

## Connect with Arrow Energy to collaborate on SAP Business Network!

To Valued supplier,

Arrow Energy wrote to you in September 2021 advising of the transition arrangements to SAP Ariba. Arrow Energy confirmed that the transition to SAP Ariba will streamline certain procurement processes. Arrow's letter in the month of September 2021 confirmed that from January 2022 purchase orders, invoices and accounts receivable will be transmitted via Ariba Network.

**Below is your company's invitation to join Ariba Network and participate in this initiative.**

Just as each supplier is unique, so is the journey to Ariba. Current Arrow vendors, suppliers and contractors will be automatically enrolled to use an Ariba Standard or Enterprise account based on the circumstances mentioned below.

- **Standard** is suitable for vendors, suppliers, and contractors with small transaction volumes. Arrow Energy only require these suppliers to use the Standard Account which is totally free.
- **Enterprise** is suitable for vendors, suppliers, and contractors with high transaction volumes, and provides more functionality than the Standard account. Arrow Energy and SAP Ariba have reached an agreement to provide these suppliers this service **free of charge** for all Arrow Energy associated transactions\*.

\*Note: If you opt into additional services or want to transact with other buying organisations on the Ariba Network, you may be subject to fees.

Arrow Energy values your ongoing and continued relationship as a key vendor, supplier, or contractor to Arrow Energy. To ensure a smooth transition to the Ariba Network, please follow the below details to register your connection with Arrow Energy on the Ariba Network **within 5 working days**

On behalf of Arrow Energy

Jason King

*General Manager, Contracts, Procurement & Logistics*
