## Introducing: New user interface for enhanced contract line item management

### Customer challenge

Only a single ERP contract can be created from one contract in Ariba Contracts.  
Bulk edit/delete is only possible through Excel.  
The contract line items document needs a better user experience to handle these changes and drive more efficiency throughout the process.

### Meet that challenge with SAP Ariba

The new UI for Contract Line Items Document provides users with a new user experience to access and manage the contract line items document through enhanced functionalities such as search, bulk edit, distribution and many more.

### Experience key benefits

The improved user experience leads to more adoption and drives process efficiency:

- Enhanced search functionality
- Possibility for bulk edit
- Contract distribution is now possible

### Solution area

SAP Ariba Contracts  
SAP Ariba Strategic Sourcing Suite

### Prerequisites and Restrictions

Prerequisites:

- From the **Manage > Administration > Intelligent Configuration Manager** page of the SAP Ariba Sourcing solution, enable Application.ACM.EnableNewCLIDInterface.
- The user must be assigned to the **Category Buyer** user group
- Scheduled task which need to be run: LineLevelERPTermsEnabler
- If SAP Ariba Contracts is used integrated with an ERP system such as SAP ERP, the necessary ERP terms need to be added to the prototype line item in the CLID template of the business system which makes all the required ERP fields appear in the line-item table
  - *Please note: an optional migration task is available to allow migration of existing material contracts to the new user interface for line items document. This migration task needs to be run prior to the activation of the feature.*

Restriction:

- This is only applicable for material based contracts and does not apply for services contracts and large line item contracts.

### Implementation information

This feature is automatically on for all customers with the applicable solutions but requires **customer configuration**.

# Feature at a Glance

## Introducing: New user interface for enhanced contract line item management

### Detailed feature information

The new UI for Contracts Line Items Document now facilitates the creation of contract line item documents for materials that can be distributed to more than one contract in a single ERP. The ease of using the available functionalities such as search, bulk edit/delete and distribution of the contract line items enhances the user experience and enables a better adoption of managing contract line items within SAP Ariba Contracts.

This new user experience is available for material based contracts and does not apply for services and large line items (>2000items) contracts.

The screenshot displays the SAP Ariba Contracts Line Items management interface. The interface is divided into two main sections: a left sidebar and a main content area. The sidebar, titled 'Line Items', contains a list of items with checkboxes and 'Add description' links. The main content area, also titled 'Line Items', features a toolbar with 'Add', 'Edit', 'Distribute', and 'Delete' buttons. The 'Distribute' button is highlighted with a mouse cursor. Below the toolbar is a table with columns for 'Item', 'Price', 'Quantity', 'Extended Price', 'Region', and 'Carton Type'. The table contains three rows of data, each with a checked checkbox in the 'Item' column.

Item	Price	Quantity	Extended Price	Region	Carton Type
<input checked="" type="checkbox"/> 1.0 Carton_M <a href="#">Add description</a>	€1.8 EUR	500 each	€900 EUR <i>fx</i>	EMEA	Flat Blank
<input checked="" type="checkbox"/> 2.0 Carton_S <a href="#">Add description</a>	€1.4 EUR	500 each	€700 EUR <i>fx</i>	EMEA	Flat Blank
<input checked="" type="checkbox"/> 3.0 Carton Repack <a href="#">Add description</a>	€0.9 EUR	500 each	€450 EUR <i>fx</i>	EMEA	Preglued
