

Dear Valued Supplier,

Axalta Coating Systems is upgrading our Enterprise Resource Planning (ERP) system in the late summer 2022 timeframe for most Axalta locations within the United States and Canada. As result of these upgrades, you will notice some changes in how we conduct business with our partners.

Below we have highlighted the key changes that will impact you.

- **Ariba Network**

- a) Axalta will utilize the Ariba Network for submission of all Purchase Orders (PO). All POs will be sent to you by email notification via the Ariba Network. Axalta will no longer mail, fax or email PDF copies of POs.
- b) Suppliers will be required to utilize the Ariba Network to send Order Confirmations, Advanced Shipping Notices (ASN) and electronic invoices (e-invoices).
- c) Open POs placed before the late summer 2022 go-live will be processed outside the Ariba Network.

If you are already transacting with Axalta using the current Ariba Network account under ANID (**AN01012926845**), that will be permanently replaced with a new global instance of Axalta's Ariba Buyer Account. It is very important that you accept the Trading Relationship Request (TRR), that Ariba will be sending you to be able to transact on Axalta's new Global ANID which is **AN01483101652**.

In the coming weeks, you will receive an invitation from Ariba to attend an Axalta/Ariba Supplier Summit (Virtual Webinar) which is very important to attend so you will be ready to transact with Axalta over the Ariba Network. Please note it is mandatory for you to attend one of the offered sessions.

If you have any questions, please contact the Axalta Ariba Supplier Enablement Team at:
aribaenablement@axalta.com

Sincerely,

Global Ariba Supplier Enablement Team
