use. It will be not displayed at the labels or at the delivery note.

Note: Multiple shipping notices per purchase order can be sent until the quantities are fully shipped.

The screenshot shows the 'Create Ship Notice' form with the following sections and callouts:

- 1:** DELIVER TO address: 2270 MAHLE Filtersyst. AT GmbH, St. Michael ob Bleiburg, Austria.
- 2:** SHIP FROM address: Test AS new - TEST, Stuttgart, Baden-Württemberg, Germany.

Individual PO Management – Line Level – Serial Numbers

Serial numbers are optional or mandatory depending on the type of purchased product.

They are mandatory if indicated in the purchase order. If mandatory, then the number of serial numbers must be equal to the shipped quantity.

1. Populate the serial number of the first item and Asset Tag, if needed.
2. Click on **Add asset** to add additional serial numbers. Please fill out only one serial number per asset field.

The screenshot displays a web interface for a shipping notification. At the top, under 'SHIPMENT STATUS', it shows '1. Shipping 11.000 EA'. Below this is the 'ASSET DETAILS' section, which contains a table with two columns: 'Serial Number' and 'Asset Tag'. The first row has the value '123' in the 'Serial Number' field and an empty field in the 'Asset Tag' column. A blue circle with the number '1' is positioned to the left of the 'Serial Number' field. Below the table is a button labeled 'Add Asset', with a blue circle containing the number '2' to its left. At the bottom of the form, there are two expandable sections: 'HAZARD DETAILS' and 'DELIVERY DETAILS', each with a right-pointing arrow.

Serial Number	Asset Tag

Individual PO Management – Line Level – Add Order Line Item

The individual shipping notice interface will propose by default the lines of the initial purchase order that are not shipped yet. You can also add additional line items that do not belong to this purchase order. Your shipping notice can contain PO lines from different PO's.

1. Click **Add order line item**.
2. Access a list of PO lines that need to be shipped. Use search filters such as order number, date or others to identify the right line.
3. Select the line.
4. Click **Add selected items**.

The screenshot illustrates the 'Add Order Line Item' process in the MAHLE shipping notification interface. It is divided into four numbered steps:

- Step 1:** A blue box highlights the 'Add Order Line Item' button in the top left corner.
- Step 2:** A larger blue box highlights the 'Select Items to Add to Ship Notice' section. This section includes:
 - Ship To: MAHLE 2270 MAHLE Filtersyst. AT GmbH, St. Michael ob Bleiburg, , Austria
 - Search Filters: Order Number (with radio buttons for Partial number and Exact number), Part #, Customer Part #, and Supplier Batch ID, each with a 'Look Up' button.
 - Show orders by: Radio buttons for Need by date (selected) and Ship by date.
 - Search By: A dropdown menu set to 'Schedule Line Date Range'.
 - Date Range: A dropdown menu set to 'Other'.
 - Start Date: A date picker set to '7 Sep 2021'.
 - End Date: A date picker set to '15 Oct 2021'.
 - Checkboxes for 'Search only scheduling agreement releases or scheduling agreements' and 'Search only stock transport orders'.
 - A 'Show Advanced Filters' link at the bottom.
- Step 3:** A blue box highlights the 'Items to Ship (2)' table. The table has the following columns: Need By, Part No., Customer Part No., Description, Revision Level, Order Number, Item, Schedule Line No., Commitment Level, and Ordering Address. Two rows are visible:

Need By	Part No.	Customer Part No.	Description	Revision Level	Order Number	Item	Schedule Line No.	Commitment Level	Ordering Address
<input checked="" type="checkbox"/>	7 Oct 2021	70355135	ZHM_0003__-02_0005Abscheider		550013230900010FOR	10	5	Firm	Supplier name & address
<input type="checkbox"/>	8 Oct 2021	70355135	ZHM_0003__-02_0005Abscheider		550013230900010FOR	10	6	Firm	Supplier name & address
- Step 4:** A blue box highlights the 'Add Selected Items' and 'Cancel' buttons at the bottom right.

