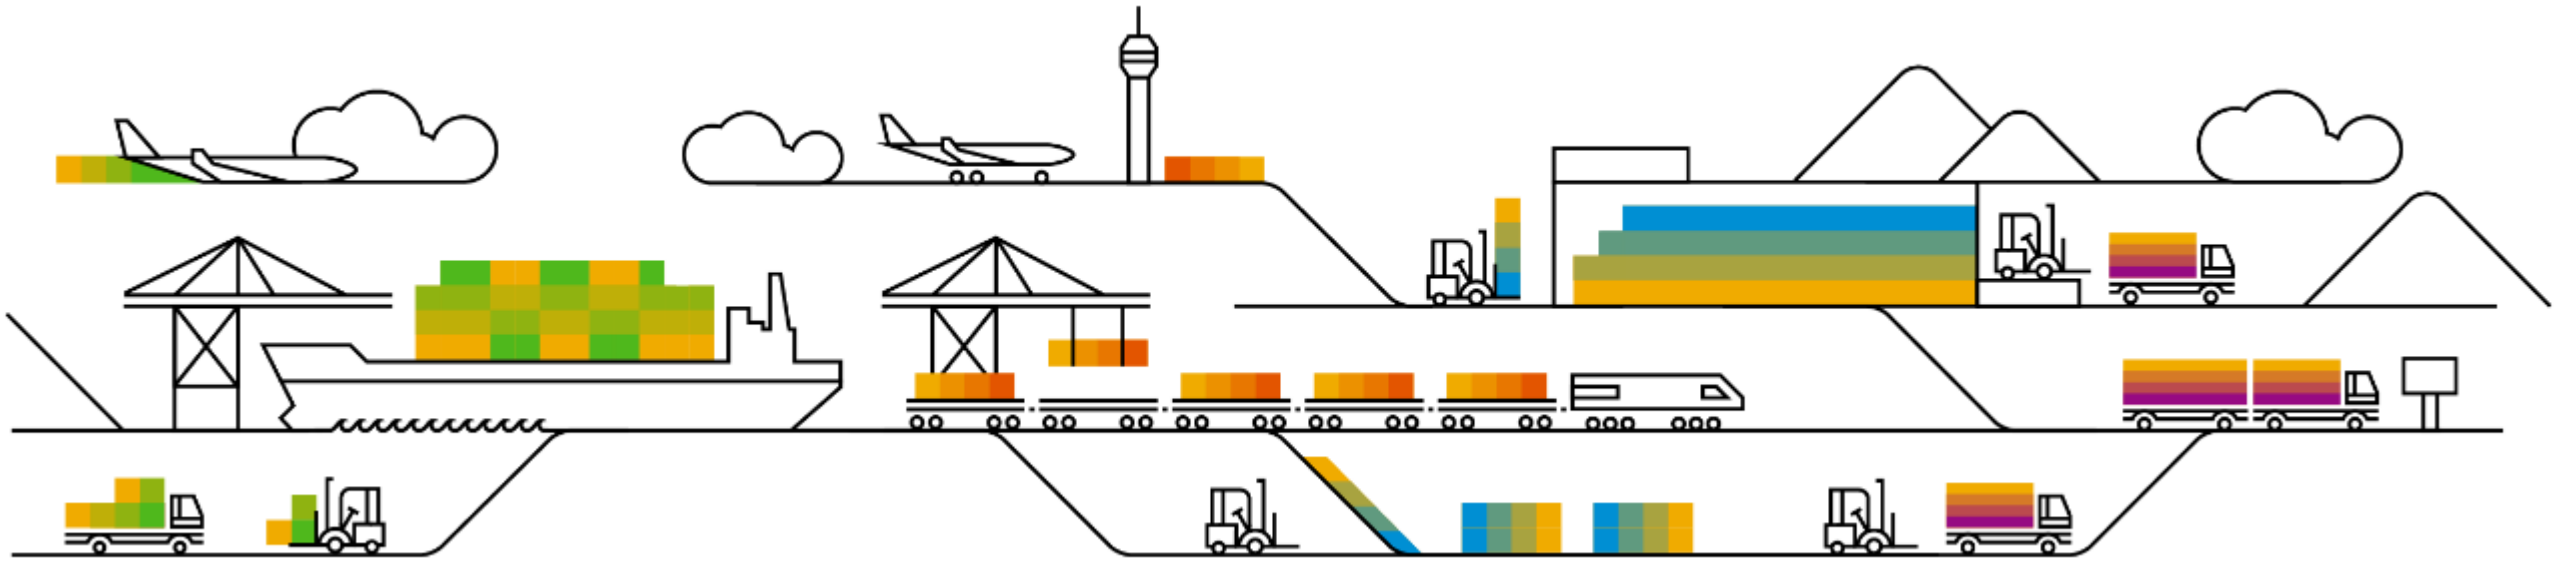
Supplier Management and Risk

Planned Key Features



Features Becoming Mandatory

Supplier management and risk

Supplier Management

1. **Enhanced questionnaire configuration capabilities for increased ERP integration accuracy [SM-12250]**

   Introduced with 1908 release (Q3 2019)

   Adds configuration options for field mapping, maxlength, and validation pattern values to existing template survey capabilities to improve integration accuracy.

© 2022 SAP SE or an SAP affiliate company. All rights reserved.

**** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ****

Planned Features

Supplier management and risk

Supplier Management

1. **Create a supplier management process for one or more suppliers at a time [SM-21456]**
2. Support for SAP Companion standard and custom content for supplier 360 profile [SM-31171]

Supplier Risk

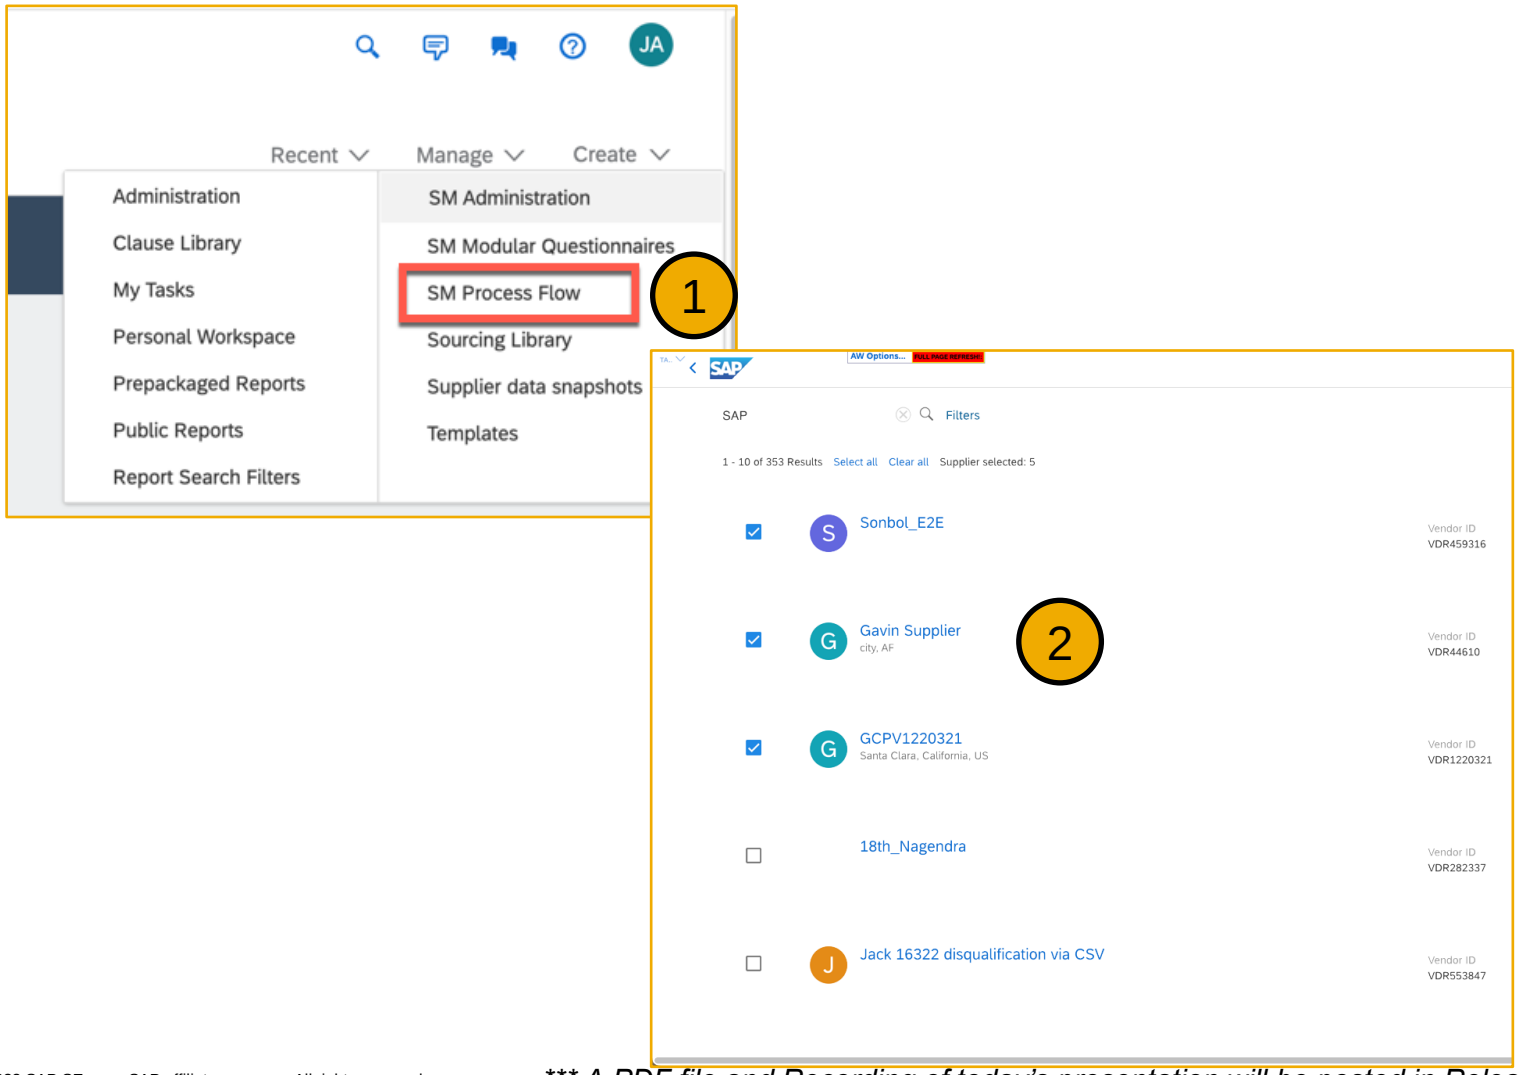
1. Residual risk calculation updates
   - Ability to use control effectiveness levels to calculate residual risk by risk domain [ARI-11569]
   - Calculate engagement-level residual risk from risk domain values [ARI-15755]
   - Calculate supplier-level inherent and residual risk from risk domain values [ARI-15804]
   - Allow using control-related issues to calculate residual risk by risk domain [ARI-15805]

© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** *A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com* ***

