Target GA: November 2022

Enable users to edit price and currency in the SAP Ariba Procurement mobile app (BMA-3084)

Description

- This feature enables SAP Ariba Procurement mobile app users to edit the price and currency of catalog, non-catalog, and partial catalog items in the requisitions.
- You can edit the unit price and currency at the line item level.

Customer benefit

This feature will enable you to review the item price and currency and perform any changes if necessary before submitting the PR. You can

- Modify default catalog prices and currencies before submitting PR.
- Change price and currency to non-catalog or partial items.

User

- Buyer

Enablement model

Enable SAP Ariba Procurement mobile app users to share attachments in purchase orders with suppliers (BMA-2984)

Description

- This feature enables SAP Ariba Procurement mobile app users to indicate in the purchase requisitions whether the attachments must be shared with the suppliers in the purchase orders.
- A toggle button is provided in attachment section of purchase requisitions to enable/disable sharing of files with external supplier.

Customer benefit

- You can choose to share attachments with external suppliers if needed during creation of purchase requisitions.
- If toggle button is switched on, the attachments will be shared with the external supplier in the Purchase Order.

Prerequisites, restrictions, cautions

Prerequisites

- You must download the latest version of the SAP Ariba Procurement mobile app to your mobile device and have the required sign-in information.
- You must belong to the Ariba Mobile User group to use the SAP Ariba Procurement mobile app.
- You must belong to the Mobile Shopping group to use the shopping cart feature, unless the site is configured to bypass the group membership check for the Mobile Shopping group.
- Your administrator must enable the Enable sharing of attachments in purchase orders with suppliers in the SAP Ariba Procurement mobile app (Application.Mobile.EnableSharingAttachmentsWithSupplier) parameter. The parameter is enabled by default but the administrator can disable it if this feature is not required.

Restrictions

You can choose to share the attachments only before the requisition is submitted. After the requisition is submitted, you can no longer change your preference.

Feature Details

- 1. Toggle button in attachment section of purchase requisition for sharing attachments with external supplier.

Attachments will be shared with supplier in Purchase Order if the button is switched on.

Enable users to add partial catalog items in the SAP Ariba Procurement mobile app (BMA-3044)

Description

- This feature enables SAP Ariba Procurement mobile app users to add partial catalog items to purchase requisitions.

Customer benefit

- You can add and submit purchase requisitions for partial/generic items.
- You can search for items that already exist in the catalog and then enter the required information when submitting the purchase requisition. Partial items are especially useful in ordering customizable products.