Individual PO Management – Line Level – Pack Items

- If there are no packaging instructions, you get the following error message
 - In such case, please contact MAHLE Inbound Logistics (MRP controller from the concerned MAHLE plant) and provide the missing packaging information. MAHLE creates the packaging instructions in own ERP system and transfers this information to Ariba.

1 Create Ship Notice

! Packaging instructions are needed. Please ask your customer to provide them.

- For Purchase Orders with Document Type Pre-Series Order (**YPS**) and Sample-Orders (**YIS**), no packing instructions are available. For those document types please **create an ASN without the packing process and without any labels**. In this case, you have to define the label type, but do not click on button “Pack Items”, just use the button “Next” to move forward and submit the ASN.
 - The document type of the Purchase Order can be seen in the PO screen, under Routing Status.

Individual PO Management – Line Level – Add auxiliary packaging

1. If there are needed any changes in the quantity of auxiliary packaging, you are allowed to adjust the quantities, e.g., to reduce or to increase the quantity of needed KLT covers or to delete the auxiliary packaging.
2. For the first pallet with 2 KLTs, you need to add some further auxiliary packaging, in our case **two empty KLTs** and two KLT covers **to make the pallet stackable**. In such case, you have to add this auxiliary material to the created 1st Handling Unit. Click on **+** to get the option **Add Auxiliary Material** for the relevant Handling Unit, **but at the 2nd HU level**.
3. Only if you click on **+** at the 2nd HU level, you will be able to add **an empty KLT and KLT cover** (as they are assigned to the 2nd packaging level). Select the relevant material number, in our case part number 70669469.

The screenshot displays the 'Advanced Shipping Notification' interface. The main table shows Handling Units (HUs) with columns for 'Handling unit type', 'ASN item no.', 'Part no. and description', 'Packed quantity', 'Batch ID', 'Production date', and 'Expiry date'. The first HU is expanded, showing two rows of auxiliary materials. A red circle '1' highlights the 'Quantity' field for the first auxiliary material row. A red circle '2' highlights the '+ Add Auxiliary Material' button. A red circle '3' highlights the 'Choose an auxiliary material' dropdown menu in the expanded view of the 2nd HU level.

Advanced Shipping Notification

Individual PO Management – Line Level – Add auxiliary packaging

1. If do you click on + to get the option **Add Auxiliary Material at the 1st HU level**, a new additional field with a drop-down list appears.
2. You will be able to **add only a pallet or pallet cover (as they are assigned to the 1st packaging level)**. The pallet cover (part number 70669462) was automatically added to the packaging instruction as auxiliary packaging, so it is not necessary to add any pallet cover any more.
3. If do you add an auxiliary packaging by mistake, you can delete this by clicking on trash.
4. Click now on **Next**.

The screenshot displays the MAHLE Advanced Shipping Notification interface. The main table shows handling units with columns for ASN item no., Part no. and description, Packed quantity, Batch ID, Production date, and Expiry date. A modal window is open, allowing the user to select an auxiliary material from a dropdown list. The selected material is 70669462, and the quantity is 1. The interface also features buttons for Save, Define Instructions, and Next. The 'Next' button is highlighted with a blue circle and the number 4, indicating the final step in the process.

Handling unit type	ASN item no.	Part no. and description	Packed quantity	Batch ID	Production date	Expiry date

Individual PO Management – Save ASN as a draft

1. To save an ASN as a draft click **Next** on the top of ASN screen to get to the step 5 Review ship notice.
2. In the next step please click on **Save**. You get the message, that the ship note and packing data have been saved as a draft.
3. Now click on **Exit**.
4. Click once more on **Save the ship notice**. The ASN will be saved for 60 days. **Saved draft will not be sent to the customer.**
5. The draft can be accessed and modified from **Fulfillment/ Drafts**.
6. Select **Ship notice**. The status of an ASN saved as a draft is **Composing**.
7. Click **Edit** to modify the ASN and finalize it.

Notice: The saving of an ASN as a draft is possible after each process step.