Feature at a Glance

Introducing: **Create a supplier management process for one or more suppliers**



Procedure

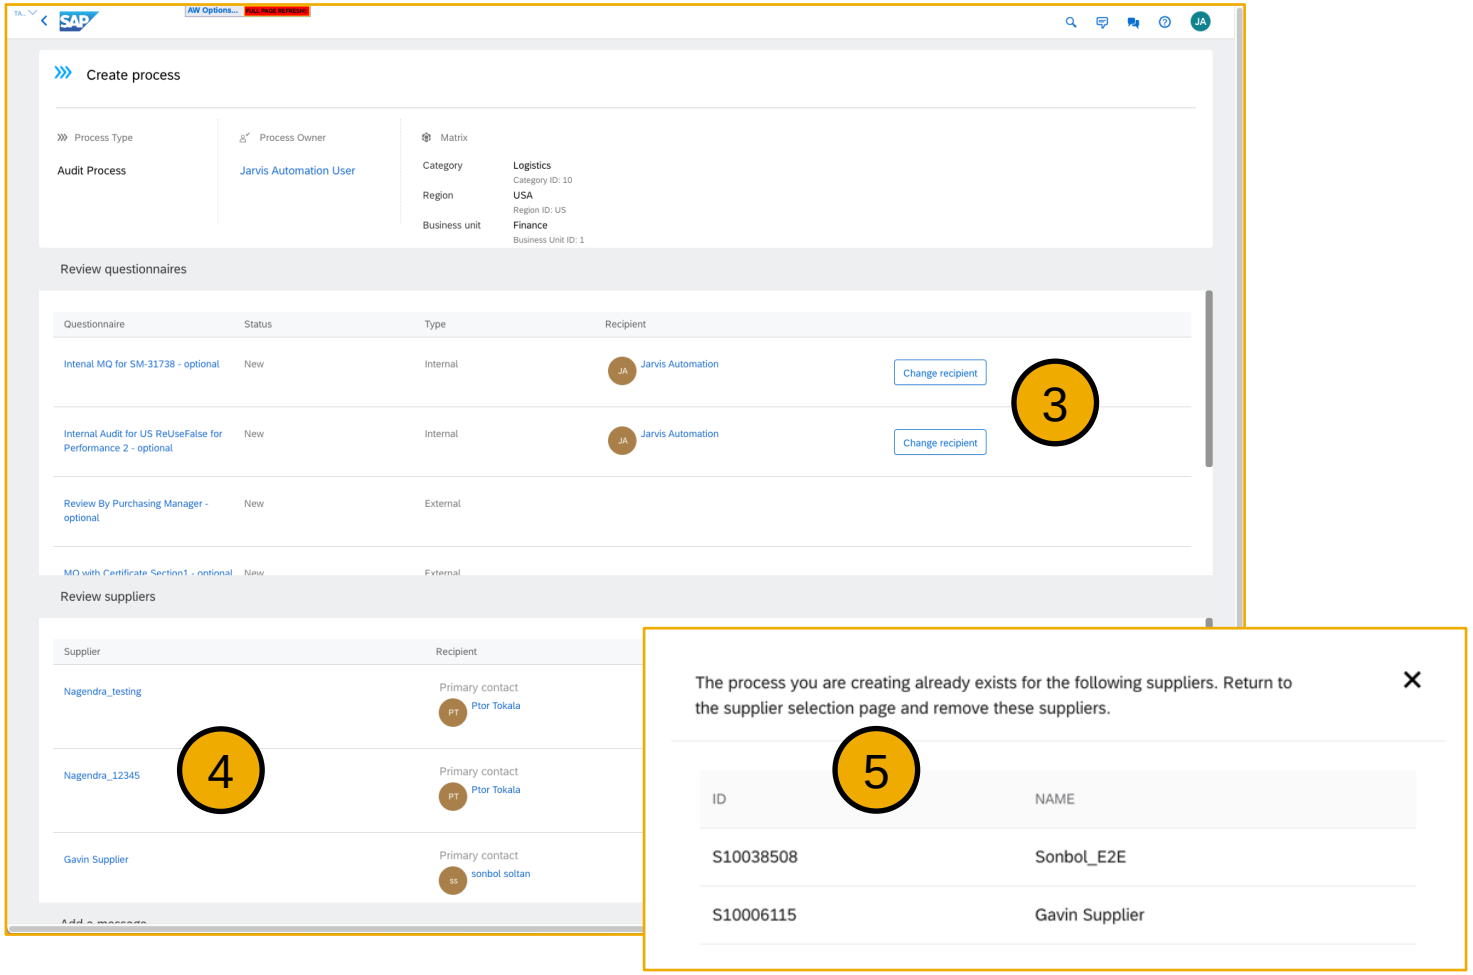
1. Access new menu item **Manage > SM Process Flow**.
   - Per previous functionality
     - On the **Process type** menu, choose the type of process you want to create.
     - Fill out the process Intake form
     - Choose questionnaires to include in the process
2. Select the supplier(s) to which you wish to apply/send the process

© 2022 SAP SE or an SAP affiliate company. All rights reserved.

**** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ****

Feature at a Glance

Introducing: **Create a supplier management process for one or more suppliers**



3. In the Review Questionnaires section, you may change the recipient of **Internal** questionnaires. It is defaulted to the process initiator.

4. Review Suppliers and the recipients of external questionnaires as selected in previous steps

   - Per previous functionality
   - Enter an optional message to internal and external questionnaire recipients. This message is included in the email notifications that recipients receive asking them to complete the questionnaires.
   - Confirm that you want to create the process project.

5. If the process (for that matrix combination and process type) already exists for any of the suppliers selected, a popup instructs you to clear those supplier selections and then proceed.

**** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ****

Feature at a Glance

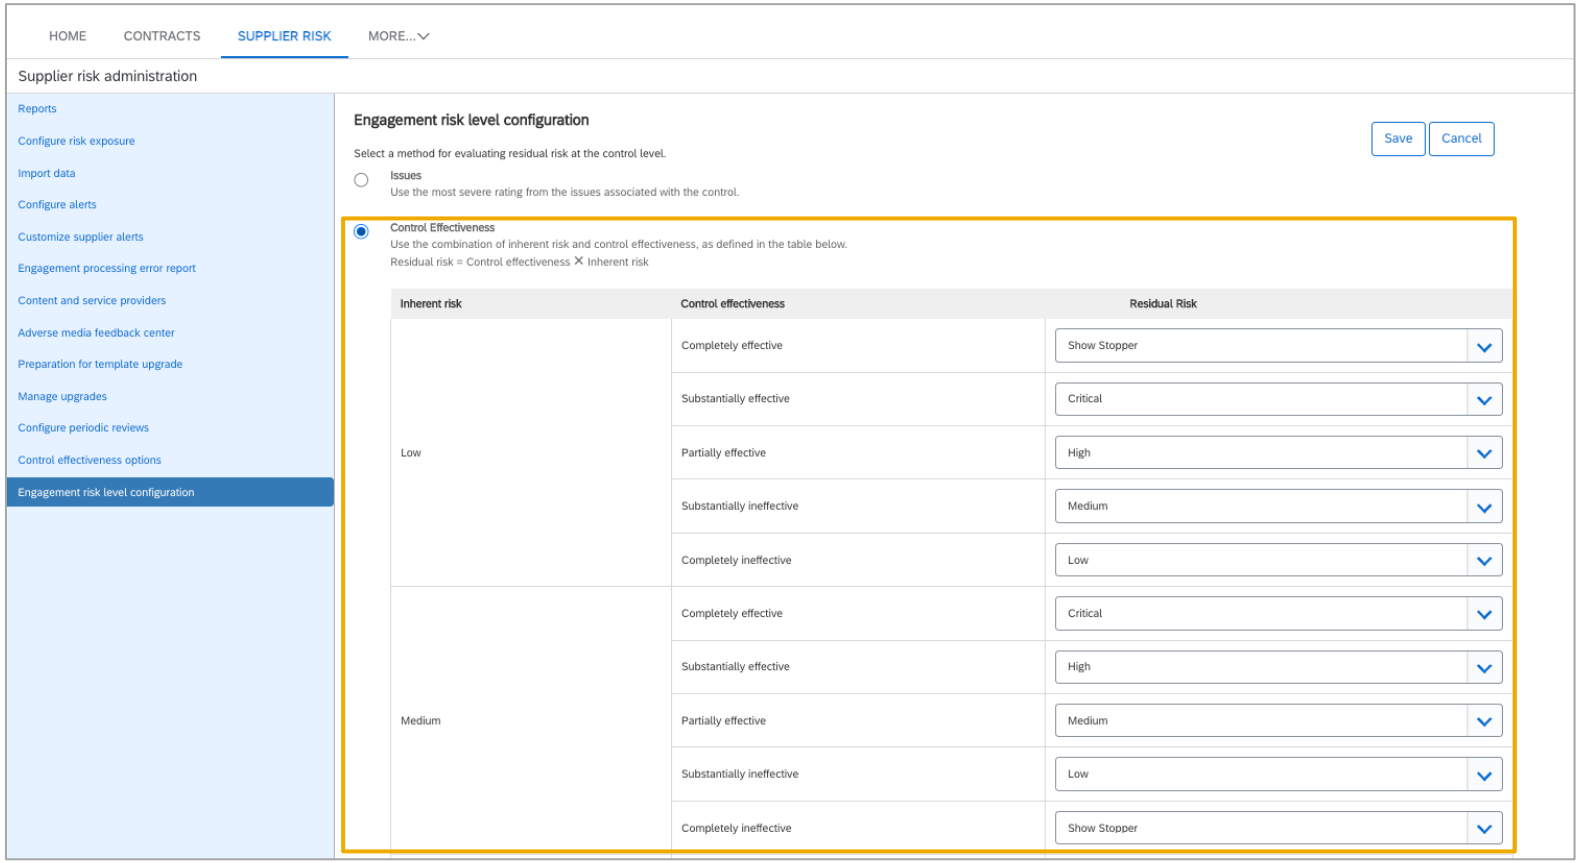
ARI-11569: Ability to Use Control Effectiveness Levels to Calculate Residual Risk by Risk Domain

- Administrators can select control effectiveness as a method for calculating residual risk for each risk domain represented in an engagement
- When this feature is enabled, the engagement risk level configuration page in the SAP Ariba Supplier Risk shows the control effectiveness option for calculating residual risk.
- Administrators can use the combination of inherent risk and control effectiveness to drive the residual risk calculation.



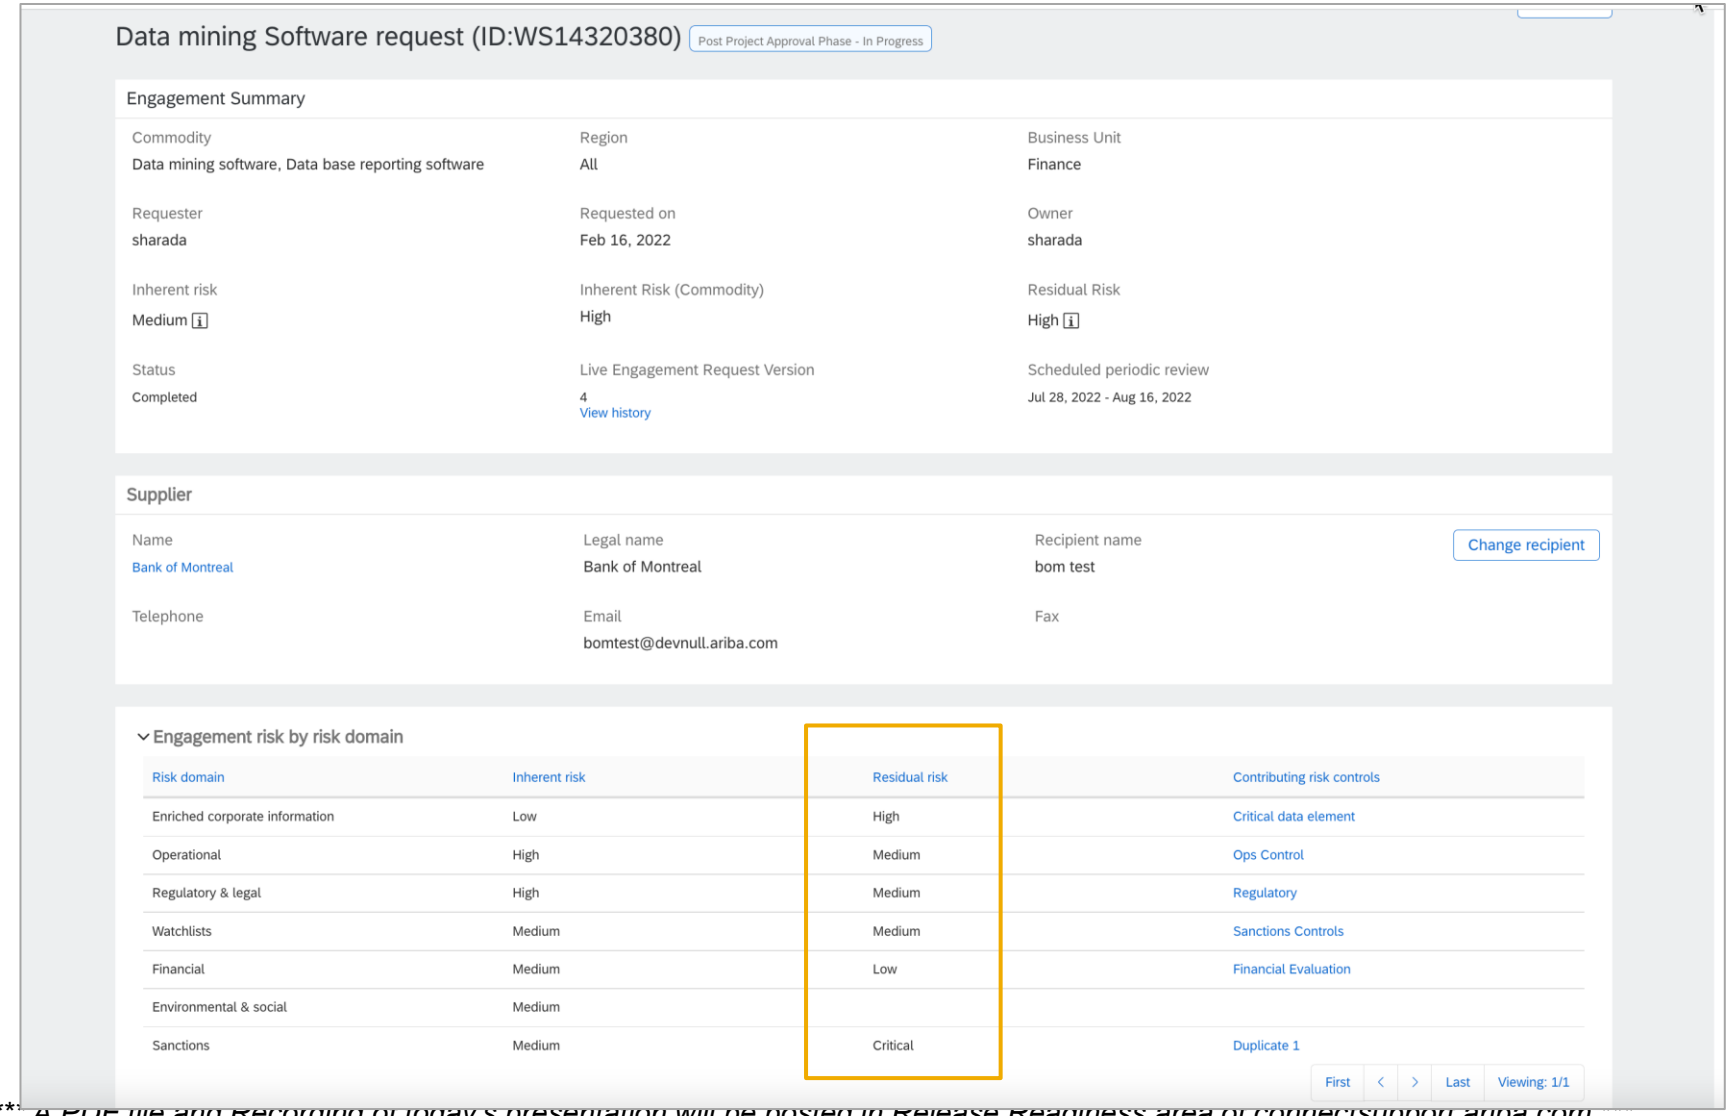
© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ***

Feature at a Glance

ARI-11569: Ability to Use Control Effectiveness Levels to Calculate Residual Risk by Risk Domain

- Based on the configuration set by the Risk Administrator, the Residual risk values are calculated per risk domain