Advanced Shipping Notification

Individual PO Management – ASN Change Before Submitting – V1

1. If do you need to change the quantity of an ASN saved as a draft, you have to change also the generated Handling Units. In the first step, change the shipping quantity, e.g. from 1000 to 1.500 pc
2. Click on **Pack Items**
3. You will receive a message, that there were made some changes in the ASN. Click on **Proceed**. You will reach the step 3: Confirm packing (only, if there is no additional alternative packaging instruction).
4. In the Summary you will see the remark **CHANGED**
5. In the field ASN Quantity you can see the old and a new ASN quantity and the new packed quantity

Advanced Shipping Notification

Individual PO Management – ASN Change Before Submitting – V1

1. According to the logic of SAP Ariba, the added quantity will be always packed on a new additional pallet. You can see this within the Handling Units with a remark NEW
2. If do you want to pack this added quantity on the same pallet, as the pallet is not full, please click on **Move to...**
3. Now, you can choose the handling unit, on which you want to pack this additionally quantity.
4. Choose the relevant Handling Unit.
5. Click on **OK**.

The screenshot displays the SAP Ariba interface for handling units. The main table lists Handling Units with columns for 'Handling unit type', 'ASN item no.', 'Handling unit no.', 'Part no. and description', and 'Packed quantity'. A 'Move to...' dialog box is open on the right side, showing a list of Handling Units with '+' and trash icons. A red circle '1' highlights the 'NEW' status of a Handling Unit in the main table, and a red circle '2' highlights the 'Move to...' button in the dialog box.

Handling unit type	ASN item no.	Handling unit no.	Part no. and description	Packed quantity
Handling Unit 1				
70669470 1 (2/12)				
70669469 1		10.1	70355135 ZHM_0003_02_0005Abscheider_TEST	
70669469 2		10.1	70355135 ZHM_0003_02_0005Abscheider_TEST	
Handling Unit 2				
70669470 2 (1/12)				
70669469 3		10.1	70355135 ZHM_0003_02_0005Abscheider_TEST	

This close-up shows the 'Move to...' dialog box. The 'Move to...' button is highlighted with a red circle '3'. Below it, the 'Choose a handling unit' dropdown menu is visible, with an 'OK' button at the bottom.

This close-up shows the 'Move to...' dialog box with the dropdown menu open. The selected handling unit is 'Handling Unit 1 : 70669470 1', highlighted with a red circle '4'.

This close-up shows the 'Move to...' dialog box with the 'OK' button highlighted by a red circle '5'.

Advanced Shipping Notification

Individual PO Management – ASN Change Before Submitting – V1

1. The KLT moved to the first Handling Unit – see the number 3/12, that means, there are now 3 KLTs of possible 12 KLTs
2. Now, the empty pallet stayed without any KLTs – see the number 0/12, that means, there is no KLT of possible 12 KLTs. There is no need to delete the empty pallet – this HU will disappear by the next step 4: Print labels.
3. Unfortunately, if you increase the ASN quantity in the saved draft, the auxiliary packaging, in our case the KLT cover will be not added automatically, so you have to add this KLT cover manually by clicking on + at this 2nd HU level.
4. Choose the KLT cover (70669468) as an auxiliary packaging.

Handling unit type	ASN item no.	Handling unit no.	Part no. and description	Packed quantity	Batch ID	Production date	Expiry date

Advanced Shipping Notification

Individual PO Management – ASN Change Before Submitting – V2

If your labels are not printed yet, there is a trick to **speed up this process with updated quantity**.

1. You increase the ship quantity and click on Pack Items and then on Proceed.
2. Now, you do not make any changes, but just click on Save => Save and exit.
3. You get a message – Your ship notice draft and packing data have been saved.
4. You will be automatically returned back to the previous screen.
5. Click now again on Pack Items and choose the **option Repack**.