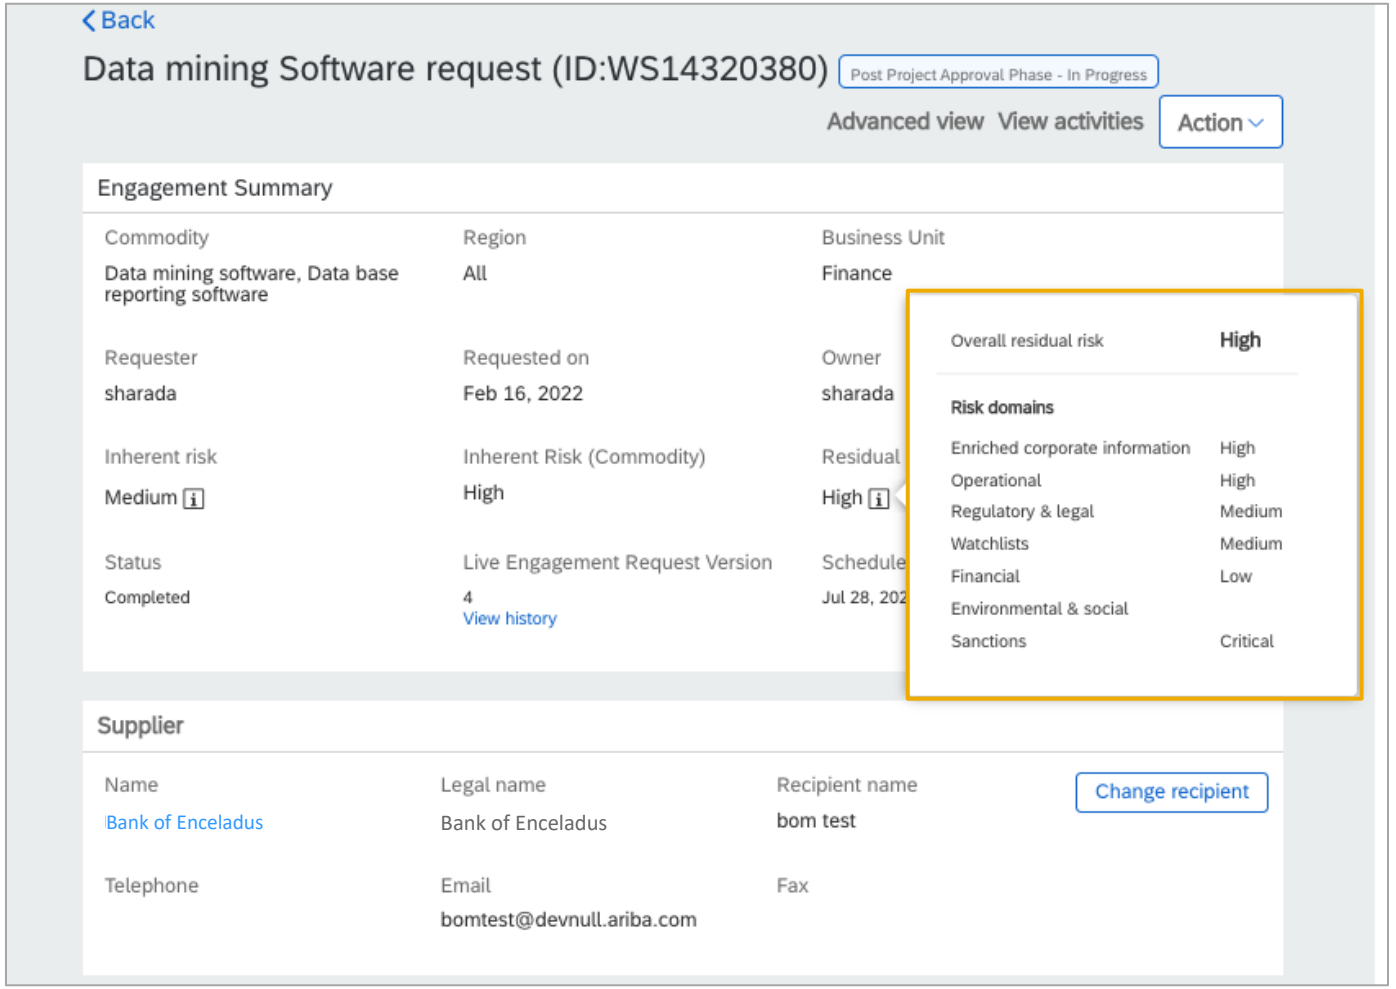
© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** *A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com*

Feature at a Glance

ARI-15755: Calculate Engagement-Level Residual Risk from Risk Domain Values

- Evaluation of residual risk ratings for the domains represented in an engagement, calculated based on control effectiveness levels or control-related issues, to determine an engagement-level residual risk rating.
- The Residual Risk field shows the maximum residual risk value calculated for a risk domain associated with the engagement.



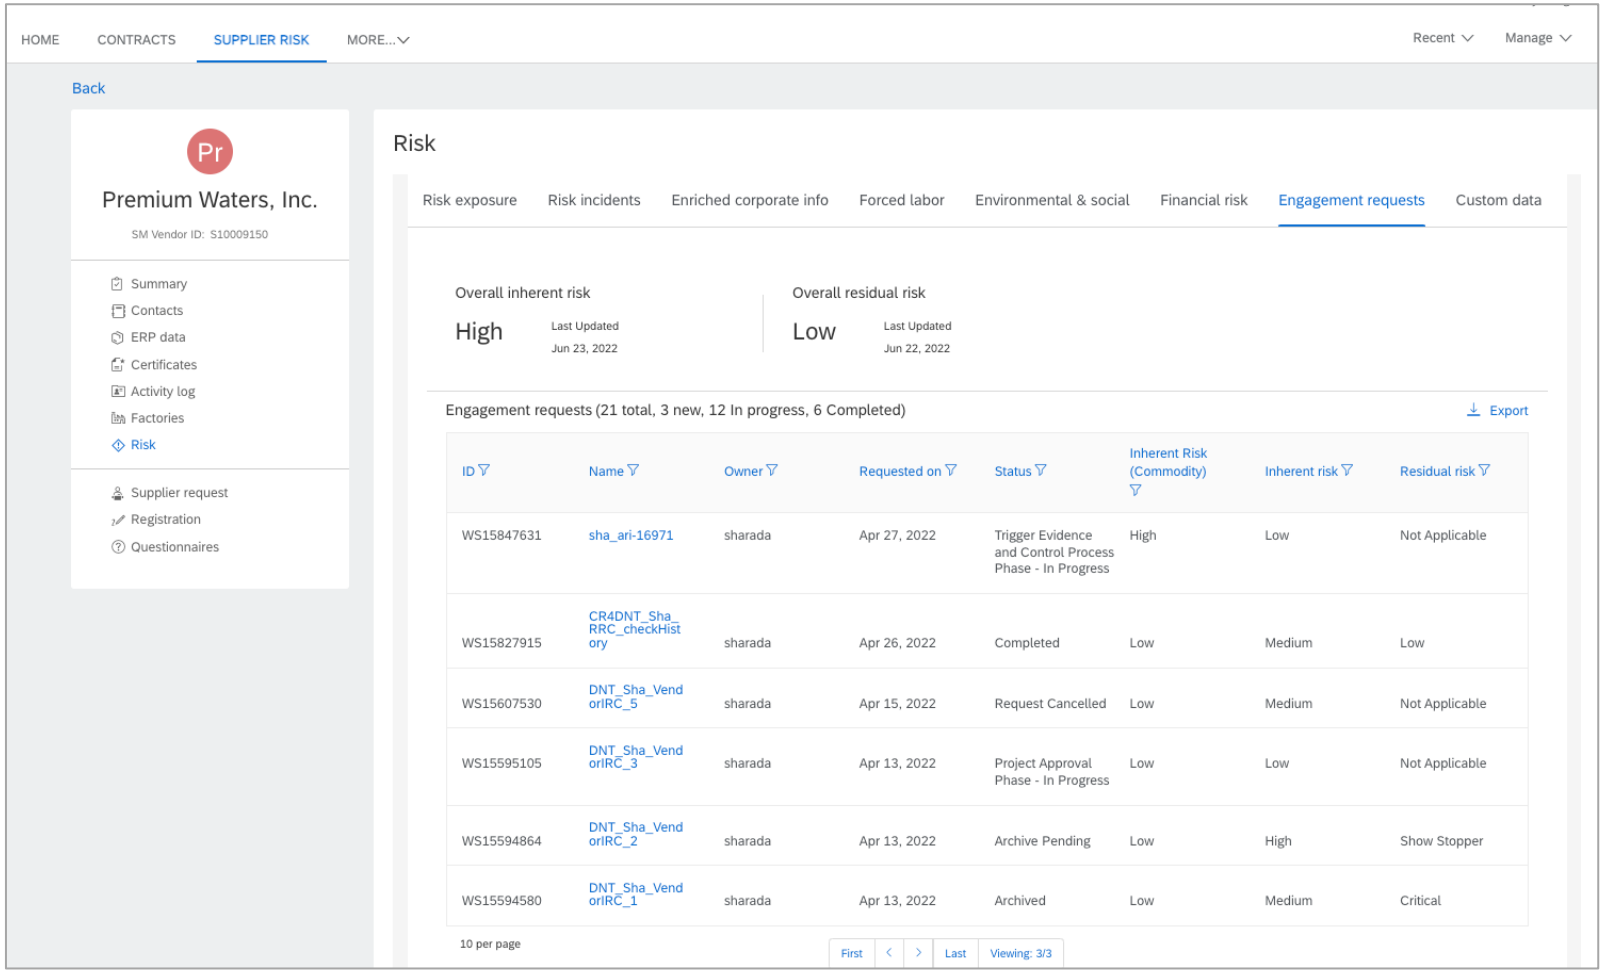
© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ***

Feature at a Glance

ARI-15804: Calculate supplier-level inherent and residual risk from risk domain values

- Evaluates engagement-level inherent and residual risk values to determine overall supplier-level risk ratings, with visibility into risk domains.
- This offers improved insight into the level and nature of risk across all live engagement projects for a single supplier.



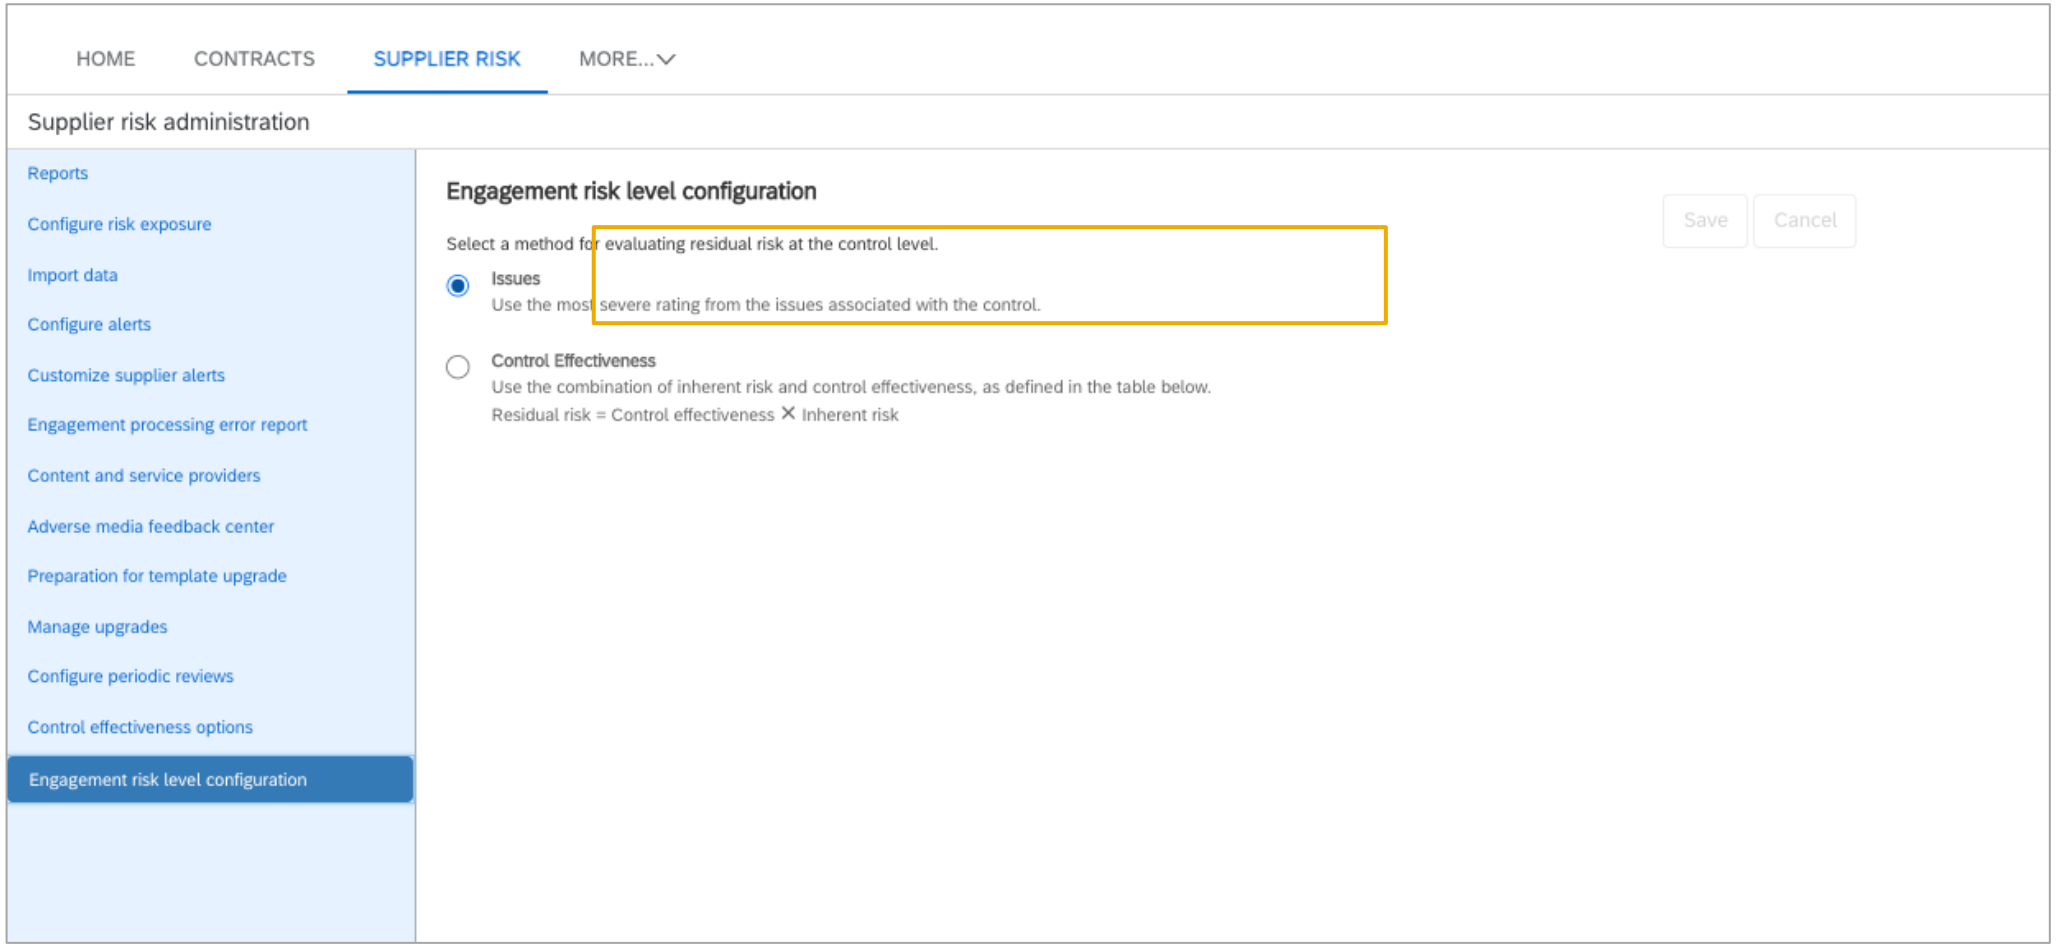
© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ***