The screenshots show the following steps:

- Step 1:** The 'Order Items' screen displays order details for Order No. 550013230900010FOR, Line No. 10, Part No. 70355135, and Description: ZHM_0003..._02_0005Abscheider. The 'Ship Qty' is 1500. The 'Pack Items' button is highlighted with a '1'.
- Step 2:** A 'Review ship notice' dialog box appears with options 'Save', 'Define Instructions', 'Next', 'Save and exit', and 'Exit'. The 'Save and exit' button is highlighted with a '2'.
- Step 3:** A confirmation message states: 'Your ship notice draft and packing data have been saved.' The 'Ok' button is highlighted with a '3'.
- Step 4:** The 'Order Items' screen is shown again, but the 'Ship Qty' has been updated to 15000. The 'Pack Items' button is highlighted with a '4'.
- Step 5:** A dialog box asks: 'There is already packaging information for this ship notice. Would you like to repack?' with options 'Continue' and 'Repack'. The 'Repack' button is highlighted with a '5'.

STANDARD

Advanced Shipping Notification Individual PO Management – ASN Change Before Submitting – V2

- 6. The result => the new increased quantity will be packed to one pallet with new HU's (overjumping the step 2).
- 7. Add the empty KLTs in step 3 (Confirm packing) and adjust the needed quantities by empty KLT and KLT cover.
- 8. Move to step 4 and then to step 5 by clicking on Next to get to the step 5 Review ship notice.

Confirm packing plan

1 Create ship notice 2 Define instructions 3 Confirm packing 4 Print Labels

ⓘ You've skipped Step 2 because there are packaging instructions for all of your items. All your items are packed, but you can still rearrange handling units within the packing hierarchy.

Advanced Shipping Notification

Individual PO Management – Edit / Delete a draft of an ASN

You can **edit** or **delete** a draft of a ship notice by using the **Edit or Delete** button

You can **edit** or **delete** only a ship notice that has a status **Composing**.

1. Go to **Fulfillment/ Drafts**
2. Identify the document and mark the line
3. Click on **Edit or Delete**.
4. If there is a new updated purchase order or release in Ariba, you will get the warning message. Click on Go to Ship Notice.

You can not create several ASNs as a draft or submit several ASNs with the same ASN number, **ASN number has to be always unique**.

If you delete an ASN saved only as a draft, you are allowed to create a new ASN with the same ASN number.

Advanced Shipping Notification

Individual PO Management – Cancel ASN

You can **cancel** a ship notice by using the **Cancel** button at the top of the ship notice details page.

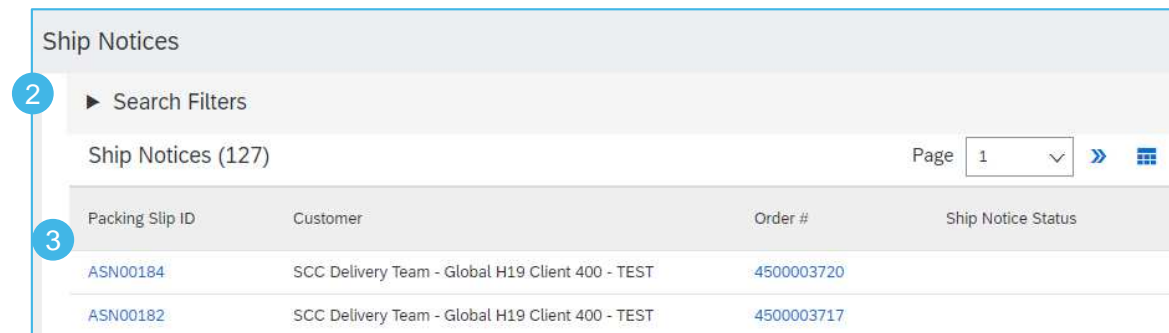

You can **cancel** a ship notice that has a status of **Composing** (ASN saved as a draft) or **Acknowledged** (submitted ASN).

1. Go to **Fulfillment/ Drafts** or **Ship Notices**.
2. Identify the document by using search filters.
3. Open shipping notice that you would like to cancel by clicking on **Packing Slip ID** number.
4. Click **Cancel**.

After cancellation of a submitted ASN, the items will be visible again in Items to Ship tab and a new shipping notice with the same ASN number can be created.

Note: Please always inform the relevant MAHLE plant about cancellation of an submitted ASN.

In SAP S/4HANA, the inbound deliveries created for that particular ASN have to be deleted always manually => therefore, MAHLE has to be informed about cancellation of submitted ASN