Feature at a Glance

ARI-15805: Allow Using Control-Related Issues to Calculate Residual Risk by Risk Domain

- You can use the residual risk ratings calculated from issues associated with a control to arrive at a residual risk for the corresponding risk domain.

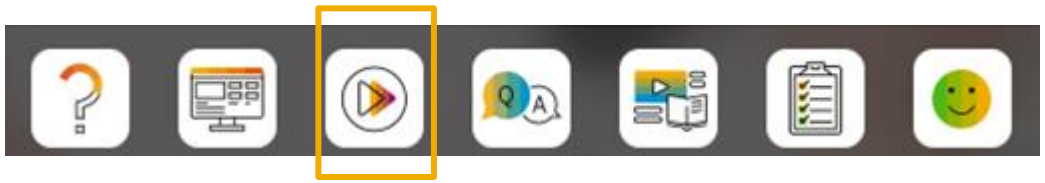


© 2022 SAP SE or an SAP affiliate company. All rights reserved.

*** A PDF file and Recording of today's presentation will be posted in Release Readiness area of connectsupport.ariba.com ***

Demonstration

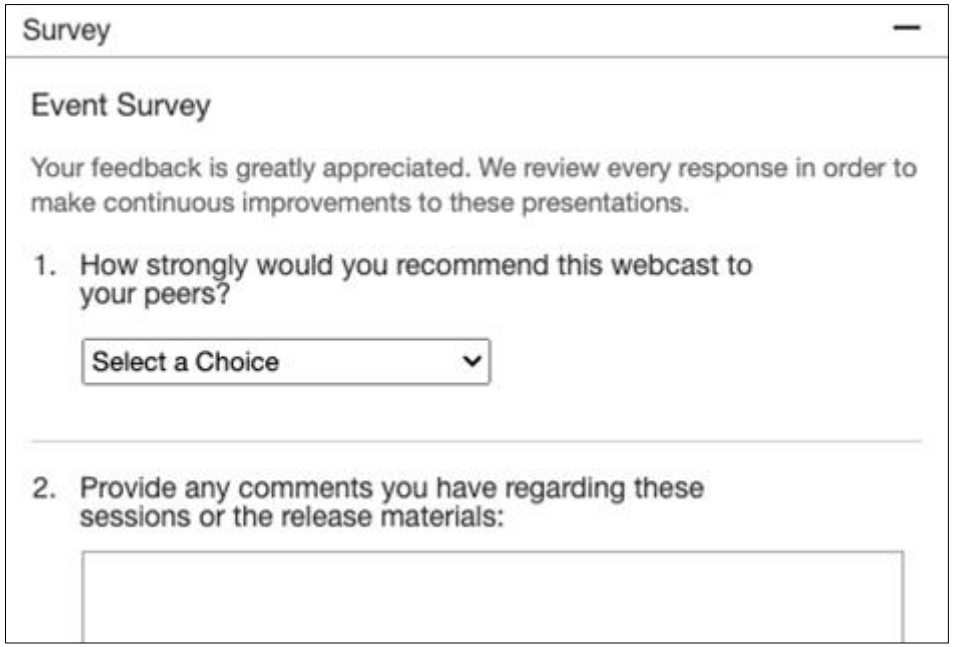
If you do not see the demonstration playing, please click the Media Player icon in your ON24 control panel



Survey / Feedback

At the end of the session, provide Survey feedback

- If not already visible, click the Survey button at the bottom of the screen.
- Answer the questions posed.
- Click Submit.



Your feedback is used to continually improve our customer engagement activities for our quarterly product releases.

Thank you for taking the time to share your thoughts with our team!
